

Public transportation, or mass transit, is more than just busses running along fixed routes through the urban areas of Central Ohio. Area transit agencies also provide some fixed-route service in suburban areas, paratransit service for people with disabilities and other on-demand transit services.

Four public transit agencies operate within the planning area:

- COTA: Central Ohio Transit Authority
- DATABus: Delaware Area Transit Agency
- LCT: Licking County Transit
- LPTS: Lancaster Public Transit System

Funding for COTA and DATABus must be included in the TIP because they operate entirely within the planning area. Funds for LCT and LPTS are not included in MORPC's TIP, because they operate mostly outside the planning area.

Most of the transit funding in the TIP is used for operations and capital purchases, which are not shown on the map. The map only shows funding for infrastructure that is tied to specific locations.
