

Mid-Ohio Regional Planning Commission

State of the Region 2009

Issue:
Metric:

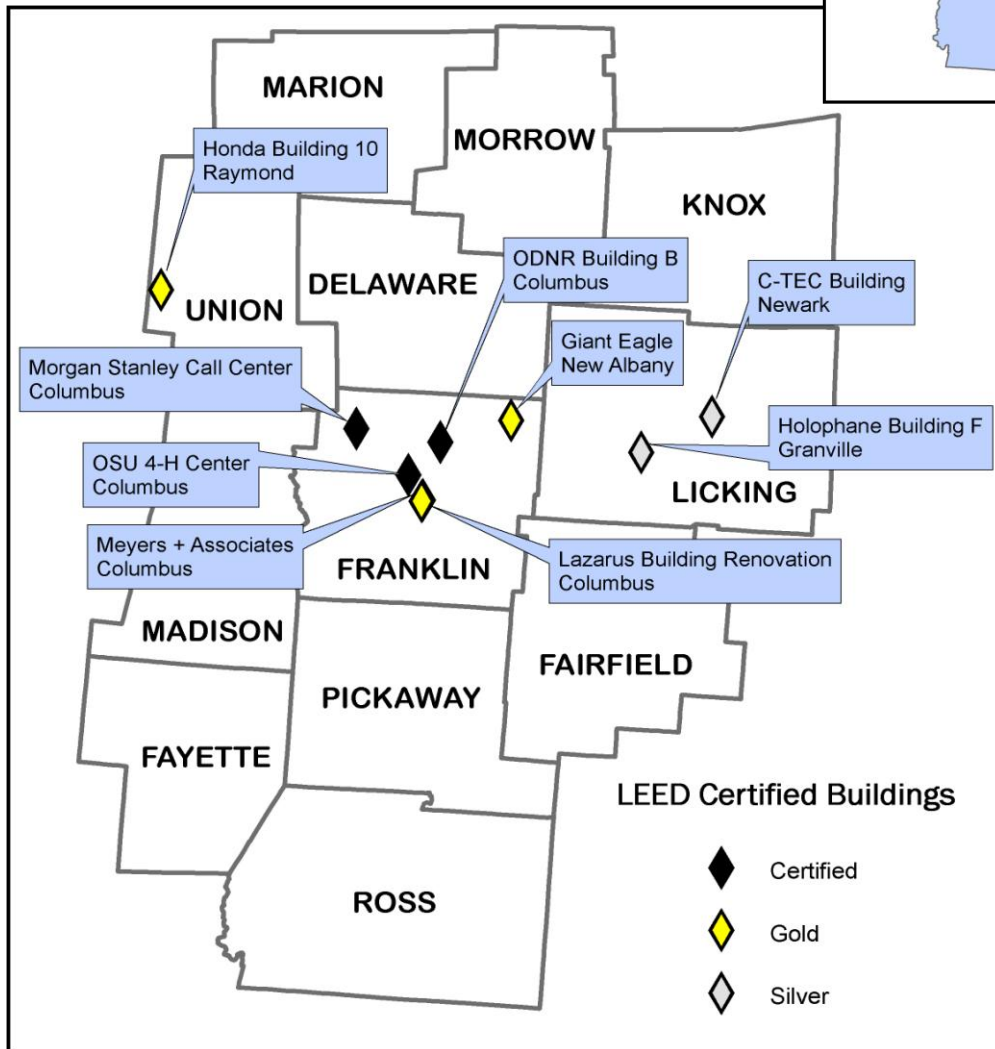

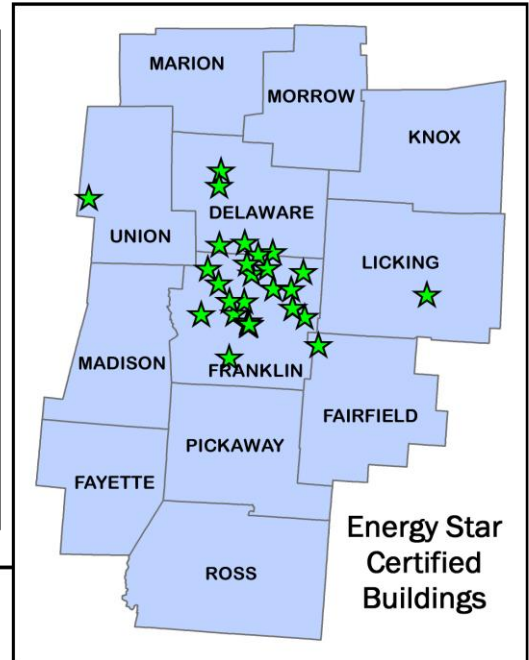

Prosperity Energy Efficient Buildings

Energy Star is a joint program of the US EPA and the US Department of Energy. The "Energy Star" is awarded to buildings and industrial plants that are evaluated as being in the top 25% with regard to energy efficiency.

The LEED (Leadership in Energy and Environmental Design) Green Building Rating System awards certifications to buildings that have an environmentally responsible design.

Through the Columbus Green Spot program, households, businesses, and community groups commit to help the environment. As of April 2009, there were 1,130 Green Spot members in central Ohio.

The following page lists all the Energy Star and LEED certified buildings in central Ohio as of March 2009.
