Transit Activity		PROG \$1,564 SEC 5316				PROG \$587 SEC 5316							
JARC-Job Assess & Reverse Commute, Transit Activity, provides grants for competitively selected projects to improve access to transportation services to employment, job training and support activities for welfare recipients and eligible low-income individuals. The program requires coordination of federally assisted programs and services in order to make the most efficient use of available resources. Capital and operating projects are eligible. Federal funds can be used for up to 50% of the net project cost for operating projects. Capital projects are eligible to be reimbursed for 80% of the total project cost. Projects must be competitively selected from locally developed coordinated public transit-human services transportation plans. Administrative funds available for 10% of total program. Local share for 5316 & 5317 requires a local match, this amount is subject to change as each funding source requires 50% match for operating or 20% match for capital projects. Specific project types cannot be identified until the locally developed plan is completed and projects are competitively selected. Matching funds must be of local or non-US DOT sources. SFY 2008 includes allocations from SFY2006 & 2007.		\$1,564				\$587
