Air Quality Summary | January 2019

Mid-Ohio Regional
Planning Commission

Central Ohio

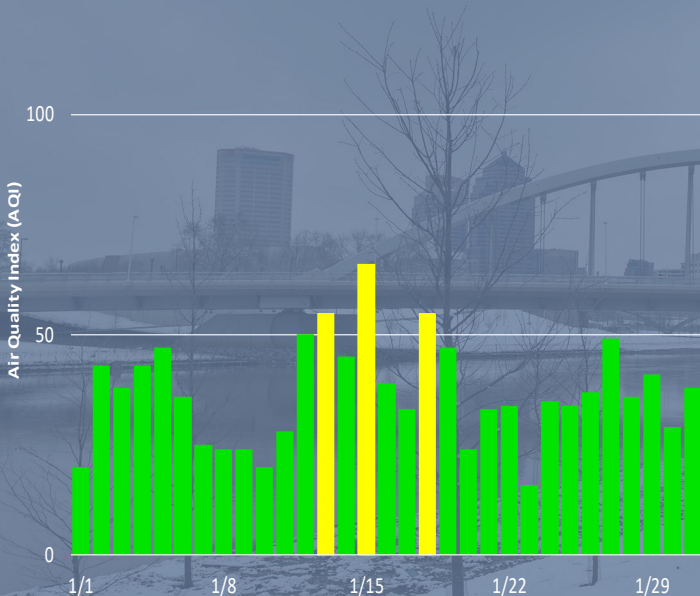

The Mid-Ohio Regional Planning Commission provides daily air quality forecasts and issues Air Quality Alerts to help you plan ahead and protect your health. For free Air Quality Alerts and more information please visit:

www.morpc.org/airquality

Air quality conditions in January 2019 were better than those recorded in January 2018 and January 2017. The highest pollutant levels of the month were observed on January 15. Despite a low-pressure trough west of central Ohio enhancing mixing, light to moderate southwesterly surface winds transported pollutants into the Columbus area, leading to mid-Moderate AQI levels.

Daily Maximum AQI for January 2019

In January 2019, AQI levels in the Columbus region were Good on 28 days and Moderate on 3 days. No Unhealthy for Sensitive Groups days were observed
