PROJECT OVERVIEW

The US 33/SR 161 and Post Road Interchange project upgrades the existing rural interchange into an urban interchange to improve safety, reduce congestion, and accommodate growth in the area. The proposed changes to the interchange will include two new loop ramps that will eliminate the existing left-turn conflicts to enter the US 33 ramps. The intersections with both the east and west ramp terminals will be controlled via multi-lane roundabouts that will ensure viable traffic operations well into the future.

TRAC REQUEST

Union County is requesting \$9.25 million in construction funding from ODOT's Transportation Review Advisory Council (TRAC) funding program. These funds are requested for state fiscal year 2022. This project previously received \$7 million in TRAC funding.
