

Air Quality Social Media Post Content

Each graphic is for a different level of air pollution that will be indicated in all Air Quality Alert communications from MORPC.

Facebook Copy:

Today is an Air Quality Alert day in Central Ohio.

To decrease the potential for health issues, sensitive groups of people (children, elderly, people with COPD or asthma) are urged to limit prolonged or strenuous outdoor activity.

Visit www.morpc.org/airquality for more information and to sign up for free alerts by email or text.
