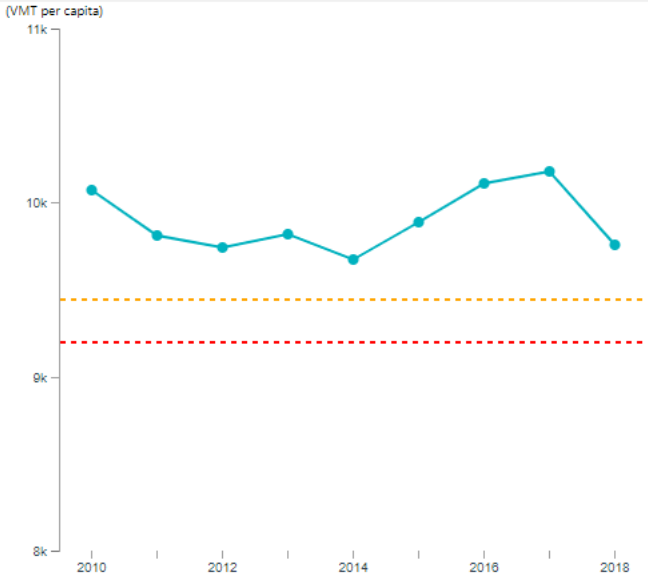
1.1 Reduce vehicle miles traveled



Vehicle miles traveled measures the amount of travel for all vehicles in a geographic area for a given time period. Reducing VMT will reduce per capita fuel and energy consumption while improving air quality. We can reduce VMT by creating more walkable, trail-oriented, and transit-friendly communities, as well as choose

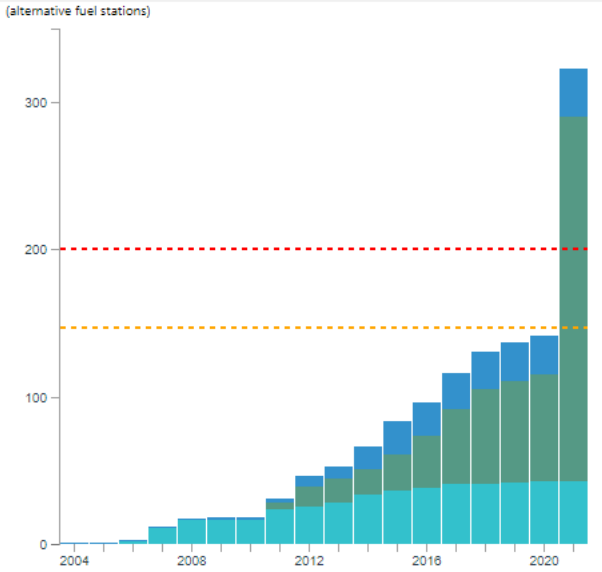
1.5 Increase alternative fuel stations



The choice to buy an electric vehicle (EV) or alternative fuel vehicle (AFV) is motivated, in part, by a consumer's confidence that there will be a place to recharge or refuel. The number of alternative fuel stations in Ohio continues to grow, with EV charging seeing the fastest growth rate among alternative fueling stations. MORPC and

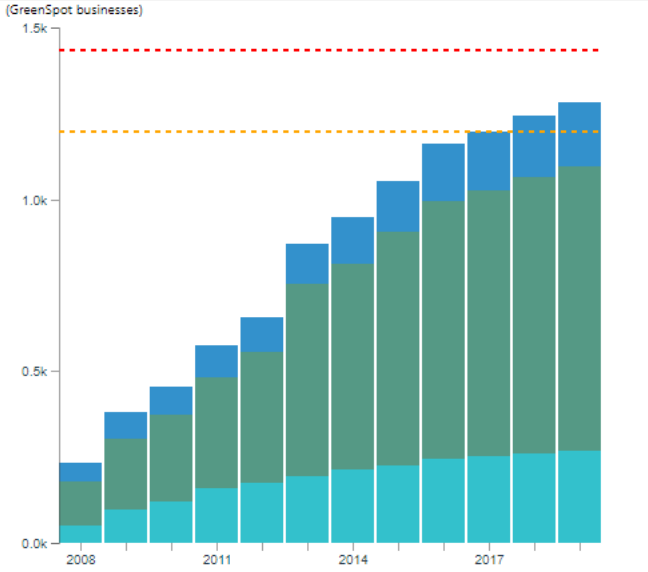
3.1 Increase sustainable businesses



GreenSpot is a program of the City of Columbus that promotes sustainability for homes, businesses, community groups, and neighborhoods. Businesses are categorized as office/educational, industrial, and restaurant/grocery types. They chose from a menu of commitments to inform/engage their customers, conserve and protect water,

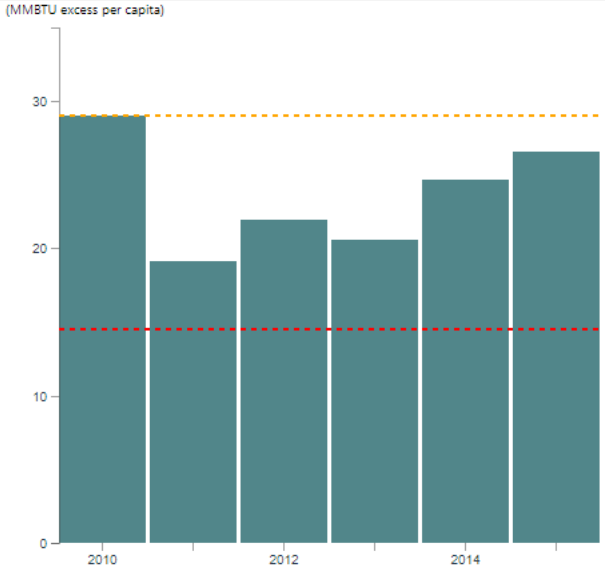
1.6 Reduce excess energy consumption



Just like the national average, the average energy consumption per person in Central Ohio tends to improve year over year, generally headed in a positive direction. However, this objective aims to reduce the difference between the national average for per capita energy consumption and the Central Ohio average with the goal aligning with the

POPULATION HUB

MORPC

MORPC

CENTRAL OHIO **POPULATION RESOURCE HUB**

CURRENT POPULATION IN CENTRAL OHIO COMMUNITIES

MORPC produces annual estimates of the population and housing units for cities, villages, townships, and counties in Central Ohio. Our estimates are based on broad changes in the population at the county level (using administrative records on births, deaths, and migration), as well as housing activity at the local level (using building permit data collected from 50 permitting agencies throughout the region).

FOR DISCUSSION

- What questions do you have about these platforms?
- Can any of these options be ruled out?
- Which options would you like to explore further?
- Are there other options the group would like to consider?
- Bring Adam Porr to next meeting for more detailed discussion?
