PLANNING COMMISSION

WHAT IS THE METROPOLITAN TRANSPORTATION PLAN (MTP)?

- Identifies regional transportation strategies and projects
- Long-range (20+ years)
- Fiscally constrained
- Formal document submitted to ODOT and USDOT every 4 years

WHY IS THE MTP IMPORTANT?

- **Central Ohio is growing**
 - Demographics are changing
 - Development is changing
 - Demands on the transportation system are changing
- **Transportation projects must be on MTP to be eligible for federal funding**
 - Formula & Discretionary (BIL)
 - Guides the work of MORPC and regional and local planning partners

By guiding investment in transportation and mobility infrastructure and services in Central Ohio, the MTP identifies strategies to advance the following six goals:

Create sustainable neighborhoods to improve all residents' quality of life.

Increase regional collaboration and employ innovative transportation solutions to maximize the return on public expenditures.

Position Central Ohio to attract and retain economic opportunity to prosper as a region and compete globally.

Provide transportation and mobility options to benefit the health, safety, and welfare of all people.

Protect natural resources and mitigate infrastructure vulnerabilities to maintain a healthy ecosystem and community.

Reduce per capita energy consumption and promote alternative fuel resources to increase affordability and resilience of regional energy supplies.
