COMMUNITY-BASED PLANNING ASSISTANCE (CBPA)

PURPOSE / GOAL

The main goal of the Community-Based Planning Assistance Program is to *assist our local governments with managing increased workloads and making it easier to access consultant services to conduct important long-range planning efforts, such as comprehensive plans and zoning codes.*

WHAT PROGRAMS DO YOU OFFER?

MORPC has added the Consultant Services Program and Planner Pool Program to its already existing Technical Assistance Program (TAP) and Summer Internship Program. A high-level summary of each program is described below.

HOW DOES THIS WORK?

Through a singular online form, communities can request technical assistance. MORPC will then review the requests and meet with communities to help connect them to the best resources available for realizing their community goal(s). To learn more or register for a program, please visit: <https://www.morpc.org/community-based-planning-assistance> or contact Jonathan Miller (jmiller@morpc.org).
