Re: West Broad Street Bus Rapid Transit Corridor Neighborhood Access  
and Equity (NAE) Capital Construction and Regional Partnerships  
Challenge Grants Application

Dear Secretary Buttigieg,

The Franklin County Board of Commissioners supports the Central Ohio Transit Authority's (COTA) request for funding from Capital Construction and Regional Partnership Challenge Grants within the USDOT NAE Grant Program for the West Broad Street Bus Rapid Transit (BRT) corridor.

The West Broad Street BRT corridor is the first rapid transit corridor that will be constructed as part of the regional LinkUS partnership of COTA, City of Columbus, Franklin County, and the Mid-Ohio Regional Planning Commission. LinkUS is Central Ohio's comprehensive mobility initiative to help address growth, affordability and opportunity gaps in our community.

This investment will greatly improve the opportunity gaps along this West Broad Street BRT corridor, which stem from significant socio-economic disparities: approximately 76% of residents live within an area of persistent poverty; 36% of residents are Black, Indigenous, or persons of color; 30% of residents live below the federal poverty level; and 16% of households lack access to a personal vehicle. The West Broad Street BRT will expand access, increase safety and enhance mobility for corridor residents as well as the thousands of people working within the corridor.

The West Broad BRT corridor is projected to support the addition of 40,000 more residents along the corridor by 2040; and connect nearly 100,000 jobs along the corridor by 2040. The corridor will also provide the regional

workforce to Columbus State Community College, a federally designated anchor institution for the Columbus Workforce Hub and the lead institution for the National Information Technology Innovation Center.

LinkUS will use the spaces surrounding the BRT stations to invest in trails, bikeways, accessible pedestrian paths and sidewalks, making it safer and more convenient for people to walk, bike and ride public transit. These spaces also offer an opportunity for equitable transit-oriented development to ensure that everyone in our communities' benefits from this generational investment. Our community is also seeking a USDOT Pilot Program for Transit-Oriented Development (TOD) Planning Grant for the West Broad BRT to help us complete a capacity, economic, and market analysis for transit stops on the corridor. In addition, in 2022, COTA was awarded a Regional Infrastructure Accelerator Grant from the Build America Bureau. The West Broad Street BRT Corridor is also in the CIG pipeline in project development.

These milestones were only possible due to the strong partnership and commitment of COTA, the City of Columbus, Mid-Ohio Regional Planning Commission, and Franklin County. We believe that the transformational impact that the West Broad BRT will make in our community perfectly aligns with both the Capital Construction and Regional Partnership Challenge Grant components of the NAE Grant. We encourage USDOT to fund this application, and we thank you for your consideration.

Sincerely,

John O'Grady  
Board President
