1200 New Jersey Avenue S.E.  
Washington, D.C. 20590

Re: West Broad Street Bus Rapid Transit Corridor Pilot Program for Transit-Oriented Development (TOD) Planning

Dear Secretary Buttigieg,

On behalf of COSI, I am writing in support of the Central Ohio Transit Authority's (COTA) request for funding under the Pilot Program for Transit Oriented Development (TOD) to conduct comprehensive capacity, economic, and market analysis as well as resource and policy recommendations for the remaining transit stations along the West Broad Street Bus Rapid Transit (BRT) corridor.

COSI is the "#1 Science Museum in the Country" as voted by USA Today's 10Best for four years in a row and the recipient of the 2023 National Medal for Museum and Library Service. For nearly 60 years, we have been located in Columbus and serving the central Ohio region by inspiring curiosity and interest in science, technology, engineering, and math (STEM) topics and delivering our experiential, "hands-on fun" brand of learning.

We are a committed community partner to the city, the region, and all its residents. By increasing the connectivity of the West Broad Street corridor, we will expand access to cultural and educational institutions, like ourselves, removing one persistent barrier to access for many of our central Ohio families. Additionally, by expanding access, increasing safety, and enhancing mobility, the West Broad Street BRT corridor will help to spur further economic development in and around our museum, supporting our neighborhood of Franklinton and the entire West Broad Street corridor.

The strong partnership of COTA, the City of Columbus, Mid-Ohio Regional Planning Commission, and Franklin County and the major impact that the West Broad BRT will make in our community perfectly aligns with Pilot Program for TOD. COSI wholeheartedly encourages USDOT to fund this application and thank you for your consideration.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Frederic M. N. Bertley', is written over the 'Sincerely,' text.
