Re: West Broad Street Bus Rapid Transit Corridor Pilot Program for Transit-Oriented Development (TOD) Planning

Dear Secretary Buttigieg,

LEADERSHIP TEAM

Douglas F. Kridler
President and CEO

On behalf of The Columbus Foundation, I am writing in support of the Central Ohio Transit Authority's (COTA) request for funding under the Pilot Program for Transit Oriented Development (TOD) to conduct comprehensive capacity, economic, and market analysis as well as resource and policy recommendations for the remaining transit stations along the West Broad Street Bus Rapid Transit (BRT) corridor. The West Broad Street BRT corridor is the first rapid transit corridor that will be constructed as part of the regional LinkUS partnership. LinkUS is Central Ohio's comprehensive mobility initiative to help address growth, affordability and opportunity gaps in our community. In 2022, LinkUS was awarded a Regional Infrastructure Accelerator Grant from the Build America Bureau and the West Broad Street BRT was accepted into the Small Starts FTA CIG program.

J. Bradley Britton, J.D., LL.M.
Director and General Counsel

Tamera Durrence
Vice President

Scott G. Heitkamp, CPA
Vice President and CFO

Central Ohio is one of the fastest growing regions in the country, and is on track to increase by 726,000 more residents over the next 25 years. Although this growth brings with it much opportunity and new investment, it also presents a complex array of interrelated challenges, including the need to be a more connected community with more transportation options for more people. Despite the general consensus about the need for increased mobility and a multimodal transportation, we know that all long-term solutions begin with specific projects and phases, which is the crucial first step that the West Broad Street BRT corridor represents in our community.

Steven Moore
Chief of Staff

Gregg Oosterbaan
Vice President

Angela G. Parsons, J.D.
Vice President

As one of the largest community foundations in the country, we work at the intersection of the many challenges and opportunities facing Columbus and central Ohio. And though there are no finish lines or silver bullet solutions to the most complex issues facing our community or the global community, we know that transportation represents an essential link to opportunity for so many individuals and families, as well as the thousands of nonprofit organizations that serve this community. We believe the impact the West Broad BRT will have in our community perfectly aligns with the Pilot Program for TOD. Our organization wholeheartedly encourages USDOT to fund this application and we thank you for your consideration.

Dan A. Sharpe
Vice President

Pamela S. Straker
Director

Amy Vick
Vice President

Sincerely,

Douglas F. Kridler
