

Wednesday, June 4th, 2025 | 12:00 p.m. - 4:30 p.m.

The Ohio State University Vitria on the Square | 14 East 15th Avenue, 2nd Floor, Columbus, Ohio

The Mid-Ohio Regional Planning Commission (MORPC) is Central Ohio’s voice. As a regional council with more than 90 local governments and community partners, we provide nonpartisan data analysis, community resources and long-range planning. Together, we drive the future prosperity and sustainability of the Central Ohio region.

Our area is rapidly ascending, one of the fastest-growing regions of the Midwest and home to billions of dollars in new economic development on the cutting edge of technology, such as Intel, Honda, LG, and other investments in electronics, automotives, software, and allied sectors. While this growth is notable, we must work together to creatively manage and address the stress it places on our mobility networks to ensure everyone can benefit.

In partnership with various regional stakeholders, the Transportation Innovation Forum will provide an opportunity for elected leaders, policy makers, transportation practitioners, and other stakeholders to learn, share knowledge and collaborate on issues of mutual interest.

The 2025 Forum, “Smart Moves. Efficient Solutions.” will platform engaging conversations on innovation in transportation systems, management ideas, and initiatives, with sessions featuring regional and national experts focused on technologies and strategies to transform our transportation systems.
