

MID-OHIO REGIONAL  
**MORPC**  
PLANNING COMMISSION

111 Liberty St., Suite 100  
Columbus, Ohio 43215  
[www.morpc.org](http://www.morpc.org)

**NOTICE OF A MEETING  
CENTRAL OHIO GREENWAYS TRAIL DEVELOPMENT (URBAN)  
WORKING GROUP  
MID-OHIO REGIONAL PLANNING COMMISSION**

***REMOTE MEETING***  
**June 5, 2025, 9:30 am**

**AGENDA**

**Welcome & Introductions**

**Indianapolis Trails to Transit Prioritization**

Donny Donoghue, MKSK, presented on trail planning in other regions, specifically his work with the City of Indianapolis on a strategic update to their Greenways Plan.

Prioritization Process

He discussed the prioritization process and the importance of connecting people, underserved communities, and promoting growth and development. The process also involved segmenting the network, establishing criteria and analysis, and weighting and aggregating criteria to guide priority tiers, with an emphasis on the importance of storytelling and data in this process. Donny explained how criteria are weighted and aggregated to guide priority tiers, allowing for different scenarios to be tested and adjusted based on community and advisory committee input. Progress made in Indianapolis included the addition of new miles to the Greenway network.

Public and Advisory Committee Input

Donny described how MKSK staff gathered input from the Advisory Committee and the public to guide the prioritization process. The Advisory Committee focused on connectivity and sustainable funding, while the public prioritized quality of life indicators and serving underserved populations.

Report Cards

Donny introduced the concept of report cards for each Greenway, which provide detailed information about the projects and corridors, including their importance, supporting projects, and potential funding mechanisms. The report cards helped communicate the rationale for prioritizing certain projects to residents, funders, and public agencies, making the prioritization process more transparent.

Prioritization Discussion

MORPC staff and Members discussed the potential for updating the COG trail prioritization process and incorporating report cards. They considered the importance of environmental criteria and the need for regional prioritization in addition to local priorities.

Pathways to Prioritization

Members and staff discussed the idea of not only prioritizing trails, but other amenities, walking and biking infrastructure, and destinations near the prioritized corridor that activate the trail. This would help promote use of the trail.

**William Murdock, AICP**  
Executive Director

**Chris Amorose Groomes**  
Chair

**Michelle Crandall**  
Vice Chair

**Ben Kessler**  
Secretary

### **LinkUS Transit Supportive Infrastructure (TSI) Project Recommendations**

Member Ashworth and Chair Andrako discussed the potential for the COG Board to endorse TSI projects, giving them additional weight in the selection process. They emphasized the importance of regional projects and the need for a formal process to integrate COG priorities into TSI project selection to ensure that regionally significant projects receive the necessary support..

### **Gateways of Regional Significance**

Melinda Vonstein shared the definition of Gateways of Regional Significance, describing them as premier trailheads that connect users to nearby trail towns and serve as prominent sites for place-making and community identity. She proposed organizing a smaller group to identify the specific amenities these Gateways should have. This group will report back to the Working Group with their findings.

### **Closing / Next Steps**

Staff will organize a smaller group conversation to identify the specific amenities that a Gateway of Regional Significance needs to have and those that would be desirable.

It was suggested that the COG Board recommend regional projects, such as the Linden Green Line, to the TSI committees to ensure they are considered for prioritization and funding, and develop an ongoing strategy for the COG Board to endorse or recommend TSI projects, ensuring regional significance is considered in the evaluation process.

### **Adjourn**

**Please notify Lynn Kaufman at 614-233-4189 or [LKaufman@morpc.org](mailto:LKaufman@morpc.org) to confirm your attendance for this meeting or if you require special assistance.**

**The next Trail Development (Urban) Working Group Meeting  
will be August 21, 2025, at 9:30 am.  
Details to follow.**

Mid-Ohio Regional Planning Commission  
*Hybrid Meeting*

Central Ohio Greenways Trail Development – Urban  
Working Group Meeting

June 5, 2025

---

Members Present

- Mike Andrako, Franklin County Engineer's Office
- Brian Ashworth, City of Columbus
- Laura Ball, City of Westerville
- Beth Hugh, Korda Nemeth Engineering
- Ryan Hughes, Central Ohio Mountain Biking Organization
- Dan Kaderly, Quarry Trails Metro Park
- Kimberly Moss, OSU
- Lexi Petrella, Alta Planning & Design
- Eric Oberg, Rails-to-Trails Conservancy
- Andrew Overbeck, MKSK
- J.M. Rayburn, City of Dublin
- Letty Schamp, City of Hilliard
- Co-Chair Kelly Scocco, City of Columbus
- Brad Westall, City of Columbus

Staff Present

- Morgan Fuller
- Riky Jimenez Cuduco
- Lynn Kaufman
- Melinda Vonstein

Public Present

- Collin Adams, City of Obetz
- Taylor Casey, COTA
- Donny Donoghue, MKSK
- Emma Kogge, Alta Planning & Design

# INDIANAPOLIS GREENWAYS

## Strategic Implementation Plan

COG Working Group

06/05/25

**MKSK**

# PRIORITIZE THIS!

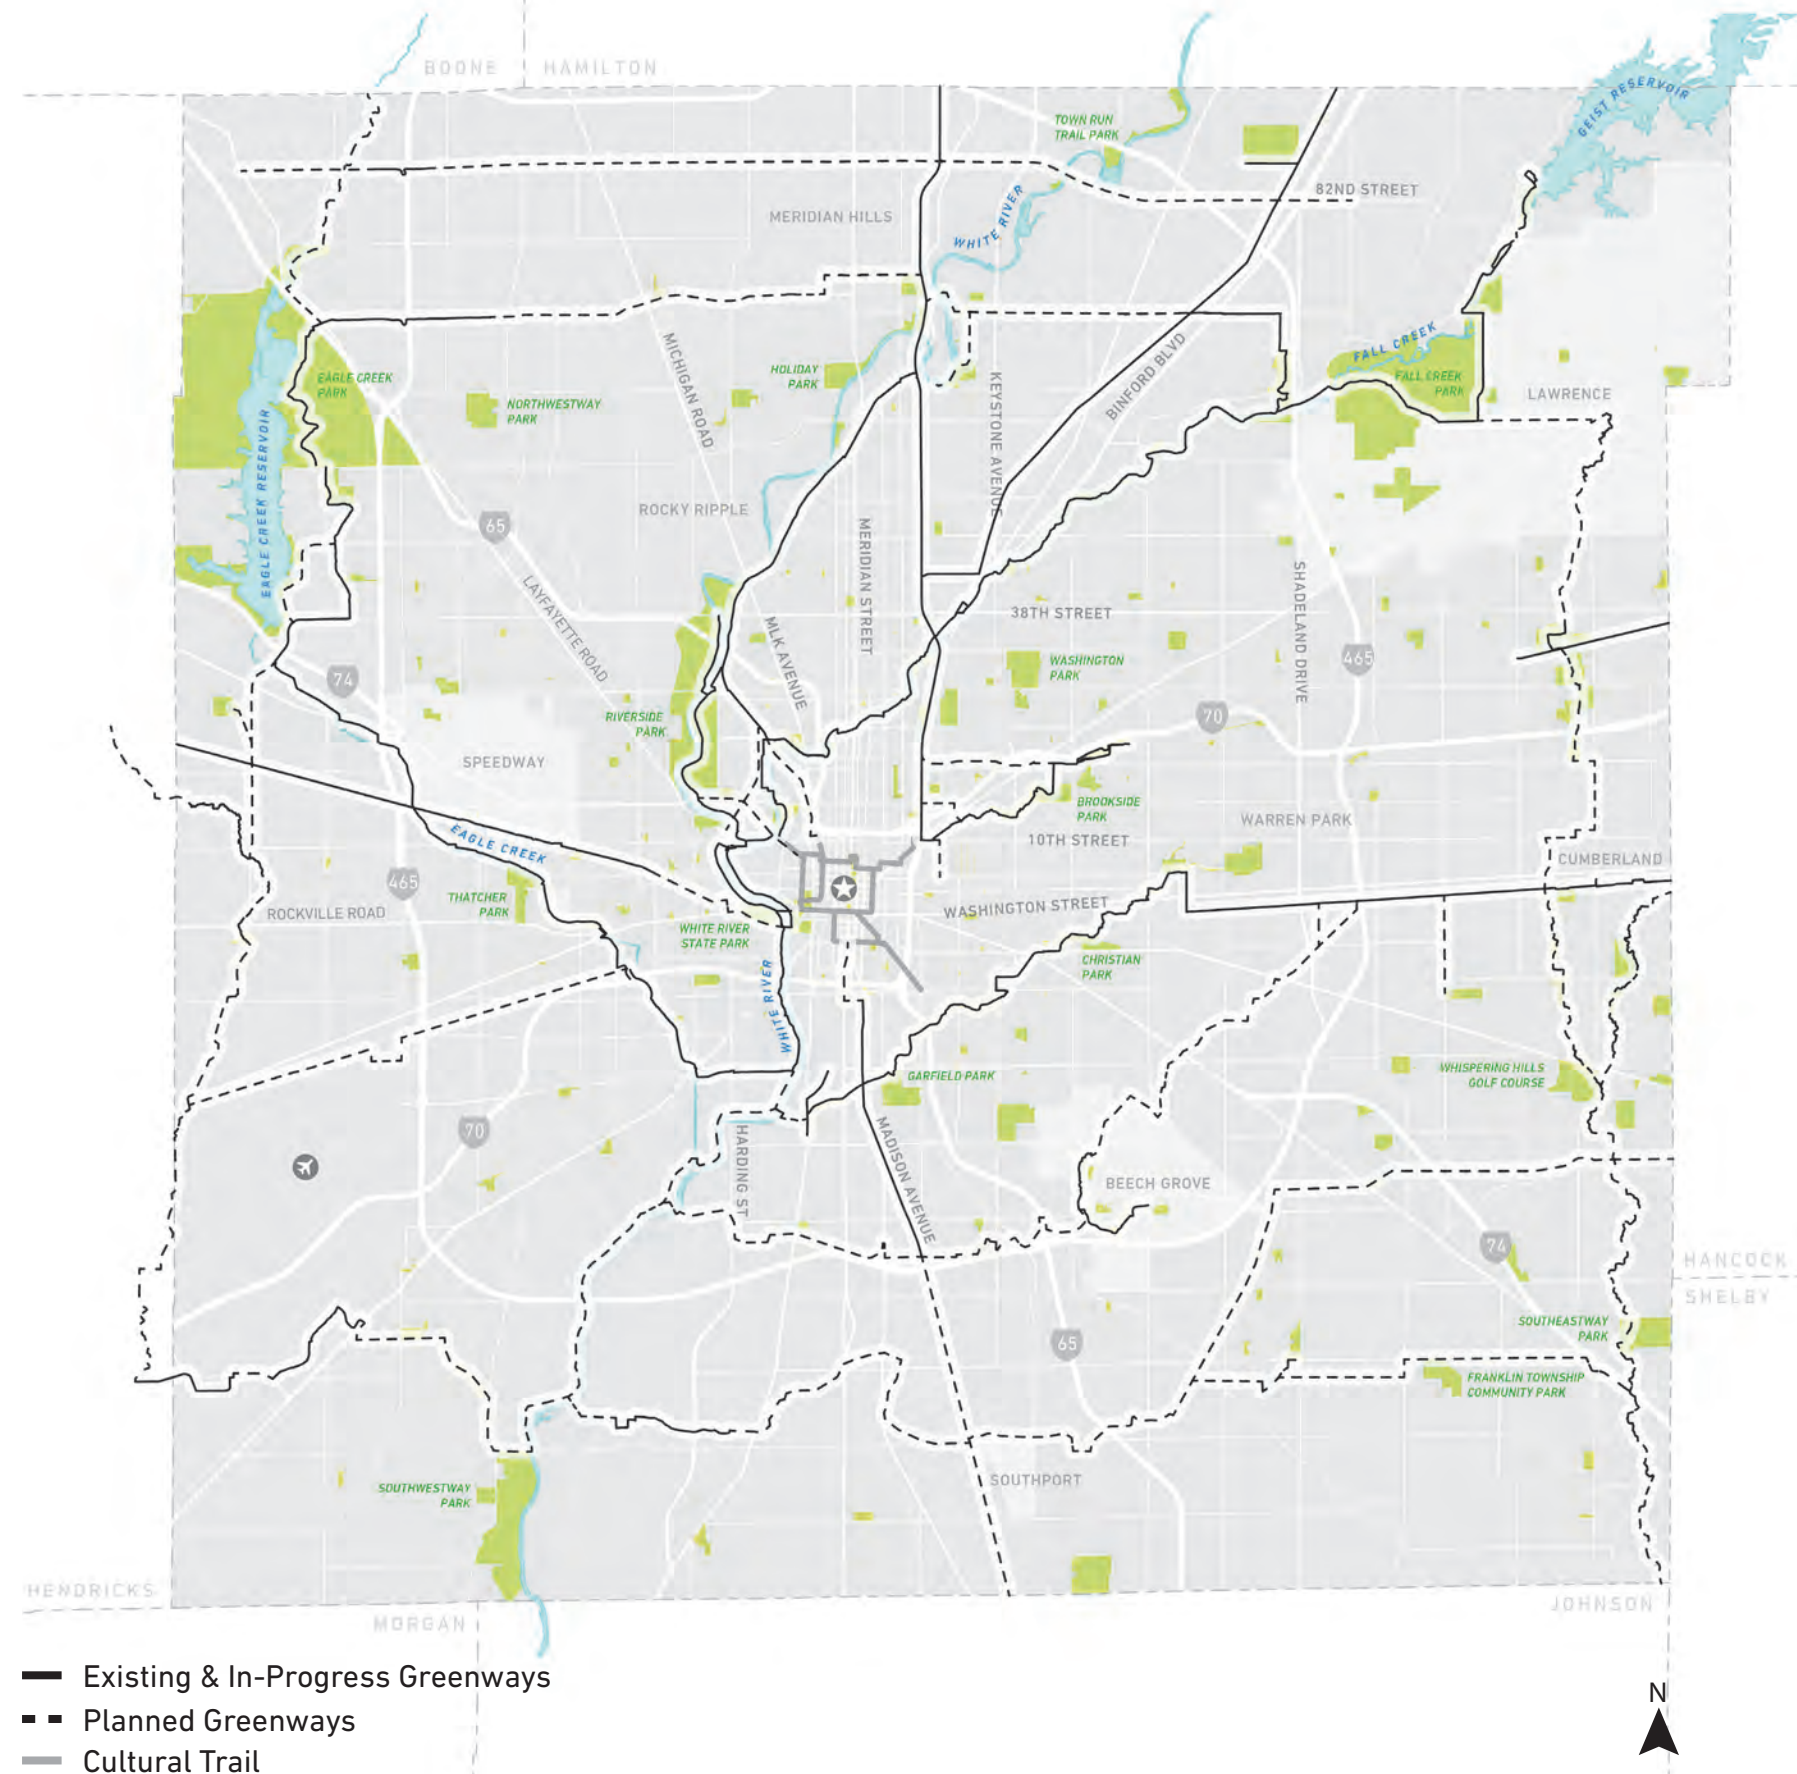

- + Study Introduction
- + The State of the Indy Greenways
- + Prioritization Process

# PLAN VISION

To build on the existing plan and **create a framework for the completion and sustained excellence** of a connected, equitable, and beloved Indianapolis Greenways system.

BUILDING THE NETWORK

# 2014 NETWORK

Year	Miles	Population*	Jobs*
PRE-2014	62.8	200,426	187,007

24% of the Greenway Network Greenway was built before 2014.

\*Access is defined as proximity within a 1-mile travelshed

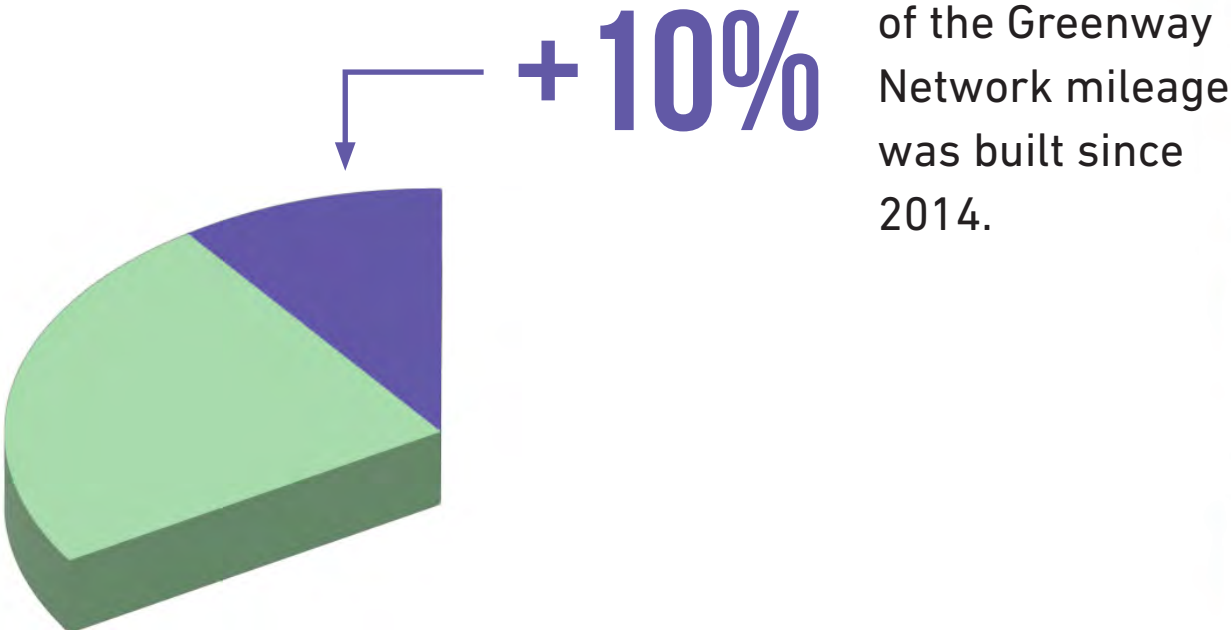

BUILDING THE NETWORK

# 2024 NETWORK

Year	Miles	Population*	Jobs*
PRE-2014	62.8	200,426	187,007
2014-2024	27.1	98,684	57,110

\*Access is defined as proximity within a 1-mile travelshed

BUILDING THE NETWORK

# IN-PROGRESS NETWORK

Year	Miles	Population*	Jobs*
PRE-2014	62.8	200,426	187,007
2014-2024	27.1	98,684	57,110
IN-PROGRESS (2024-2028)	30.4	63,922	60,093

**+11%** of the Greenway Network mileage is currently funded and in-progress.

\*Access is defined as proximity within a 1-mile travelshed

BUILDING THE NETWORK

# PLANNED NETWORK

Year	Miles	Population*	Jobs*
PRE-2014	62.8	200,426	187,007
2014-2024	27.1	98,684	57,110
IN-PROGRESS	30.4	63,922	60,093
PLANNED	145.8	262,397	168,358

**+55%** of the Greenway Network mileage is planned.

\*Access is defined as proximity within a 1-mile travelshed

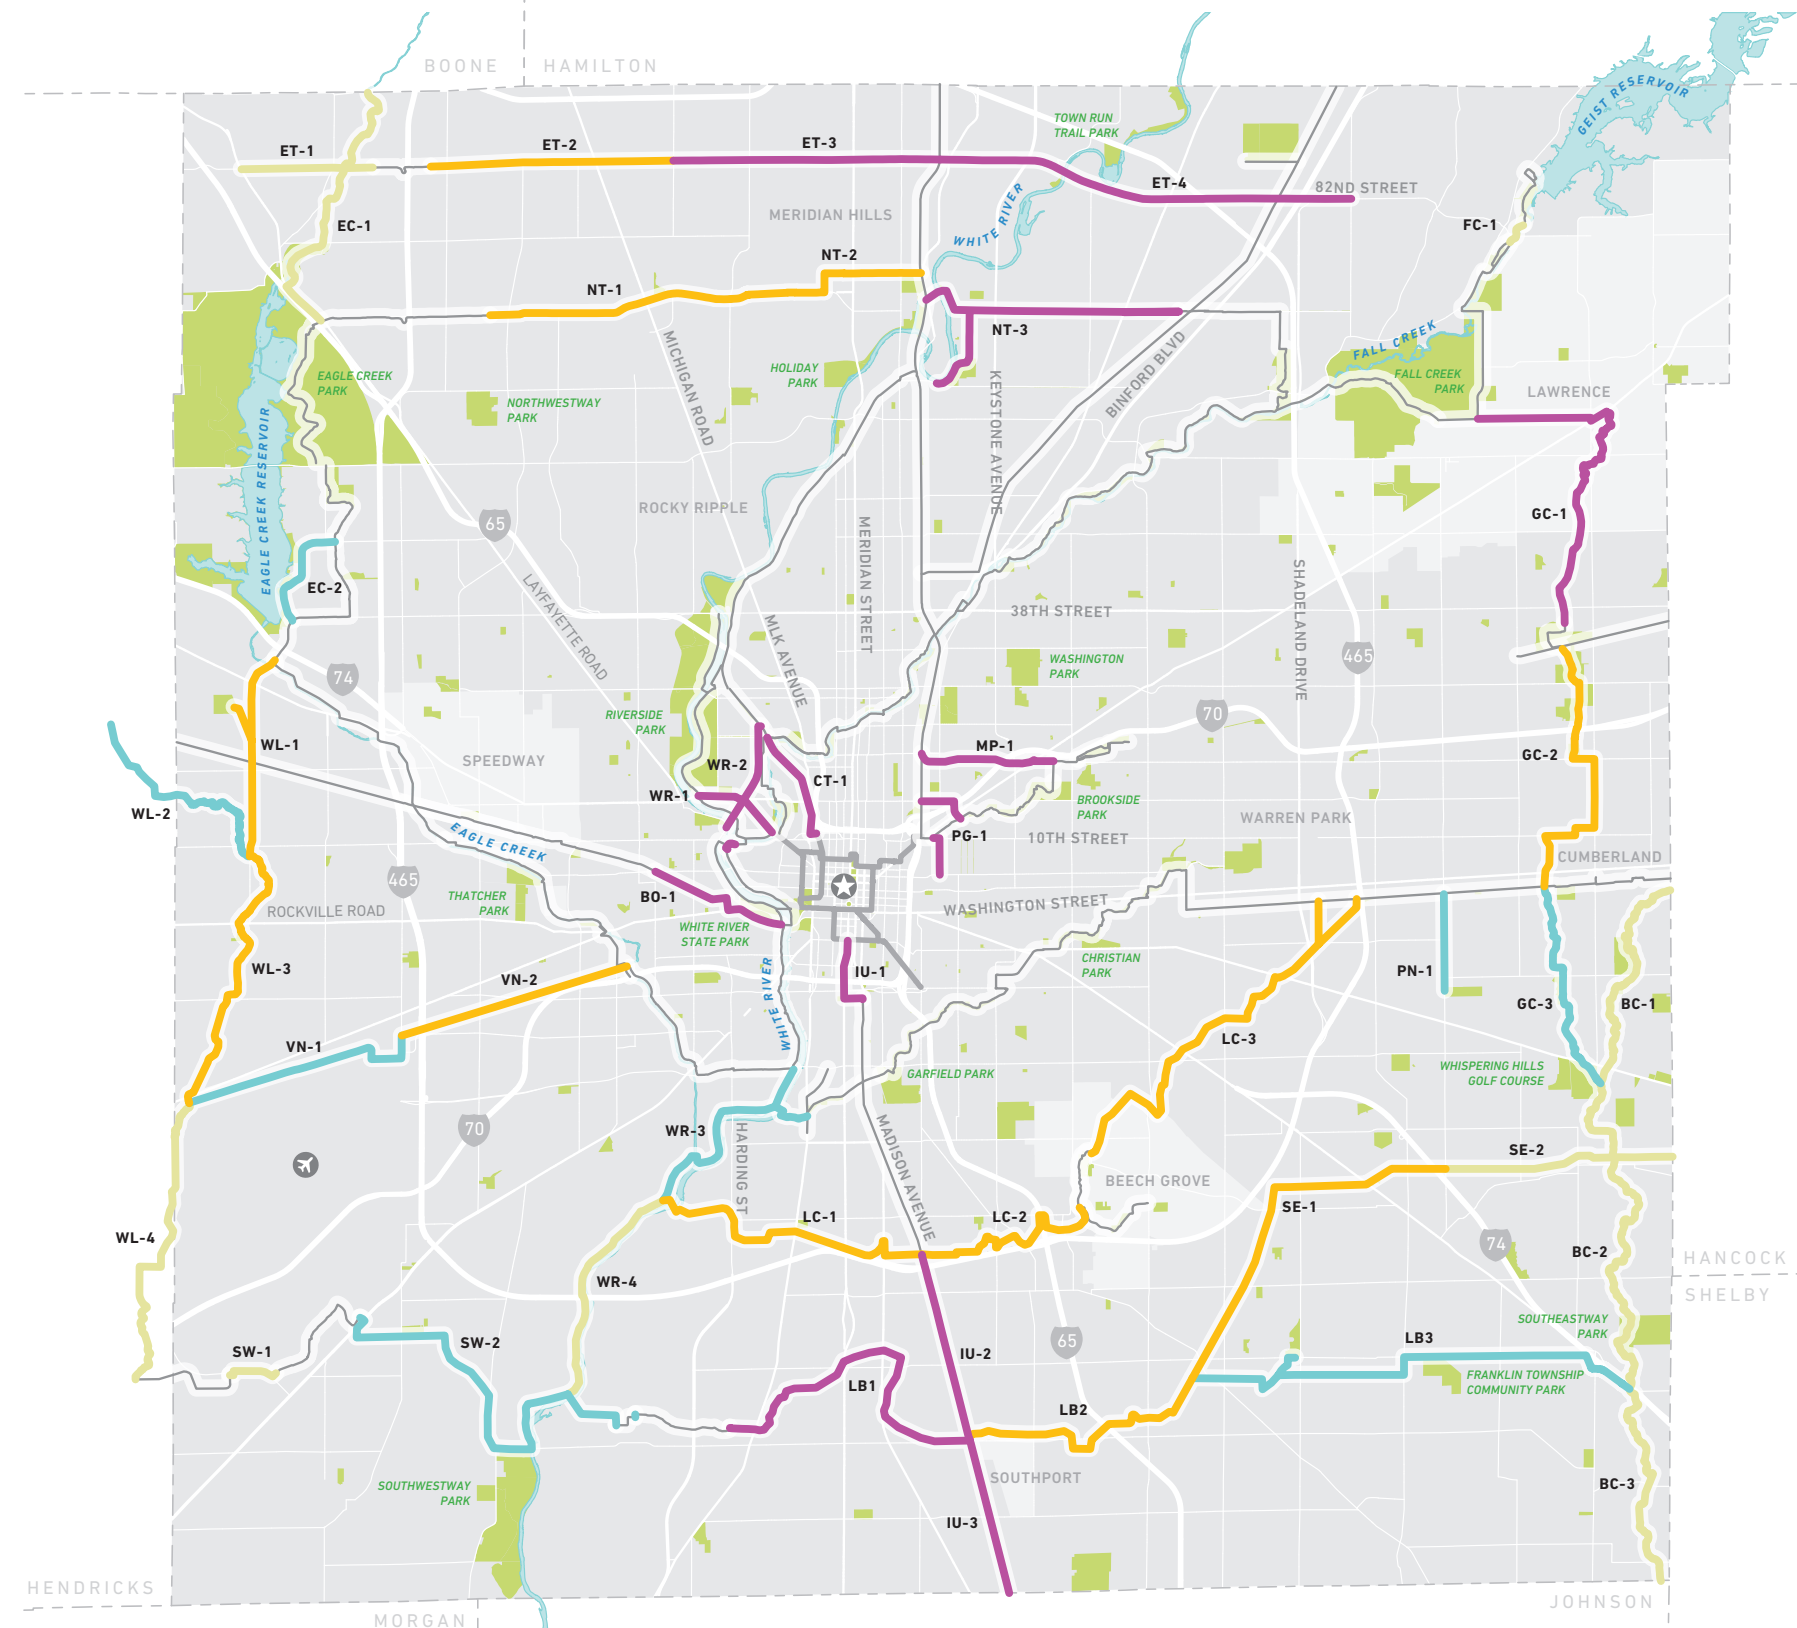

**LET'S TALK ABOUT  
PRIORITIZATION!**

# WHAT IS THE END GOAL?

- + **Tiers** of Priority Projects.
- + **Individualized Report Cards**,  
breaking down all the necessary  
details of each Greenway Project &  
Corridor to set up next steps
- + **Guidance on How To Use**  
Prioritization to inform next steps

DRAFT MAP, FOR ILLUSTRATIVE PURPOSES ONLY

# WHAT IS THE END GOAL?

## GREENWAY CORRIDOR

## RATIONALE FOR PRIORITY

## FUNDING & TROD OPPORTUNITIES

### B&O TRAIL

Provides connection to Speedway and Downtown from Hendricks County along the former B&O Rail Corridor.

Greenway Profile

- + **Urban Rail-Trail** <sup>1</sup>
- + **\$XX,XXX** to complete <sup>2</sup>
- + **\$XX,XXX** in economic benefits annually <sup>3</sup>

Greenway at a Glance

- + **8.6 mile** greenway corridor
- + **3.5 miles (40.7%)** existing
- + **3.1 miles (36.6%)** in-progress
- + **XX,XXX** residents
- + **XX,XXX** jobs

The B&O Trail...

Serves Underserved Populations

Supports Economic Development

Protects Conservation Corridors

Indianapolis Greenway Projects <sup>4</sup>

- 1.1 Point A to Point B:** X.X Miles segment from point A to point B, connecting to destination X and destination Y.
- 1.1 Point B to Point C:** 40.7% of the trail was constructed since 2014, with an additional 36.0% under-construction as of 2025.
- 1.1 Connector Trail:** 40.7% of the trail was constructed since 2014, with an additional 36.0% under-construction as of 2025.

Supporting Projects <sup>5</sup>

- 1.1 Regional Trail Connection:** X.X Miles segment from point A to point B, connecting to destination X and destination Y.
- 1.1 Connector Trail 1:** 40.7% of the trail was constructed since 2014, with an additional 36.0% under-construction as of 2025.
- 1.1 Connector Trail 2:** 40.7% of the trail was constructed since 2014, with an additional 36.0% under-construction as of 2025.

Primary Funding Mechanisms <sup>6</sup>

- + Mechanism #1
- + Mechanism #2
- + Mechanism #3

TrOD Opportunities <sup>7</sup>

- 1.1 Regional Center:** X.X Miles segment from point A to.
- 1.1 TrOD #2:** X.X Miles segment from point A to.

Greenway & Trail Connections

- + B & O Trail ( Brownsburg)
- + P & E Trail (Speedway)
- + White Lick Creek Greenway
- + Eagle Creek Greenway
- + White River Greenway

Parks Served

- + Leonard Park
- + Olin Park
- + Stringtown Park
- + White River State Park

Destinations Served

- + Indianapolis Zoo
- + Indianapolis Motor Speedway
- + Downtown

The Planned Greenway will serve...

- + **2.0 miles (22.7%)** planned
- + **XX,XXX** new residents
- + **XX,XXX** new jobs

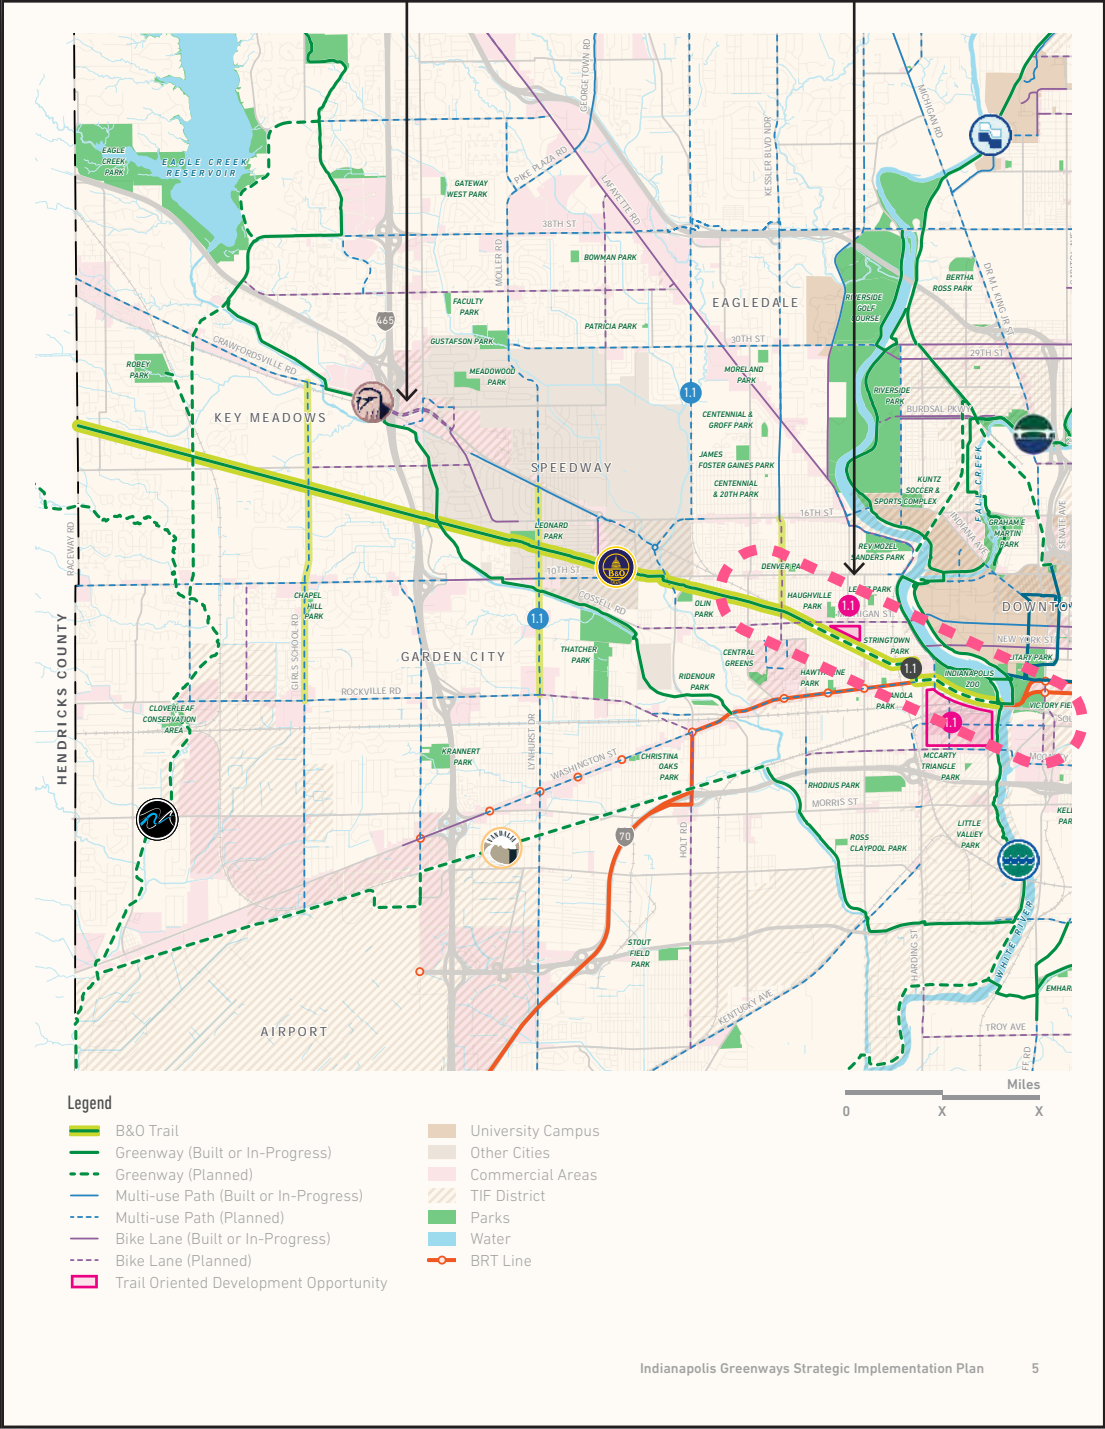

Footnotes

1. Trail Typologies, Ref. X  
2. Cost Estimate, Ref. X  
3. Project Benefits, Ref. X  
4. Projects & Prioritization, Ref. X  
5. Supporting Projects, Ref. X  
6. Funding Mechanisms, Ref. X  
7. Trail Oriented Development, Ref. X

4 Network Assessment Memo DRAFT

## GREENWAY, MULTI-USE PATH, & BIKE LANE CONNECTIONS

## HIGHLIGHTED PROJECT SEGMENTS

DRAFT REPORT CARD, FOR ILLUSTRATIVE PURPOSES ONLY

# THE PRIORITIZATION PROCESS

**SEGMENT THE  
NETWORK**

**ESTABLISH  
PRIORITIZATION  
CRITERIA &  
ANALYSIS**

**WEIGHT AND  
AGGREGATE  
CRITERIA TO  
ESTABLISH  
PRIORITY TIERS**

# SEGMENTATION

**START WITH THE  
FULL GREENWAYS  
NETWORK**

**ISOLATE THE  
PROPOSED  
NETWORK**

**DELINEATE THE  
NETWORK INTO  
PROJECT SEGMENTS**

**PRIORITIZE  
SEGMENTS  
(ANALYSIS)**

# SEGMENTATION

## WHY SEGMENT?

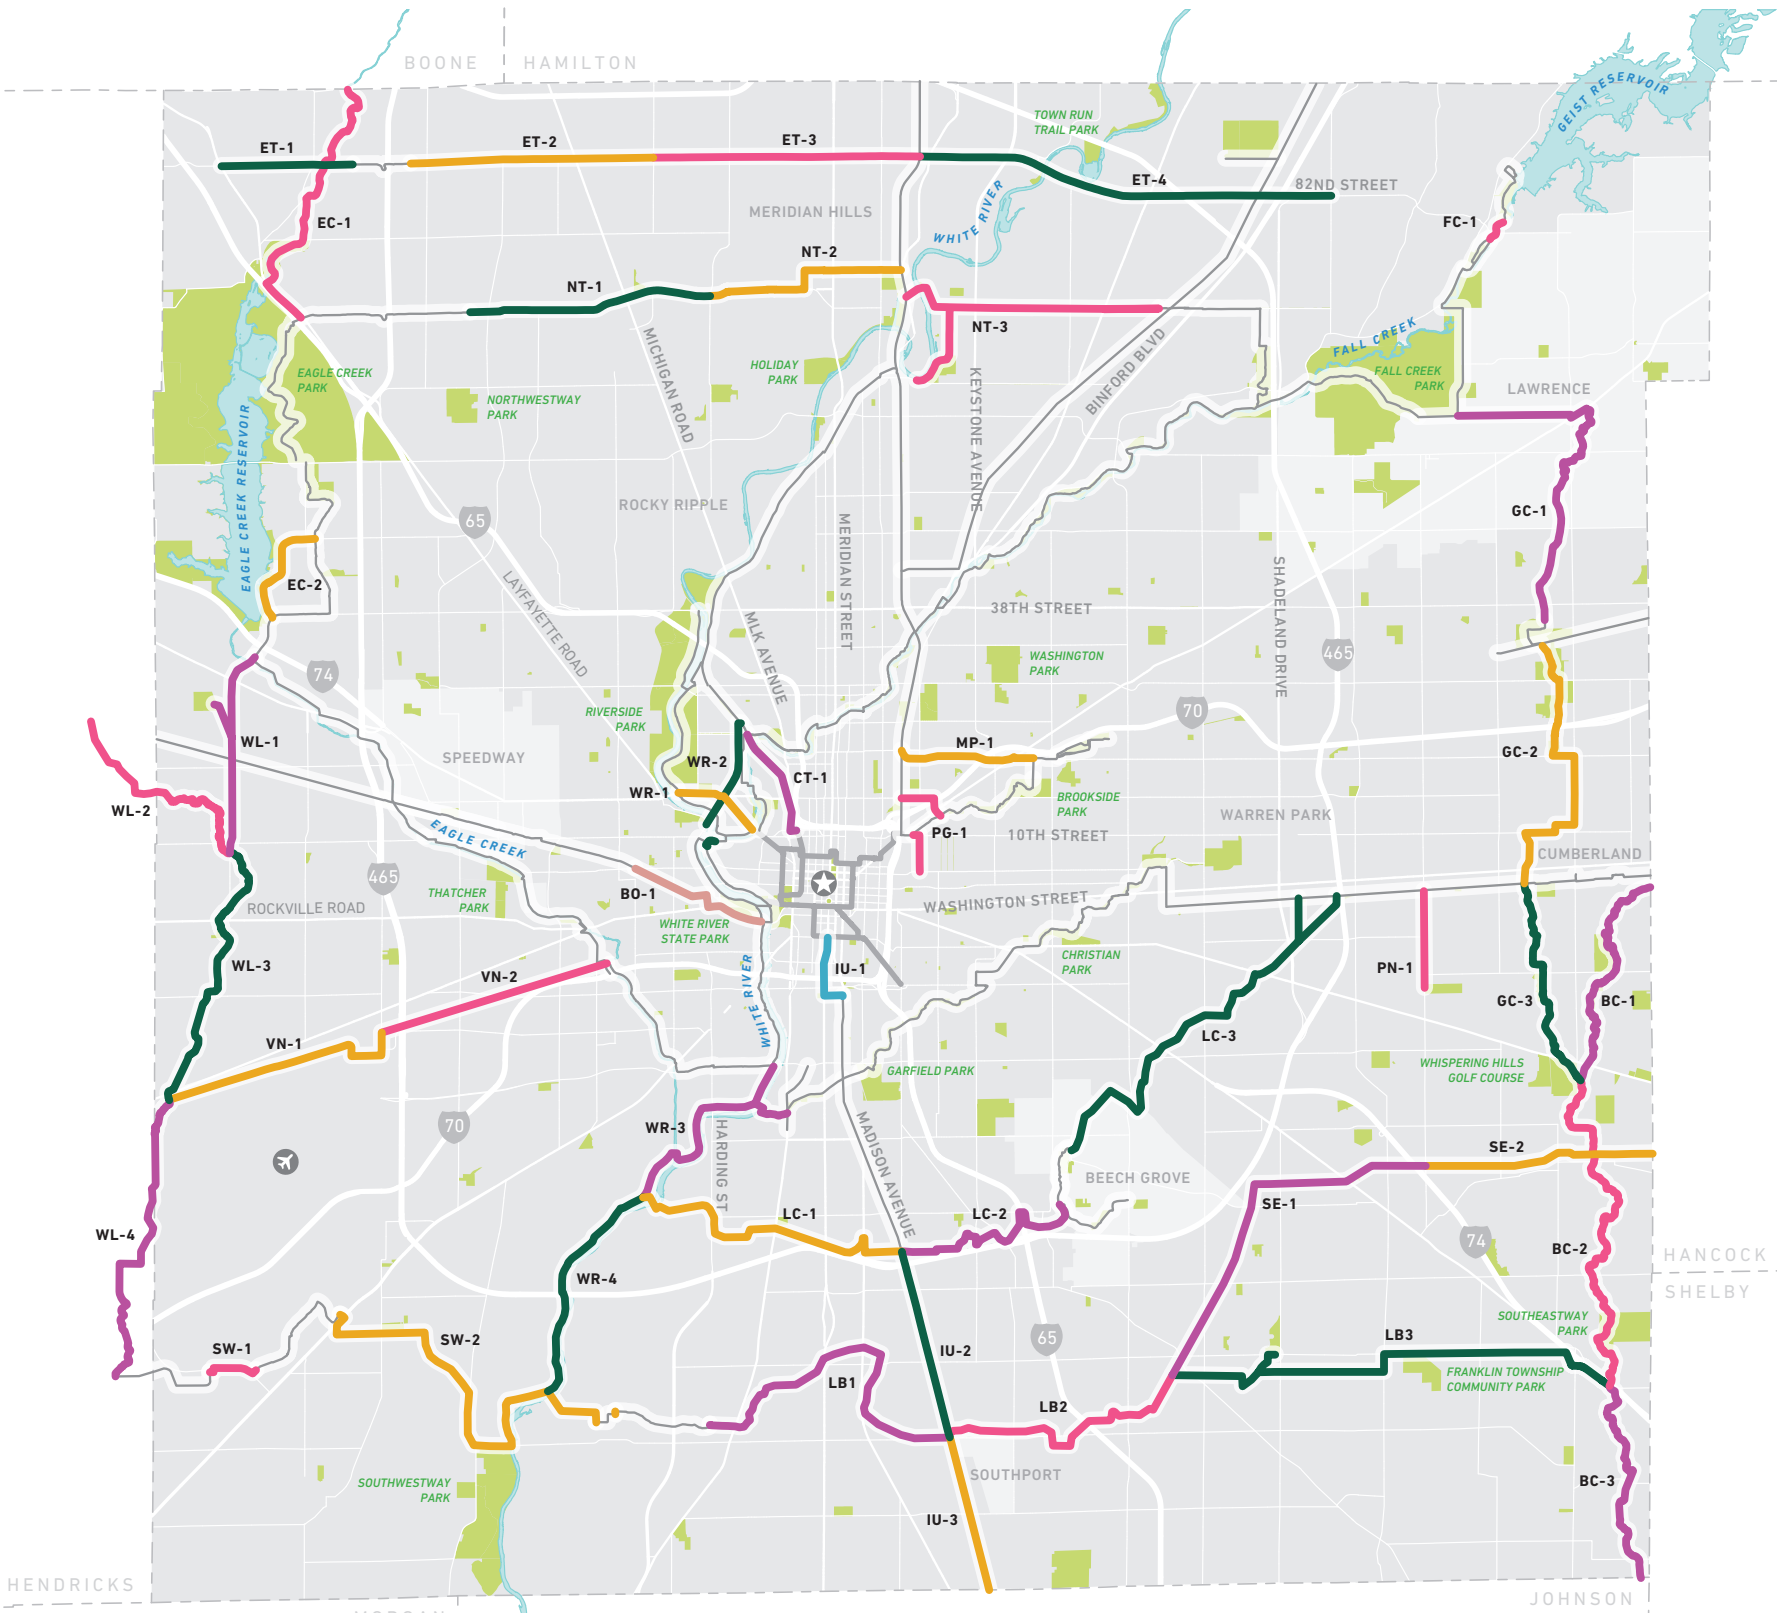

Segments provide a common point of comparison, and translate to realistic project lengths & extents.

**44** total segments across 20 Greenways

**3.3 MI** average segment length

**6.9 MI** longest segment

**0.3 MI** shortest segment

COLORS ILLUSTRATE BEGINNING AND END OF SEGMENTS ONLY, NOT AS AN INDICATION OF RANK OR PRIORITY.

# CRITERIA & METRICS

Prioritization is the result of a data-driven and reproducible analysis to evaluate, compare, and rank projects based on the project goals, stakeholder and advisory committee input, and community priorities.

**BUCKETS:  
HIGH LEVEL  
CATEGORIES**

**GOALS:  
ASSOCIATED  
PROJECT GOALS**

**CRITERIA & METRICS:  
DISCRETE, MEASURABLE,  
AND COMPARABLE**

# CRITERIA & METRICS

Prioritization is the result of a data-driven and reproducible analysis to evaluate, compare, and rank projects based on the project goals, stakeholder and advisory committee input, and community priorities.

**BUCKETS:  
HIGH LEVEL  
CATEGORIES**

**GREENWAYS THAT CONNECT  
PEOPLE & TRAILS**

*AN EXAMPLE:*

**GOALS:  
ASSOCIATED  
PROJECT GOALS**

**CONNECTIVITY & ACCESS**

**CRITERIA & METRICS:  
DISCRETE, MEASURABLE,  
AND COMPARABLE**

**SCHOOL ACCESS.**

Metric: The number of schools  
within a 1-mile walk or bike  
ride of the segment.

# THE BIG BUCKETS

**GREENWAYS  
THAT CONNECT  
PEOPLE &  
TRAILS**

**GREENWAYS  
THAT CONNECT  
UNDERSERVED  
COMMUNITIES**

**GREENWAYS  
THAT IMPROVE  
HEALTH & THE  
ENVIRONMENT**

**GREENWAYS  
THAT PROMOTE  
GROWTH &  
DEVELOPMENT**

**GREENWAYS  
THAT SUPPORT  
SUSTAINABLE  
FUNDING &  
IMPLEMENTATION**

# CRITERIA

## GREENWAYS THAT CONNECT PEOPLE & TRAILS

Connecting people,  
jobs, destinations,  
and other greenways.

**Continuity:** Does the segment continue an existing Greenway?

**Population:** How many people does the segment access?

**Points of Interest:** Does the segment connect to community destinations?

**Access to Parks:** Does the segment provide access to parks?

**Schools Access:** Does the segment connect to schools?

**Jobs:** Does the segment connect to jobs?

**Retail Access:** Does the segment connect to retail areas?

**Regional Trails:** Does the segment connect to regional trail connections?

**Active Transportation:** Does the segment connect to planned and existing trails and bikeways?

**Public Transit:** Does the segment connect to planned and existing transit?

# CRITERIA

## GREENWAYS THAT CONNECT UNDERSERVED COMMUNITIES

Connecting population centers that are currently or have been historically underserved.

**Transportation Mode:** Does the segment serve people that rely on non-vehicular modes?

**Zero Car HH Neighborhoods:** Does the segment serve zero car households?

**Low Income Neighborhoods:** Does the segment serve low income neighborhoods?

**High Poverty Neighborhoods:** Does the segment serve high poverty neighborhoods?

**Geographic Equity:** Does the segment introduce a greenway in areas lacking in trails?

**Ethnicity:** Does the segment serve hispanic/latino populations?

**Non-White Population:** Does the segment serve non-white populations?

**Senior Population:** Does the segment serve seniors (>65)?

**Youth Population:** Does the segment serve youth (<18)?

# CRITERIA

## GREENWAYS THAT IMPROVE HEALTH & THE ENVIRONMENT

Leveraging greenway development to improve environmental conditions, public health, and safety.

- Tree Canopy:** Does the segment connect areas with limited tree canopy?
- Surface Temperature:** Does the segment connect areas with high surface temperature?
- Conservation Corridors:** Does the segment align with conservation corridors?
- Brownfields:** Does the segment present opportunity for brownfield restoration?
- Floodplains:** Does the segment align with floodplain areas not suited for development?
- Public Health:** Does the segment align with public health indicators?
- Vehicular Crashes:** Does the segment align with safety areas of concern?
- Parkshed Gaps:** Does the segment connect areas with low parks access?

# CRITERIA

## GREENWAYS THAT PROMOTE GROWTH & DEVELOPMENT

Aligning greenways with anticipated or opportunistic growth areas.

**Population Growth:** Does the segment align with areas that are rapidly growing?

**TIF district:** Does the segment align with TIF districts?

**Vacant Parcels/Open Lands:** Does the segment align with vacant and open lands?

**Strategic Investment:** Does the segment align with a strategic investment opportunity?

**TrOD:** Does the segment align with Trail-Oriented Development opportunity areas?

Highlighted Criteria are in-progress and not reflected in DRAFT results

# CRITERIA

## GREENWAYS THAT SUPPORT SUSTAINABLE FUNDING & IMPLEMENTATION

Identifying greenways that are easiest to implement, pay for, and sustain.

**Acquisition:** Does the segment require challenging land acquisition?

**Cost:** What is the construction cost of the Greenway?

**Partnership:** Does the segment represent a potential partnership?

**Funding Opportunity:** Is there opportunity for additional funding sources?

Highlighted Criteria are in-progress and not reflected in DRAFT results

# HOW DO BUCKETS DRIVE PRIORITIZATION?

The results are driven by the weighting of each bucket. It's all about trade-offs and balance.

More weight =  
More impact.

Focused on Existing Communities?

A Balanced Approach?

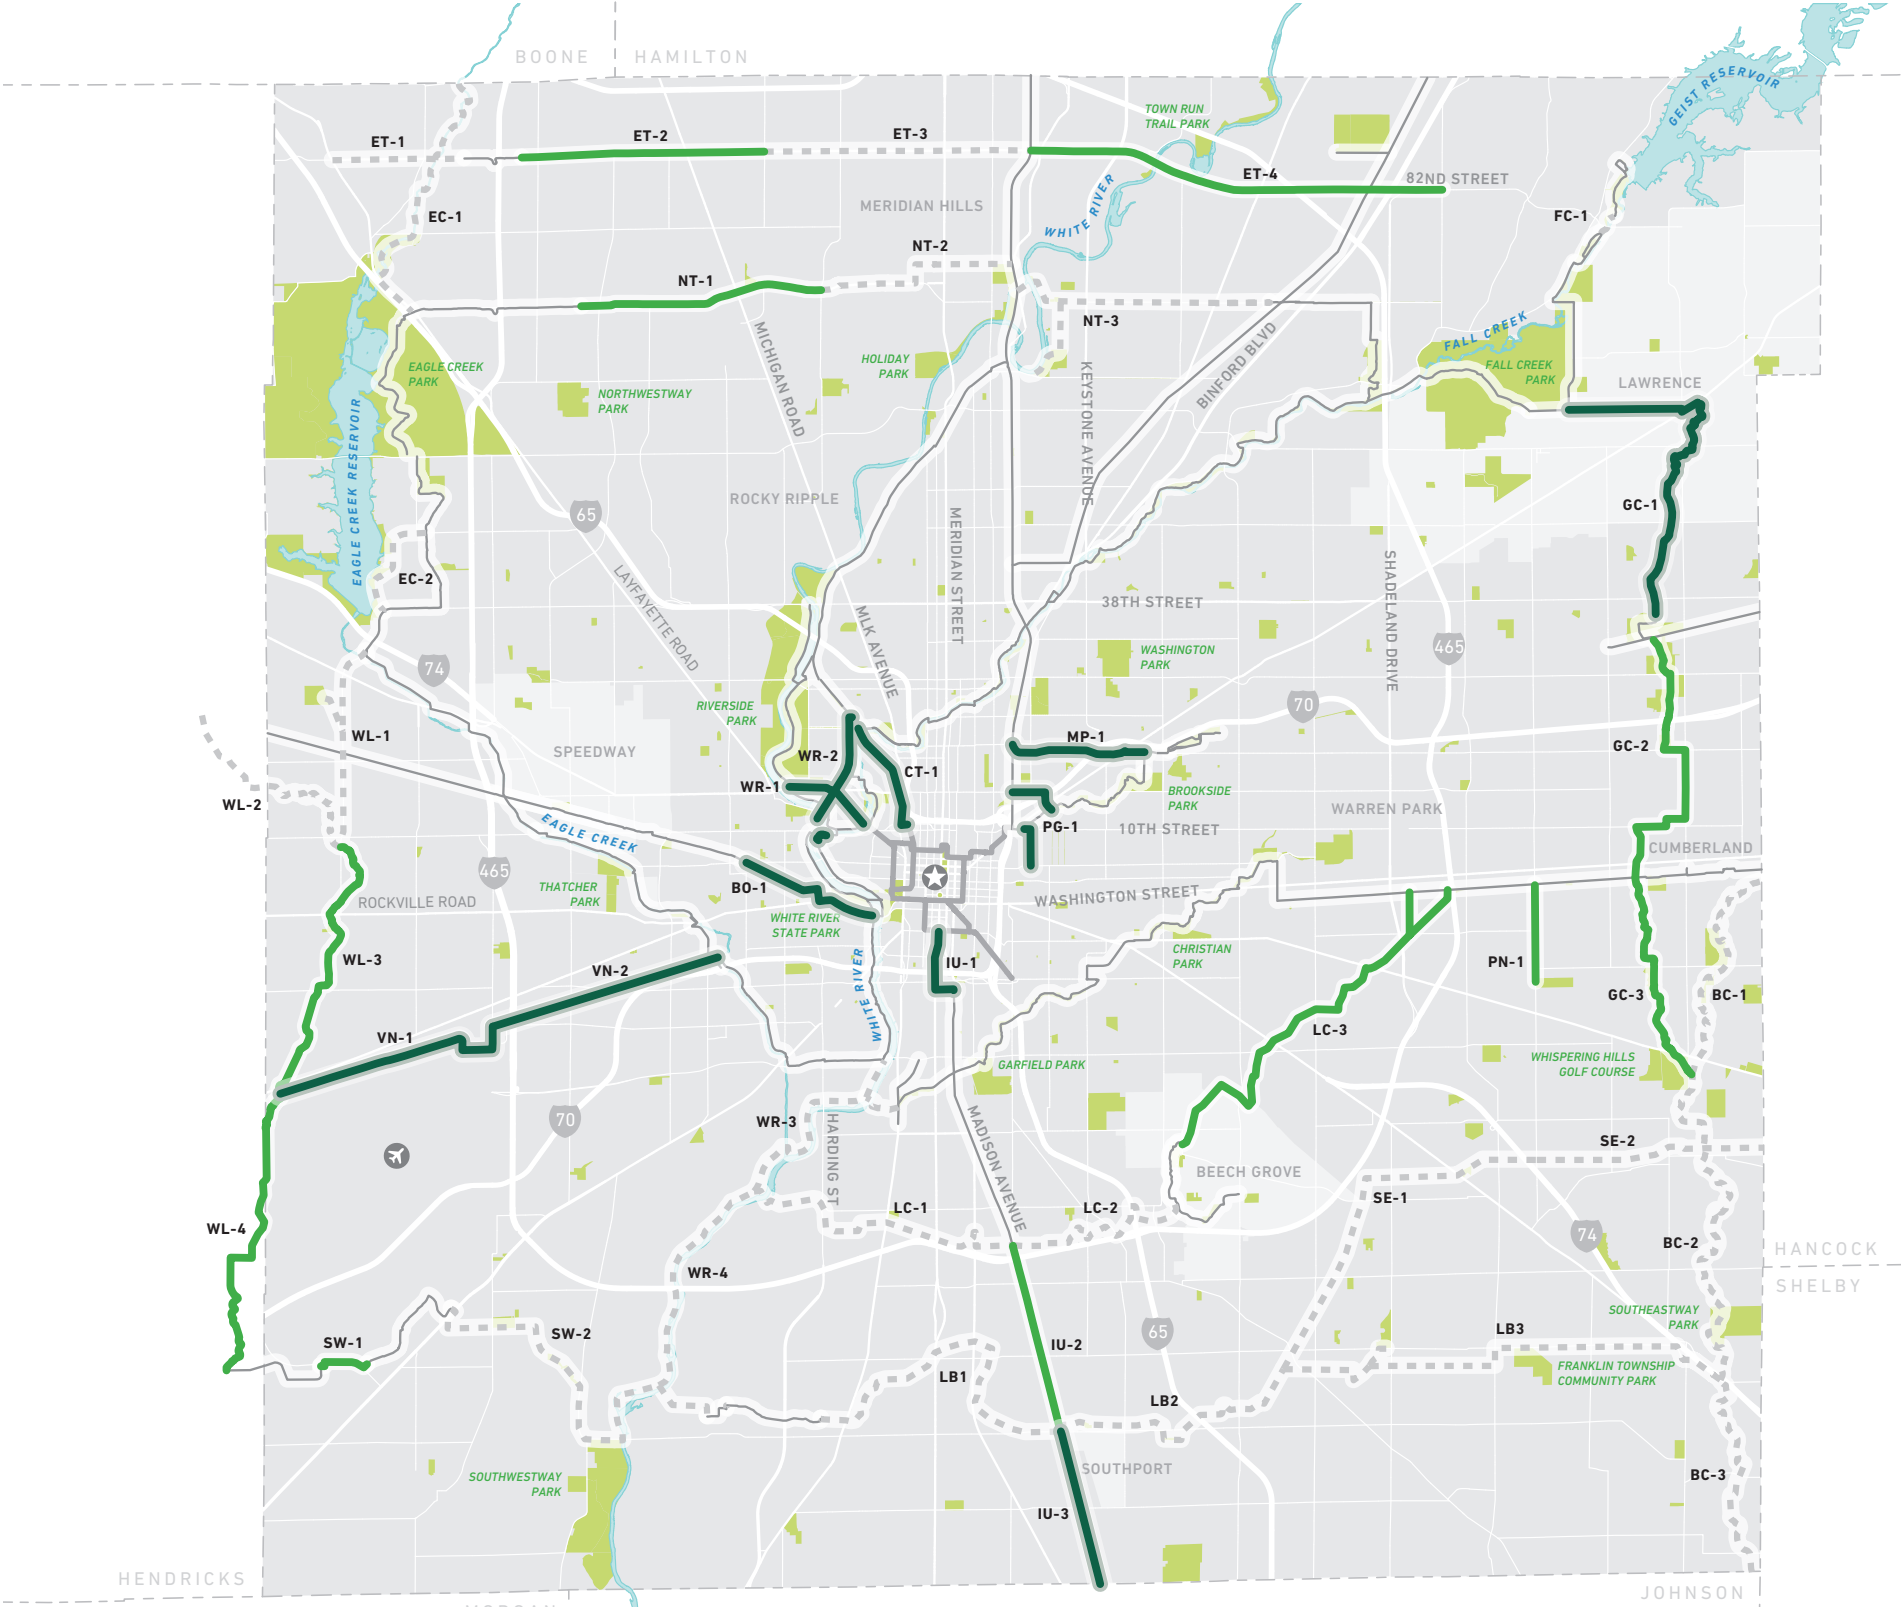

Focused on Future Growth?

# SCENARIO A: BALANCED

EMPHASIS ON BALANCING  
ALL 5 BUCKETS

DRAFT MAP, PRELIMINARY RESULTS

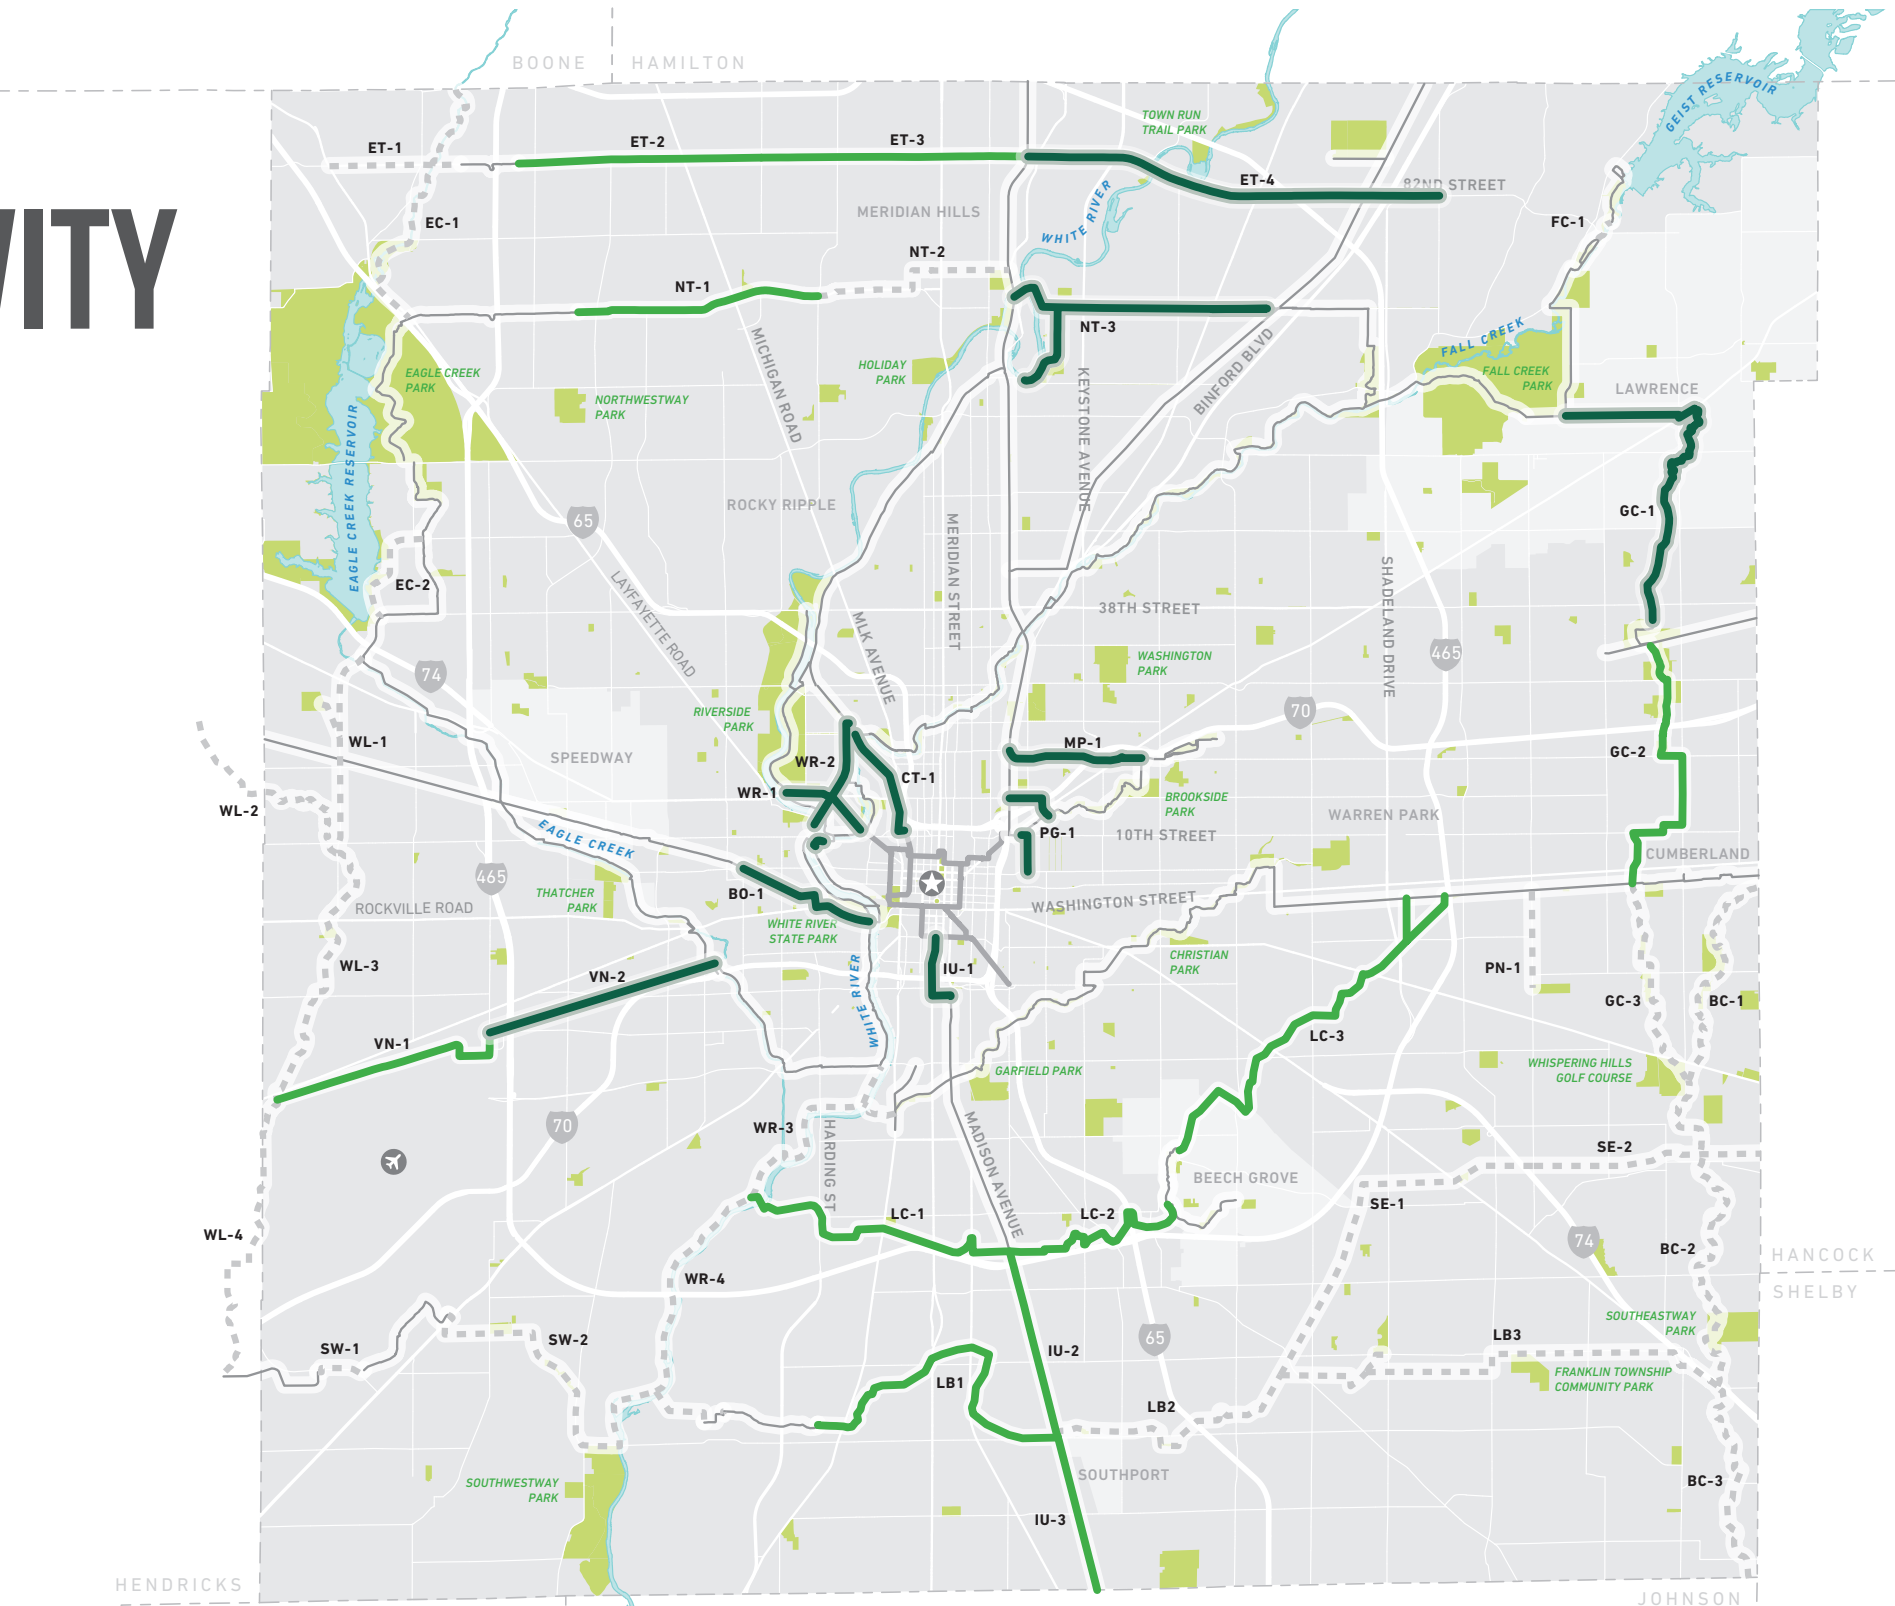

Top 25% Priority  
Top 50% Priority

# SCENARIO B: MAXIMIZE ACCESS AND CONNECTIVITY

EMPHASIS ON EXPANDING THE EXISTING NETWORK AND ACCESS TO THE MOST PEOPLE AND JOBS

DRAFT MAP, PRELIMINARY RESULTS

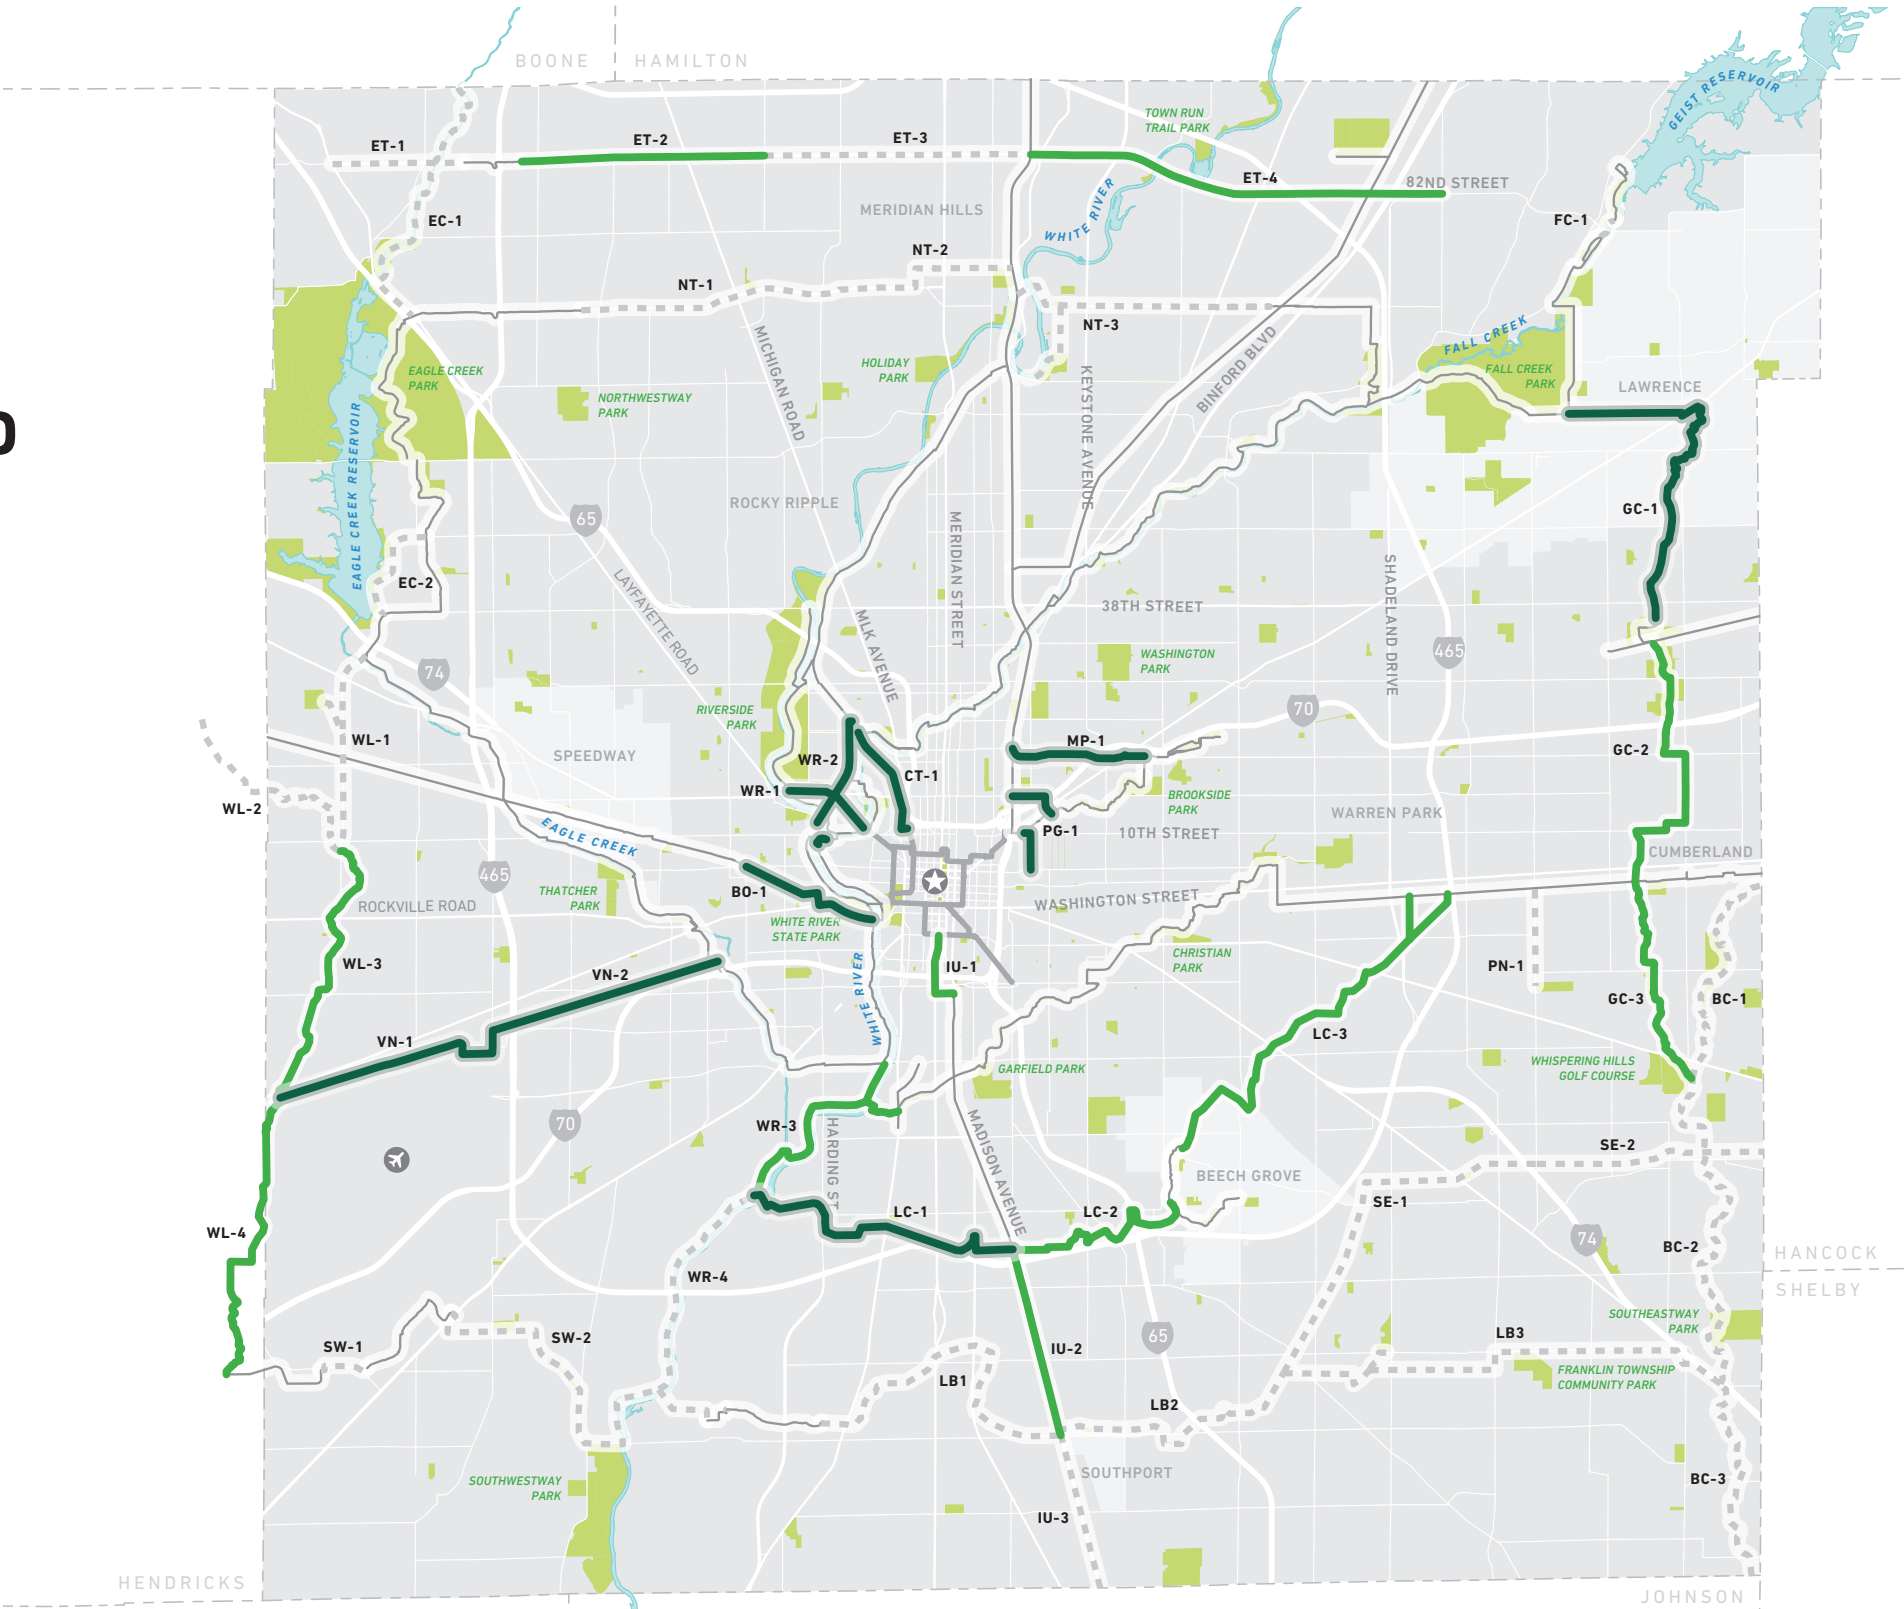

Top 25% Priority  
Top 50% Priority

# SCENARIO C: CENTER EQUITY

EMPHASIS ON CONNECTING UNDERSERVED COMMUNITIES TO EXISTING DESTINATIONS

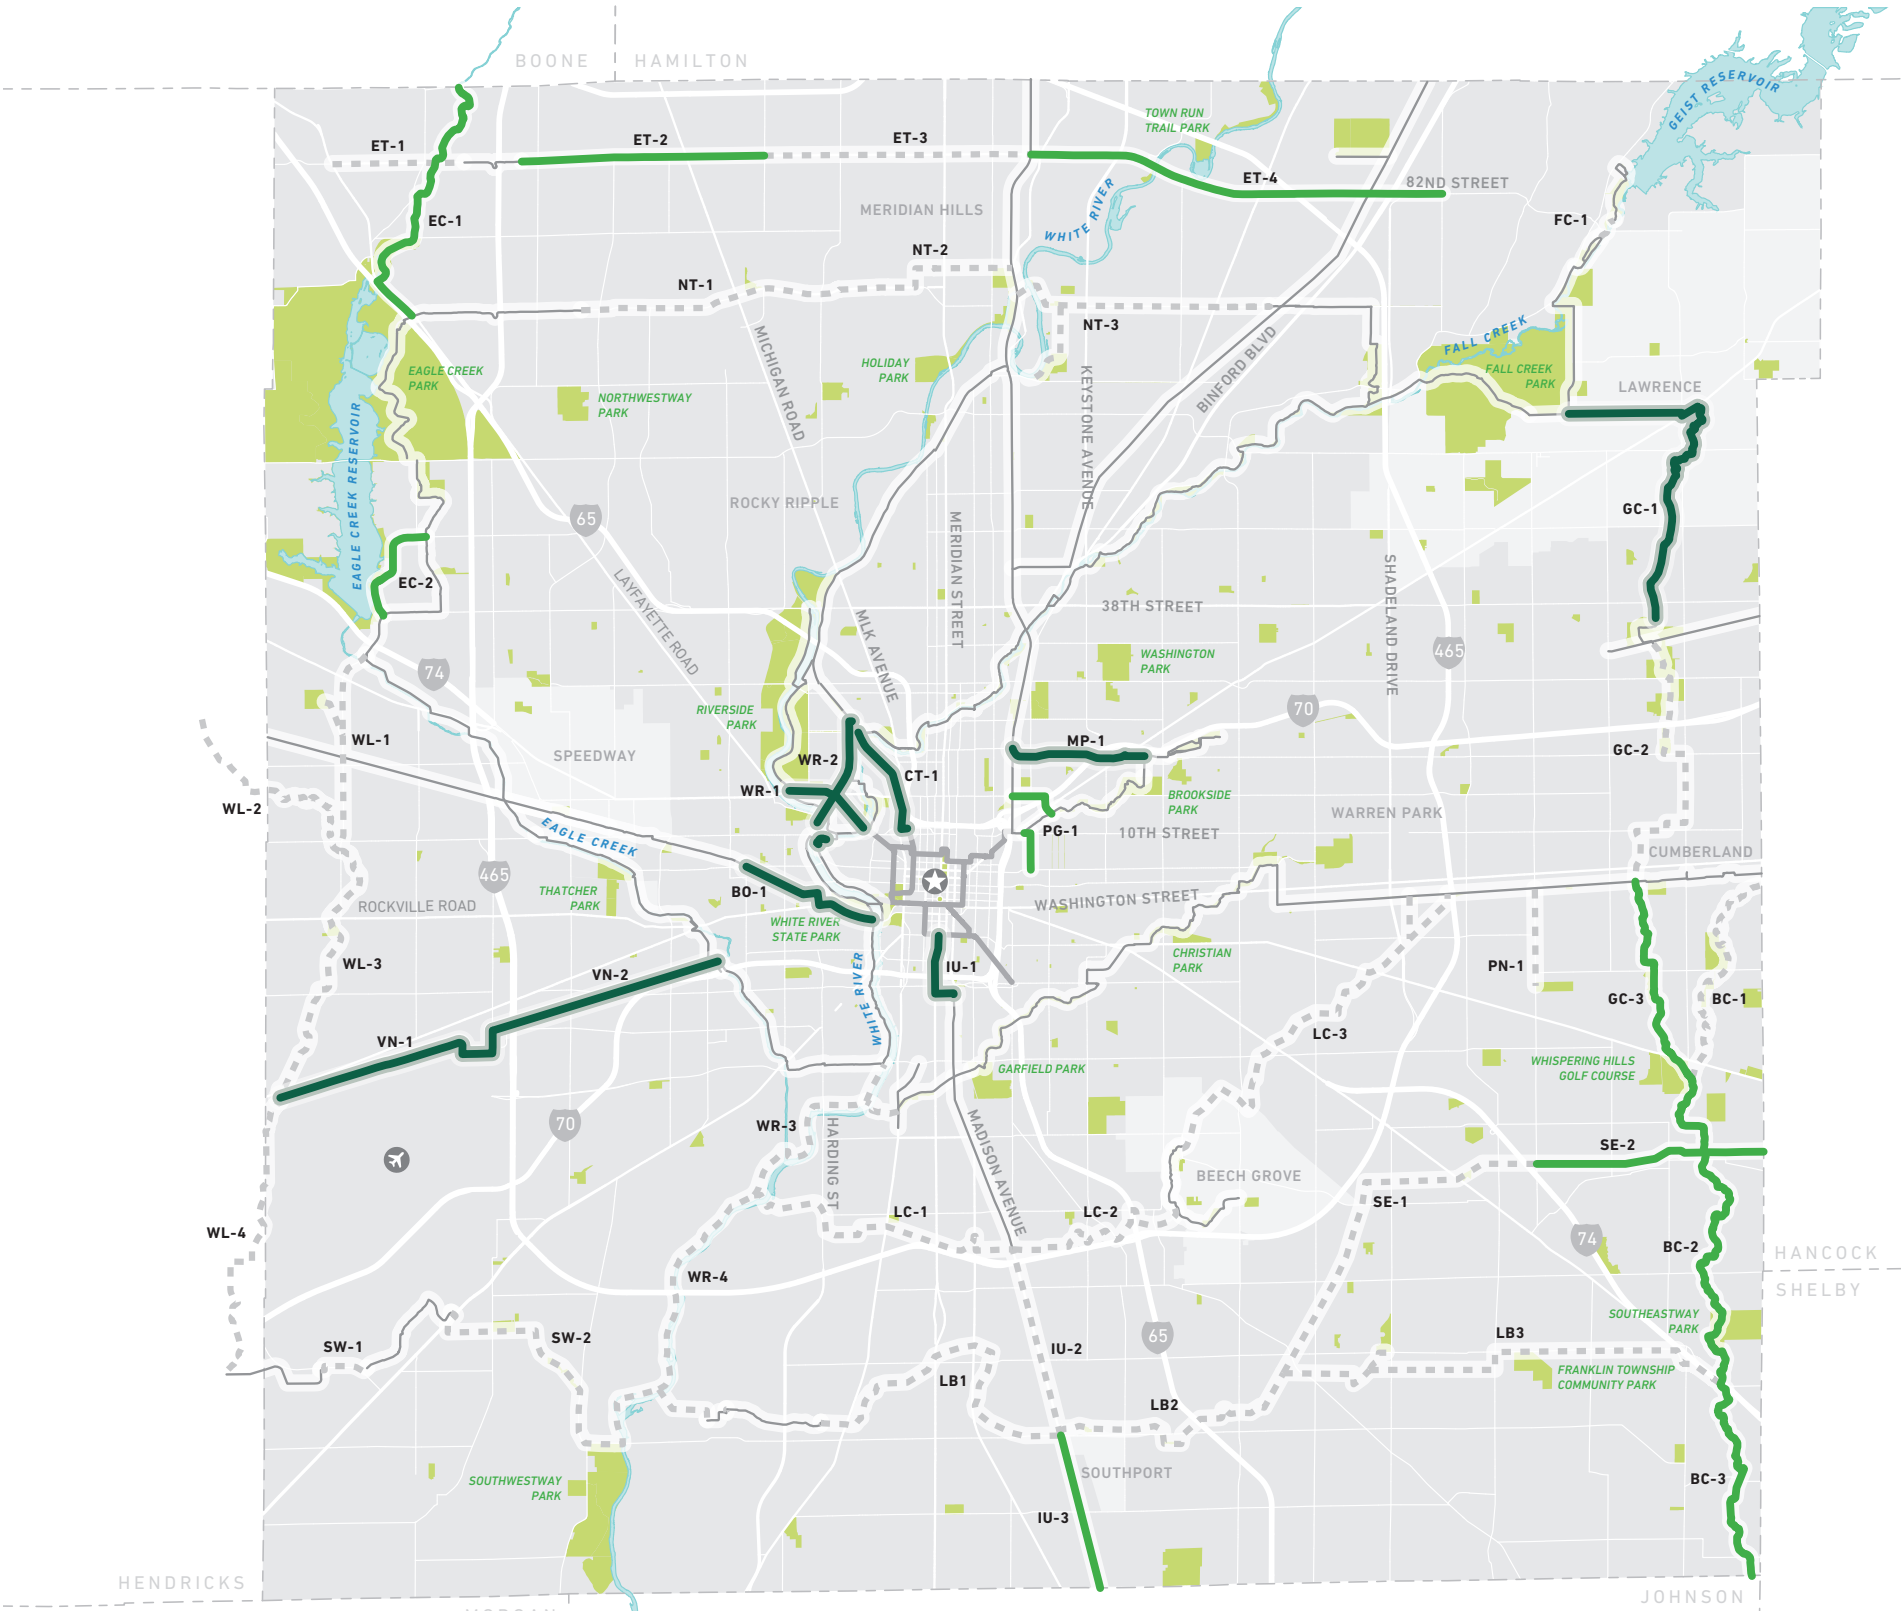

DRAFT MAP, PRELIMINARY RESULTS

Top 25% Priority  
Top 50% Priority

# SCENARIO D: FUNDING & GROWTH

EMPHASIS ON GROWTH AND  
IMPLEMENTATION

DRAFT MAP, PRELIMINARY RESULTS

Top 25% Priority  
Top 50% Priority

# WEIGHTING IS INFORMED BY 3 INPUTS

## **Advisory Committee**

Civic leaders and  
champions

## **The Community**

Citizens and Residents

## **Technical Experts**

MKSK, DPW

## BUCKET PRIORITY

You will be given 8 beads, representing "Greenway Bucks".  
Distribute your "Greenway Bucks" on the 5 buckets, in order of priority.

GREENWAYS THAT  
CONNECT PEOPLE &  
TRAILS

GREENWAYS THAT  
CONNECT UNDERSERVED  
COMMUNITIES

GREENWAYS THAT  
IMPROVE HEALTH & THE  
ENVIRONMENT

GREENWAYS THAT  
PROMOTE GROWTH &  
DEVELOPMENT

GREENWAYS THAT  
SUPPORT SUSTAINABLE  
FUNDING &  
IMPLEMENTATION

# TECHNICAL CONSIDERATIONS TO WEIGHTING

- + Equal parts art and science, hard data and storytelling
- + If everything matters, nothing matters
- + Check for redundancy (i.e. do a subset of criteria boil down to "this is a dense area"?)

	Continuity	Population	Points of Interest	Access to Parks	Schools Access	Jobs	Retail Access	Connectivity to Regional Trails	Connectivity to Existing Access	Connectivity to Public Transit	Means of Transportation to Work	Zero Car HH Neighborhoods	Low Income Neighborhoods	High Poverty Neighborhoods	Geographic Equity	Ethnicity	Non-White Population	Senior Population	Youth Population	Tree Canopy	Surface Temperature	Conservation Corridors	Brownfields	Floodplains	Physical Health Indicators	Crashes Within Bkeshed	Parkshed Gap Neighborhoods	Population Growth	TIF district	Strategic Investment	TrOD Opportunities	Vacant Parcels/Open Lands	Partnership	Funding Opportunity	Acquisition	Cost	Sum Correlation

# TOP PERFORMER

## INTERURBAN TRAIL (IU-1)

Gap closure from Cultural Trail/South St (Existing Trail) to Orange St/Madison St (In-Progress Trail).

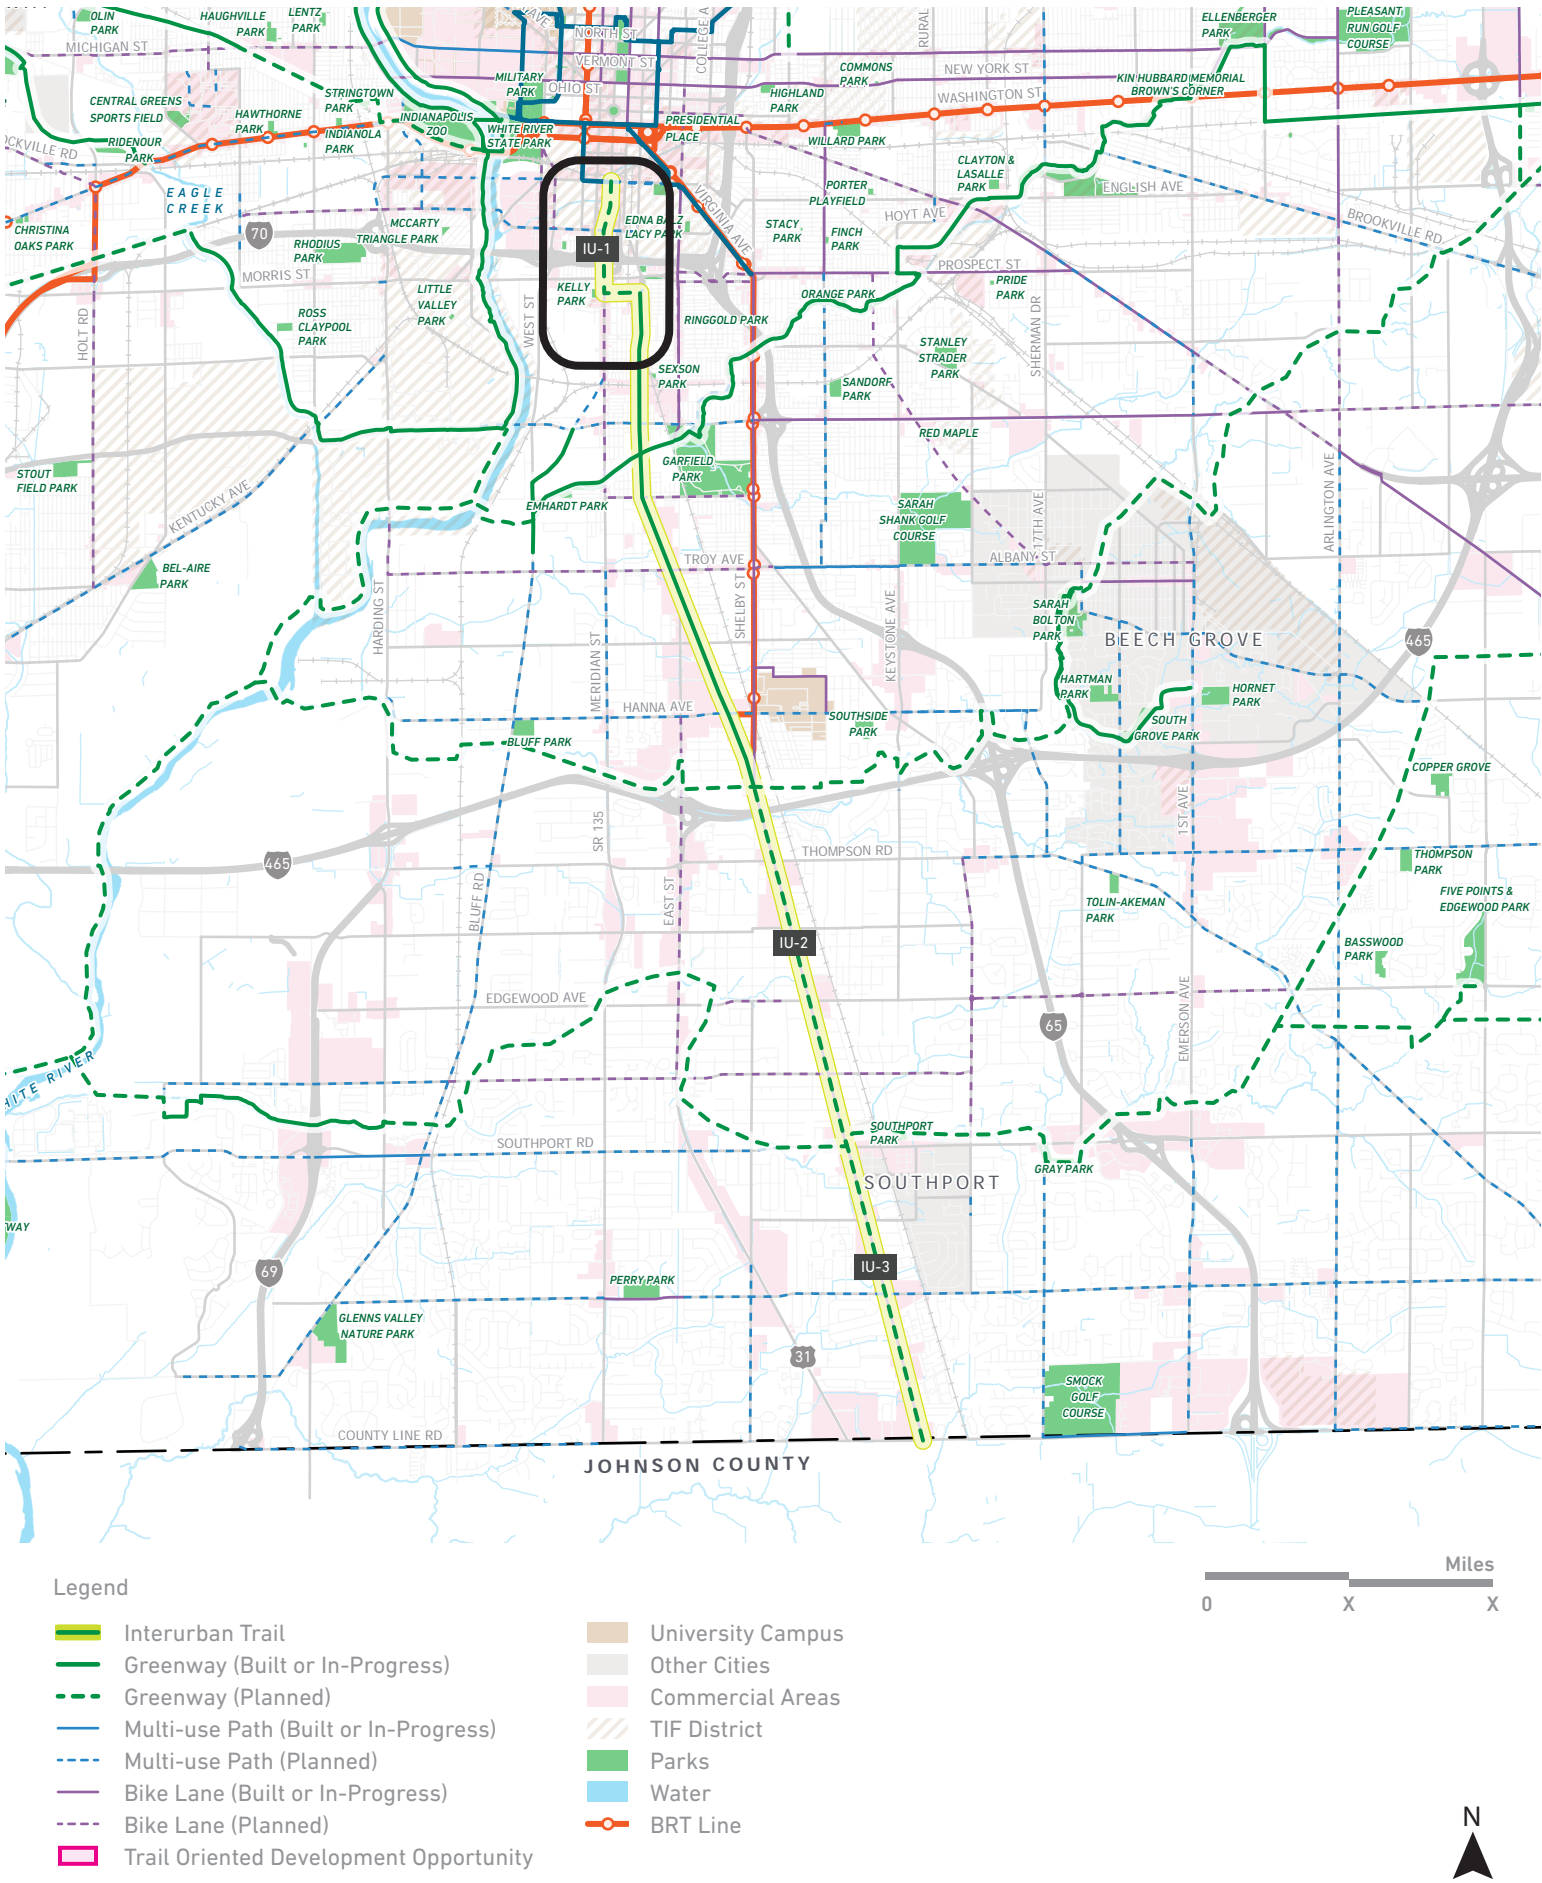

1.04 miles long

TOP 33% of Greenways that Connect People & Trails

Within a 10 Min Walk Aligns with BRT Stations  
92,000 Jobs  
14,000 Residents

TOP 33% of Greenways that Improve Quality of Life

Along the Segment  
#1 segment for number of Crashes  
#1 segment for Surface Temperature  
#44 segment for existing Tree Canopy

# TOP PERFORMER

## GRASSY CREEK TRAIL (GC-1)

Gap closure from Fall Creek Greenway/Lee Rd (Existing Trail) to  
Lacebark Ln (Existing Trail)

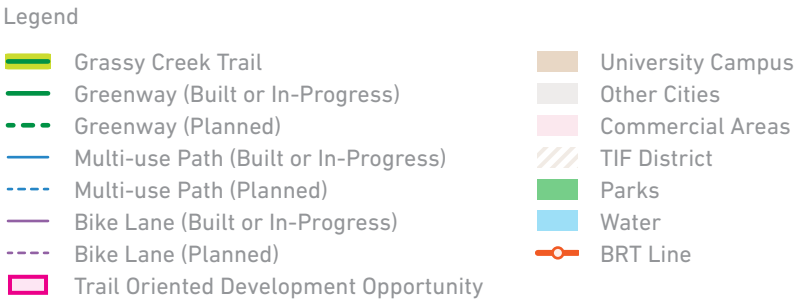

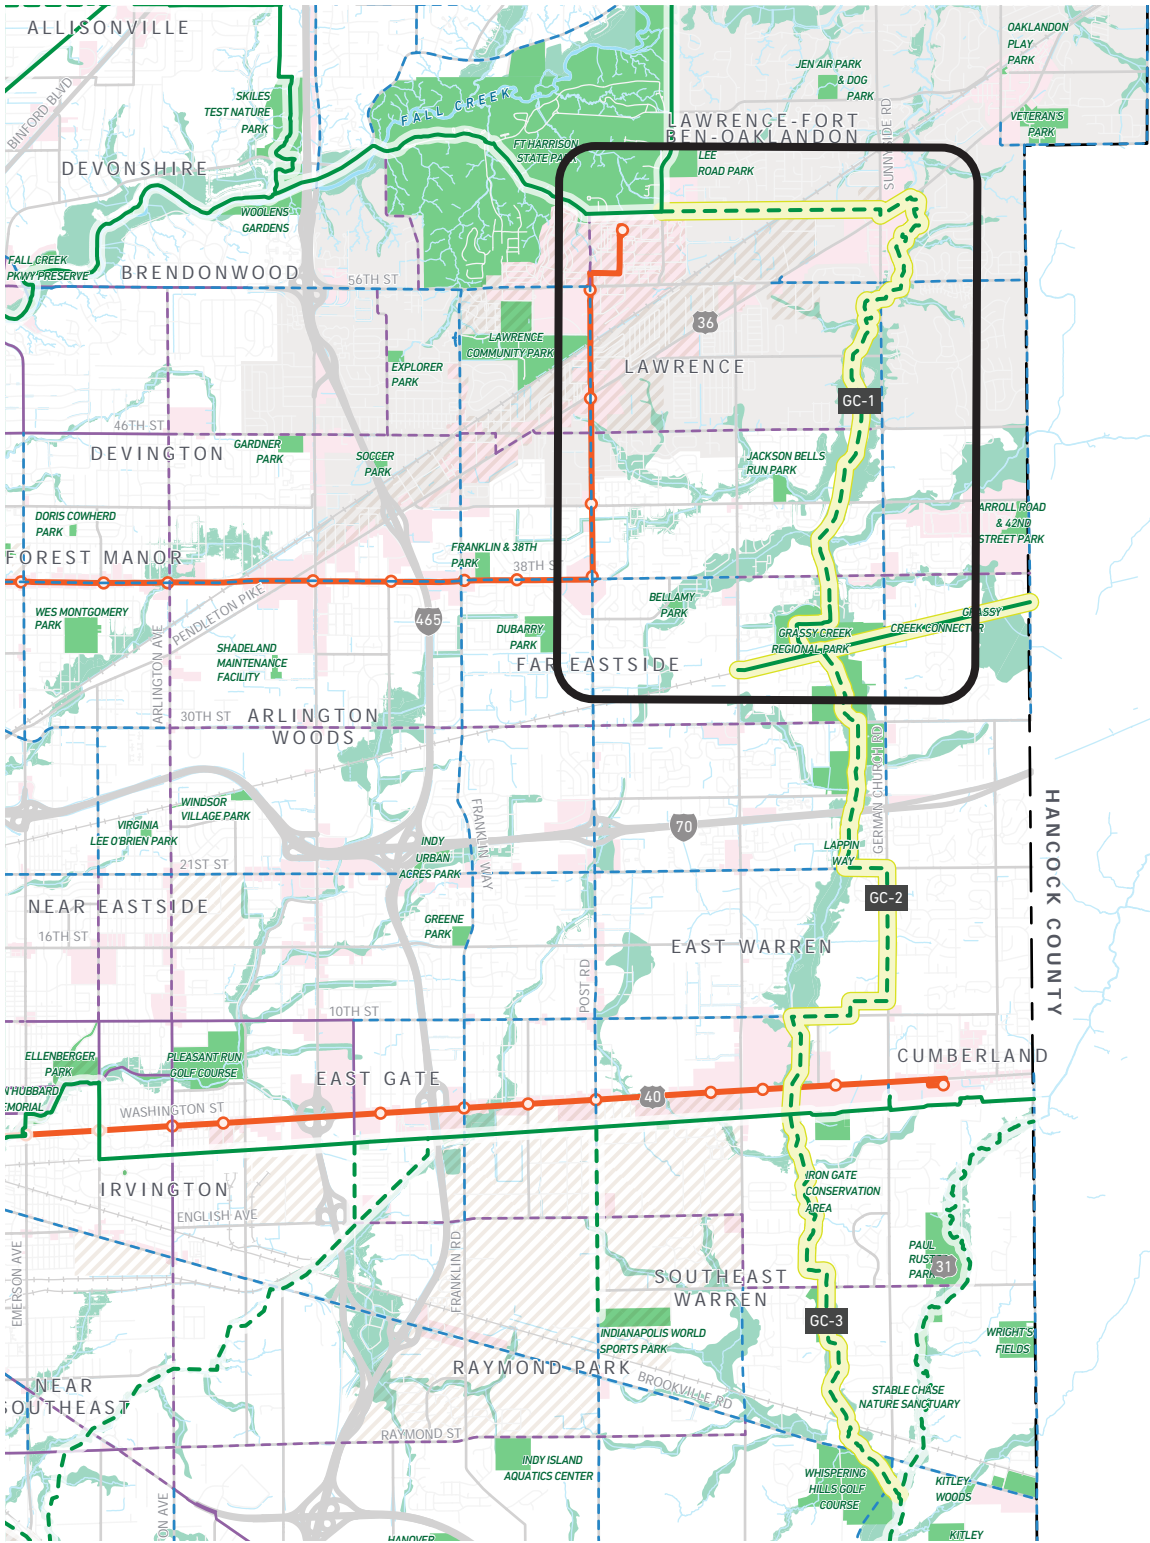

5.27 miles long

TOP 25% of Greenways that Serve  
Underserved Populations

Within a 10 Min Walk 400 Residents that rely on Non-Vehicular Commute  
73% of Residents are non-white  
27% of Residents are Youth

TOP 33% of Greenways that  
Improve Quality of Life

Along the Segment 1.9 miles align with Conservation Corridors  
7,000 sf of Brownfield within 1/4 Mile  
3.5 miles align with Floodplains

A photograph of three people riding bicycles on a paved path in a park. The path is flanked by lush green grass and dense trees. The scene is captured from a rear perspective, showing the backs of the riders. The image has a green color overlay. The text "THANK YOU!" is centered over the middle of the image in white, bold, sans-serif capital letters.

**THANK YOU!**
