MID-OHIO REGIONAL
MORPC
PLANNING COMMISSION

Air Quality Summary | February 2020

Central Ohio

The Mid-Ohio Regional Planning Commission provides daily air quality forecasts and issues Air Quality Alerts to help you plan ahead and protect your health. For free Air Quality Alerts and more information please visit:

www.morpc.org/airquality

Air quality conditions in February 2020 were similar to those observed in February 2019 and slightly better than those observed in February 2018. Frequent frontal passages in February typically transported clean air into central Ohio and kept pollutants from building up from day to day. These conditions resulted in Good AQI levels during the majority of the month.

Daily Maximum AQI for February 2020

In February 2020, AQI levels in the Columbus region were Good on 27 days and Moderate on 2 days. No Air Quality Alerts were issued.
