## NOTICE OF A MEETING

### TRANSPORTATION ADVISORY COMMITTEE

Mid-Ohio Regional Planning Commission  
111 Liberty Street, Suite 100  
Columbus, Ohio 43215

### Join Microsoft Teams Meeting

+1 614-362-3056 United States, Columbus (Toll)  
(888) 595-9954 United States (Toll-free)  
Conference ID: 864 814 606#

**Wednesday, September 2, 2020**  
**9:00 a.m.**

### AGENDA

- **9:00 a.m. Welcome & Introductions** – Cindi Fitzpatrick, Chair
- **9:03 a.m. Approval of [August 5, 2020, Meeting Minutes](#)** (enclosed)
- **9:05 a.m. Metropolitan Planning Organization (MPO) Report** (enclosed) – Thea Ewing, MORPC
  - Monthly Report – Data & Mapping – Aaron Schill, MORPC
  - Monthly Report – Planning & Sustainability – Stephen Patchan, MORPC
- **9:20 a.m. Funding Programs**
  - Attributable Funds Project Status Update - Thomas Graham, MORPC
- **9:25 a.m. Resolutions**
  - Proposed Resolution T-11-20: Amending the State Fiscal Year (SFY) 2021-2024 Transportation Improvement Program – Nathaniel Vogt, MORPC
  - Proposed Resolution T-12-20: Accepting the PWP Completion Report for the State Fiscal Year 2020 – Nick Gill, MORPC
- **9:30 a.m. Informational Items**
  - ORDC Rail Crossing Study – Megan McClory / Matt Dietrich (Guests), Ohio Rail Commission

**William Murdock, AICP**  
*Executive Director*

**Karen J. Angelou**  
*Chair*

**Erik J. Janas**  
*Vice Chair*

**Chris Amorose Groomes**  
*Secretary*

- Solar Toolkit for Local Governments –Jon-Paul d’Aversa, MORPC
- Covid-19 Transportation Related Information – Thea Ewing, MORPC
- **9:55 a.m. Other Business**
- **10:00 a.m. Adjourn**

PLEASE NOTIFY MELISSA SHARP AT 614-233-4180 OR EMAIL AT [msharp@morpc.org](mailto:msharp@morpc.org)  
TO CONFIRM YOUR ATTENDANCE FOR THIS MEETING OR IF YOU REQUIRE SPECIAL  
ASSISTANCE.

**The next TAC Meeting is**  
**Wednesday, September 30, 2020 @ 9:00 a.m.**  
*111 Liberty Street, Suite 100*  
*Columbus, OH 43215*

**Mid-Ohio Regional Planning Commission  
Transportation Advisory Committee Meeting Minutes**

MID-OHIO REGIONAL  
**MORPC**  
PLANNING COMMISSION

Date: **August 5, 2020**  
Time: **9:00 a.m.**  
Location: **MORPC**

---

**NOTE THAT THIS MEETING WAS CONDUCTED AS A VIRTUAL MEETING THROUGH  
MICROSOFT TEAMS VIDEO CONFERENCING PLATFORM**

**Members Present**

Ted Beidler	Cindi Fitzpatrick	Daniel Sowry
Maria Cantrell	Tiffany Jenkins	Reynaldo Stargell
Barb Cox	Ryan Lowe	Kevin Weaver
Brian Davidson	Alan Moran	James Young

**Guests as signed in via TEAMS:**

Michael Ciotola	Tom Hibbard	Robert James
Valerie Croasmun	James Hise	Tim Nittle
Corey Francis	Dan Hoying	Kristan Studebaker
James Hamilton	Jen Howdyshell	Scott Ulrich

**MORPC Staff Present**

Thea Ewing	Lexi Petrella	Ted Geer
Nick Gill	Maria Schaper	Nathaniel Vogt
Thomas Graham	Aaron Schill	Melanie Vonstein
Dina Lopez	Bevan Schneck	Brandi Whetstone
Stephen Patchan	Melissa Sharp	

**I. Welcome & Introductions**

Chair Cindy Fitzpatrick called the meeting to order at 9:00 a.m. Thea Ewing (MORPC) took roll call

**II. Approval of June 3, 2020 Meeting Minutes**

Chair Fitzpatrick asked for a motion to approve the minutes; James Young moved; Kevin Weaver seconded; none opposed, and the motion carried.

**III. Metropolitan Planning Organization (MPO) Report – Thea Ewing, MORPC**

- Ms. Ewing shared the outcome from the Brownfield Workshop that was held prior to this meeting. This is a US CPA funded grant to assess properties for potential cleanup for economic development. This is important to transportation as one of our focal points will be the corridors for transit routes, primarily COTA. However, the funding is available in all 15 MORPC counties. We would fund about \$20-\$50,000 of the assessment costs. We have a total of \$600,000 for the entire grant and about three years to spend it.

<https://www.morpc.org/program-service/brownfields-grant-program/>

- On June 30, a press conference was held with MORPC, COTA, and the City of Columbus to launch LinkUS, which is the mobility corridors initiative for Central Ohio. <https://linkuscolumbus.com/>

The LinkUS Framework Strategy was created to ensure a consistent and replicable approach for each corridor for high capacity transit in the future. This includes a guiding mission statement and organizational framework that ties all corridor plans together, along with a recommended project development process and steps for implementation. It establishes a set of goals to guide the identification of mobility investments and development opportunities.

MORPC is currently assisting in the planning work being completed on the Northwest Corridor and East West Corridor.

- Northwest Corridor update
  - Currently. the focus of a City of Columbus study.
  - The Northwest Corridor is one of the most physically complex of the corridors studied in Corridor Concepts. It includes two major interchange areas (the “Knots”) that present significant challenges to north-south through movement, and is physically constrained by the Olentangy River, the CSX railroad, and the highway.
  - Multi-modal conceptual designs are being developed.
  - Virtual Public Involvement opportunities will be happening soon. It had been delayed due to COVID-19.
- East West Corridor update
  - Currently. the focus of a COTA study.
  - West Broad Street is highly feasible as a near-term advanced rapid transit line, operating within the existing street right-of-way. Similarly, both East Main Street and East Broad Street offer opportunities to connect east Columbus and the east side jurisdictions: Bexley, Whitehall, and Reynoldsburg. Multi-modal conceptual designs are being developed.
  - The first step is identifying a locally preferred alternative through a study of design and alignment options.
  - COTA will eminently acquire a consultant to develop the conceptual design.

#### **Data & Mapping Monthly Report – Aaron Schill, MORPC**

- Census Update – There was a request by the Census Bureau to Congress to extend data collection; unfortunately, as of now, this has not been approved. The plan is for all collection for the 2020 census to wrap up by the end of September. Door-to-door solicitations will resume on August 11. Given our current response rates, this creates quite a bit of concern for potential undercounting, especially in underserved areas of the state. Communications are still going strong, and we want to double down of those efforts.

- Franklin County's Communications Consultant has provided a list of 100 things you can do in the last 100 days of the census to encourage participation. [100-days-100-ways](#)
- MORPC has consistently been providing resources through our social media and various channels.
- Last week the Columbus City Council approved \$1.5 million dollars of CARES Act funding for a broadband pilot program that MORPC and the Education Service Center of Central Ohio are initiating to obtain internet access targeted toward K through 12 students who are going to be doing remote learning, some as soon as next week. We will be reaching out to our member communities beyond the City of Columbus in Franklin County to share this opportunity and encourage coordination with school districts to connect with students in need.
- MORPC has been working with a number of other organizations, including the City of Columbus, Franklin County, One Columbus, the United Way of Central Ohio and the Columbus Foundation to review the impacts of COVID-19 – not the direct health impacts – but other kind of social, demographic and economic impacts on our region and understand what those potential risks may be. A proposal has been submitted to the Robert Wood Johnson Foundation and we just learned that we were awarded funds for this proposal. The proposal will create a series of research briefs that will look at seven topic areas that are key to our region and identify the most pressing issues that MORPC, local policy makers and other local leaders need to be considering.

### **Planning & Sustainability Monthly Report – Stephen Patchan, MORPC**

- *Save the date:* Central Ohio Transportation Safety Forum – September 15, 2020 (2:00pm – 4:00pm). It's our first annual forum and is a result of the Central Ohio Transportation Safety Plan, which was adopted last year. Part of this forum will be revisiting that plan and receiving some feedback and guidance from those in attendance as well as anything that we need to adjust to make the plan a better fit into today's environment. In addition, we will be having a typical roundtable discussion, announcements of efforts being conducted in the region, best practices, and announcements that are happening on a nationwide level. Our keynote speaker is Mr. Keith Benjamin from the City of Charleston, SC. He is the director of the Department of Transportation. William Murdock, our Executive Director, and Mr. Benjamin will be having a virtual fireside chat. [Safety-Forum-Save-the-Date.pdf](#)
- Active Transportation Plan:
  - We are seeing an increase in the number of severe and fatal crashes for pedestrians and cyclists. Our bicycle/pedestrian networks are incomplete. Many miles of our streets are high stress for both cyclists and pedestrians. And more importantly, on the 30th anniversary of the legislation being approved, the ADA facilities are incomplete. This plan is to trigger conversations to improve this infrastructure.
  - There are benefits to walking & biking – personal health, more efficient use of streets, social equity, economic development, environmental sustainability, and public health advantages.

- MORPC did a quick modeling exercise to understand the regional travel patterns and found that half of our trips are less than 5 miles and 35% are less than 3 miles.
- Mr. Patchan shared a compelling graphic that depicts three “scenarios” showing how space is used up by cars, buses, and cyclists. The four scenario is what the graphic would look like if all were integrated (a separate bus lane, a bike only lane, and still room for cars).
- A steering committee meeting and stakeholder meeting have been held – goals, vision of the project, issues/opportunities have been presented. The next steering committee meeting is in September. We will be issuing a public survey (using the ODOT public survey from their walk/bike Ohio survey) and targeting the lower income, non-white communities. Working with Data & Mapping and the Human Services Chamber to obtain statistically valid responses from a diverse audience. We are also looking at a short trip analysis to better understand where the lower hanging fruit is occurring and better target initial investments.
- Mr. Patchan also shared the project timeline.
- [ATP-Overview.pdf](#)

#### IV. **Funding Programs**

##### **Attributable Funds Project Status Update** – Thomas Graham (MORPC)

- Mr. Graham provided the update on how we closed out state fiscal year 2020. MORPC was able to advance funds for a number of projects in FY 2020. Our normal annual allocation is around \$37,000,000 across the different funding programs. We were able to encumber over \$42M to advance some of those projects. Additionally, we were able to keep any carryover across our programs, which is well below the allowable; and therefore, ensuring that none of our funds would be subject to recall.
- For FY 2021, at the beginning of July, funds for the different MORPC planning programs were encumbered. Additionally, we saw the encumbrance for the final payments of the Delaware County, South Old State Road project as well as some funds encumbered for railroad reimbursement and the Worthington-Galena Road project. The bulk of the funds will still be encumbered later this fiscal year.
- MORPC has received both commitment updates for outstanding commitments as well as screening applications for new funding requests. These new requests will be covered in the Attributable Funds Committee meeting, which is following today’s TAC meeting.

#### V. **Information Items**

- Active Transportation Committee Update – Stephen Patchan, MORPC
  - The first Active Transportation Committee meeting met. This committee will be providing updates to the TAC on a quarterly basis to keep TAC informed of projects/conversations related to items to be funneled to TAC prior to being sent to Commission for approval.

- During the first meeting, Stefanie Brodie, from the Tool Design Group, provided a comprehensive/insightful presentation on equity in active transportation.
- The next meeting is October 27.
- TRAC Project Introduction – Dina Lopez, MORPC; Maria Schaper, MORPC
  - This is a council that is by appointment and task with committing ODOT Funding for major new capacity program projects.
  - Ms. Schaper reviewed the Metropolitan Transportation Plan (MTP) that was adopted in May 2020, focusing on freeway projects of the MTP.
  - Ms. Lopez reviewed the five central Ohio applicants:
    - Big Walnut Interchange
    - Far East I-70/Pickerington Road/SR-256
    - Far East Freeway: Phases 2 & 3
    - I-270 & US 23 Interchange
    - US 33 at Pickerington/Allen
  - The 2020 TRAC cycle timeline was also reviewed.
  - A question was proposed with regard to “is induced demand currently factored into the consideration of projected intended to increase capacity or reduce congestion”. Ms. Lopez will be in contact with Jim Gates, ODOT track manager to provide an answer. There are two evaluations that happen. One from ODOT and an evaluation from MORPC.
  - [August-2020-TRAC-Presentation.pdf](#)
- People Who Bike Campaign – Lexi Petrella, MORPC
  - This is a campaign that MORPC is working on along with the Central Ohio Mode Shift Coalition and the Central Ohio Greenways to focus on encouraging modeshift, specifically focusing on breaking down the stereotypes of bicyclists as well as a great opportunity to encourage biking for recreation/transportation and will run the month of August.
  - Ms. Petrella will be conducting “New York style interviews”, which is interviewing people and then writing creating narratives and sharing on social media.
  - MORPC has developed a People Who Bike Passport and the only requirement is that you fill out at least three of the activities. These will be available at trail heads, libraries, etc.
  - If you are interested in supporting the campaign, please reach to Lexi and she will provide you with a marketing toolkit.
  - [People-Who-Bike-2020.pdf](#)
- TDM Strategic Plan – Lexi Petrella, MORPC
  - TDM (transportation demand management) focuses on encouraging mode shifts as well as encouraging commuters to use sustainable modes of transportation through education, outreach incentives and various other types of programming. There are many benefits to TDM, among them – reduce roadway congestion,

- reduce the costly infrastructure improvements, reduce personal travel costs and improve air quality.
  - The Central Ohio Modeshift Coalition was formed about a year and a half ago, with the intention of bringing mobility providers and local government representatives together to discuss different education outreach incentives. It has now transformed into being mostly mobility providers and local governments that have new and innovative mobility programming going on.
  - Ms. Petrella covered the core values of the plan, which include people, equity and innovation; the connection between the TDM and the MTP; the TDM strategies, which will be available on our website by the end of the week as well as action steps.
  - Please contact Ms. Petrella if you are interested in reviewing the TDM plan, she can send out the link to you later this week.
  - [TDM-Plan.pdf](#)
- Trail Update – Melinda Vonstein, MORPC
    - The Central Ohio Greenways (COG) has been working on a number of projects to help strategically align us to undertake a major implementation effort.
    - One of the major projects that has been completed is the development of the regional trail vision. In 2018, the COG adopted the vision to add 500 more trails to the existing network of 230.
    - In 2019, MORPC conducted a study where we asked regional leaders if they thought the trail vision was something we should do. The responses were overwhelming that this is really needed to retain talent to improve the quality of life, as the region continues to grow.
    - During COVID-19, the use of trails has increased dramatically and during the early stages of the pandemic, trail use in Central Ohio and across the country had increased by about 200% and it's an amenity that people are demanding.
    - With the support of Franklin County Engineers Office and the City of Columbus Public Service, we are conducting a study to help us identify what corridors and trails segment should be built first. We have about 26% bike friendly access and we could possibly reach 60% with these improvements.
    - One of the other studies is the impact of trails. The intention of this study is to provide information that will assist us in obtaining additional funding. Our goal is to align data with philanthropic missions, understand the impacts of trails (affecting public health, economic development, social equity and the environment).
    - The last project is increasing the awareness of trails and encouraging more people to get out and use the trails for commuting and recreation.
    - [Central-Ohio-Greenways.pdf](#)

**VI. Other Business - None**

**VII. Adjourn**

- Chair Fitzpatrick entertained a motion to adjourn. James Young moved; Reynaldo Stargell seconded, none opposed, motion carried. Motion adjourned at 10:14 am

---

Thea J Ewing, Secretary  
**Transportation Advisory Committee**

## MORPC Monthly Metropolitan Transportation Organization Summary

September 2020

---

# Transportation & Infrastructure Development

Thea Ewing, Director - [twalsh@morpc.org](mailto:twalsh@morpc.org)

### **Transit, Mobility & Human Services**

- MORPC staff have led the first Central Ohio Mobility Management Working Group meeting to discuss next steps of the program, coordination with ODOT, and other organizations. The Working Group will meet quarterly with opportunities for information sharing, program updates, and input.
- MORPC staff are developing a Specialized Mobility Search tool for older adults, people with disabilities, care takers, individuals with low income, and social service organizations to search for transportation options that support quality of life. The tool has been developed for demonstration and testing and is being improved for a better user experience.
- MORPC hosted a COTA / DCT / LCATS / LCT Coordination meeting on August 20<sup>th</sup>.
- MORPC has scheduled a 5310-info meeting scheduled for September 18.
- MORPC staff is developing a matrix to determine who received OTP@ funding vs. CARES Act funding and what amounts.
- Staff met with COTA, Westerville and the City of Columbus regarding planning transit-oriented development along COTA's CMAX BRT line.

### ➤ **Gohio**

- Gohio Staff attended the Association of Commuter Transportation Annual Virtual Conference to learn best practices in our industry.
- Gohio Staff continue to work on DE&I taskforce to develop a DE&I plan for the Association of Commuter Transportation.
- MORPC staff have implemented a TDM campaign for August 2020 called People Who Bike to encourage Central Ohio residents to bike for transportation. The campaign is focused on providing incentives and educational resources for residents new to or interested in biking to feel encouraged and empowered to bike instead of driving a single occupancy vehicle.
- MORPC staff are working with the Columbus Young Professionals to implement an online webinar on the importance of using sustainable modes of transportation and engaging vulnerable populations in the planning process. The webinar is part of Columbus Young Professionals Week 2020 and will encourage a broad audience to view it.

## **Transportation Planning Studies**

### ➤ **ODOT US 33 Southeast Study**

- ODOT district 6 is in the beginning stages of a corridor study of Us 33 from approximately SR 104 to Fairfield County. The study is to look at mainline capacity issues, the interchange at I-270 and identified problems at other interchanges in the study area. MORPC is assisting by providing the base modeling work to ODOT and their consultants. Initial modeling work was provided to ODOT in early August.

### ➤ **Rapid Speed Transportation Initiative (RSTI)**

- Passenger Rail Project: MORPC participated in a meeting with the Northeast Indiana Passenger Rail Association, All Aboard Ohio, and the various communities between Gary, IN and Lima, OH to discuss the best way to advance the passenger rail environmental studies.
- Hyperloop Project: MORPC continues to support Jobs Ohio, the Transportation Research Center, Virgin Hyperloop, and others to advance economic development negotiations to bring a research center and certification track for hyperloop technology.

## **Central Ohio Rural Planning Organization (CORPO)**

- CORPO's quarterly newsletter is now online and was posted to the CORPO website in early August.
- County-level subcommittee meetings via teams are in the process of being held during the first half of September.
- CORPO participated in MORPC's second Mobility Management Peer Exchange on August 17th. CORPO will moderate a virtual discussion regarding Rural Transportation and Mobility on September 14th.
- CORPO will host a breakout session at the Central Ohio Safety Forum scheduled for September 19th.
- In August CORPO provided feedback on OHM's draft Transit Feasibility Study as well as on ODOT's US 33 Study drafts.
- The CORPO webpage is updated with information regarding regional funding and links.
- CORPO is assisting MORPC on an EDA Workforce development grant and working with CORPO members to determine who received CARES act funding and how much.

## **Infrastructure Funding**

### ➤ **MORPC Attributable Funding**

- MORPC held a virtual meeting of the Attributable Funds Committee on August 5, 2020. MORPC staff provided an overview of the screening applications submitted for new funding, as well as a summary of commitment update received for this round of attributable funding.
- MORPC continues to develop feedback for applicants regarding the screening applications for new funding. This feedback, as well as guidance for final applications, will be provided to applicants by the end of August.

### ➤ **Ohio Public Works Commission (OPWC)**

- Applications for funding from OPWC programs for local infrastructure projects in District 3 (Franklin County) are due to MORPC on September 30, 2020, at 5 p.m. More than \$27 million in grants and loans are available for projects starting construction in the SFY

beginning July 1, 2021. Team members are available to answer prospective applicants' questions by phone, email, and virtual meeting.

- Applications for District 17 (includes Delaware, Licking and Fairfield counties) are due on November 6, 2020.
- Final applications for District 11 (includes Union County) are due on October 5, 2020.

➤ **Natural Resources Assistance Council (NRAC)**

- Application materials for the Clean Ohio Conservation Fund will be available on MORPC's website in late August. Information will be sent to communities in OPWC.
- District 3 (Franklin County) is announcing the availability of \$3.9 million for green space acquisition and stream corridor restoration. Preliminary screening applications are due on December 11, 2020, and final applications are due on March 19, 2021.

➤ **Competitive Advantage Projects (CAP)**

- MORPC is working with Ice Miller to finalize the Innovative Funding Study activity and implement recommendations in the current CAP cycle where applicable.
- MORPC is preparing to solicit feedback from each county on the existing inventory of CAP projects as an initial step in the overall CAP update to be completed this fall.

➤ **Transportation Review Advisory Council (TRAC)**

- MORPC issued a press release announcing the projects submitted for TRAC funding that are within MORPC metropolitan planning organization (MPO) area. A total of five applications were submitted. To view more information on these applications, please visit MORPC's website. MORPC staff presented the MPO area applications submitted to MORPC's Community Advisory Committee (CAC) and Transportation Advisory Committee (TAC) on August 3 and August 5 respectively. MORPC is receiving comments from the public on these projects until September 11.

# Data & Mapping

Aaron Schill, Director – [aschill@morpc.org](mailto:aschill@morpc.org)

## **Regional Data Advisory Committee (RDAC)**

The RDAC will meet on September 1 to discuss the work of the four Working Groups, the Broadband Access Pilot Program, the COVID-19 Impact Study, and other matters.

- Data Policy Needs Survey & Toolkit Working Group members continue their work on the Data Policy Needs Survey. The Working Group met formally on August 20 and will meet for two informal work sessions in September. The Working Group will meet again after the product of the informal work sessions has been evaluated by Working Group leadership.
- The Regional Information & Data Group (RIDG) Working Group met on August 17 to review the outcome of the July 22 RIDG user group meeting, to plan the fourth quarter RIDG user group meeting, and to discuss plans to develop a Steering Committee Charter. The Working Group will meet again on September 17.
- The Regional Municipal Fiber Strategy Working Group continues their work via the Fiber Network Subgroup. The Working Group will meet again later in 2020.
- The Central Ohio GIS User Group (COGUG) met on August 12, with 40 attendees. The group enjoyed presentations from OGRIP, One Columbus, and OSU CURA. After presentations, attendees dispersed into breakout sessions for more in-depth discussions regarding LBRS, Data Analysis, ArcPro, and AGO. COGUG will meet again on November 18, 2020, which is National GIS Day.

## **Transportation**

- Data & Mapping staff continue to assist Transportation staff with the Metropolitan Transportation Plan and other Transportation mapping and data needs.
- Data & Mapping Director Aaron Schill is assisting Transportation staff in the final steps of the update of the Attributable Funds Online Application.

## **Census**

- Data and Mapping Director Aaron Schill continues his work with Ohio Census Advocacy Coalition (OCAC) on outreach to encourage full participation in the 2020 Census, with a focus on historically “hard-to-count” populations.

## **Data and Mapping Outreach and Collaboration**

### **Central Ohio Broadband Access Pilot Program**

- Data & Mapping Director Aaron Schill is working with ESCCO and PCs for People to meet with school superintendents from MORPC member counties and with prospective funding partners. To date, the funding partners are Chase, WCMH, Cardinal Health, and CAS.

### Planning & Sustainability

- Data & Mapping Staff are collaborating with Planning & Sustainability staff to produce and analyze the Central Ohio Greenways Trail Survey, Active Transportation Plan, Trail Prioritization, and Trail Counts.

### Regional Housing Strategy

- Data & Mapping staff continue to take a lead role in data collection and analysis for the Regional Housing Study.
- Data & Mapping staff and Planning & Sustainability staff are working to design a Regional Housing Strategy Hub similar to the COVID-19 Hub.
- Data & Mapping Director Aaron Schill presented at the Social Media Forum: Engagement Through the Lens of Social Media on 7/29.
- Data & Mapping Director Aaron Schill presented at the COVID-19 Community Impact - Townships, Counties and Franklin County Township Association 8/11.
- Data & Mapping Staff met with ODOT on 8/12 to discuss the Franklin County LBRS and how to go about working with DDTI for data transfer. A follow-up meeting is set for 8/24. Multiple agencies dynamically edit Franklin County LBRS data, which complicates the transfer process.

# Planning & Sustainability

Kerstin Carr, Director - [kcarr@morpc.org](mailto:kcarr@morpc.org)

## **Active Transportation Planning**

- **Active Transportation Plan:** Team members hosted the first of two stakeholder workshops for the ATP on July 30. More than 30 stakeholders from around the region attended to discuss their vision and goals for active transportation. The Active Transportation Plan Steering Committee will meet on September 1.
- **Active Transportation Committee (ATC):** The ATC will meet October 27 at 10:00 am. If any communities not currently involved with the committee would like to join the meeting, please contact Lauren Cardoni [lcardoni@morpc.org](mailto:lcardoni@morpc.org).
- **Bicycle & Pedestrian Counts:** MORPC will conduct manual bicycle and pedestrian counts this fall with the help of volunteers. Similar to this past spring, we will conduct these counts for a four-week period beginning on Sunday, August 30, thru Saturday, September 26. Please contact Andrew Love [alove@morpc.org](mailto:alove@morpc.org) for more information.

## **insight2050**

### Technical Assistance Program (TAP):

- Team members held an internal stakeholder workshop with Jefferson Township to develop a vision for the transportation and land use planning at the Blacklick Station site area.
- Team members and City of Hilliard staff conducted a follow-up survey with internal stakeholders for the City's Cemetery Road Conceptual Development project.
- Team members continued work on Columbus' Speed Management Framework project, conducting local and national document reviews and meeting with City staff to begin developing a framework methodology.

## **Regional Housing Strategy**

- The Regional Housing Strategy was officially rolled out on September 2. This virtual event featured a number of regional leaders highlighting their take-aways from the year-long project, along with a keynote by New York Times columnist and author Conor Dougherty.
- The final joint work session of the project sponsors and advisory board was held in August. Participants prioritized actions for year-one implementation. The results of this meeting as well as project sponsor and advisory board review and feedback were integrated into the final report and highlighted at the public roll-out event.

## **Transportation Safety**

- **Regional Safety Forum:** MORPC will host its first annual Central Ohio Transportation Safety Forum on Tuesday, September 15. You can find more information about the event and registration at [www.morpc.org/safety](http://www.morpc.org/safety), or contact Lauren Cardoni at [lcardoni@morpc.org](mailto:lcardoni@morpc.org).
- **Committee Meetings:** MORPC team members attended the Franklin County Traffic Fatality Review meeting on July 31. The meeting was held virtually after being cancelled for the last few months due to COVID-19. Potential engineering solutions were discussed for a few of the crash locations, including signal phasing changes and sidewalks.

## **Sustainable2050**

Member Engagement: Members are encouraged to pursue their Tier Status designation this summer. MORPC team members are available to assist with this process. Monthly member emails continue to keep Sustainable2050 members apprised of sustainability related resources and funding opportunities throughout the summer. The 3<sup>rd</sup> quarter meeting will take place on September 25<sup>th</sup> via Microsoft Teams.

## **Greenways & Water Resources Program**

The COG Board met on July 15 to discussed and reviewed each of the working groups' projects.

- Trail Development Working Group: The Working Group is on track to complete the Trail & Active Transportation Prioritization Project by this Fall. The group also shared an initial draft of a COG Urban Greenway Design Guide, a document that will provide guidance and inspiration to partners as they plan trail projects that are co-located with existing rights of way and urban environments.
- Marketing & Communications Working Group: The Working Group is collaborating with the MORPC Mode-Shift Coalition on the People Who Bike campaign. The campaign, which will run in August, will focus on the diverse people who bike and the reasons they enjoy biking. The campaign will include educational resources, donation events, and educational opportunities. Additionally, through generous support from local partners, COG was able to sponsor a bike donation to a YMCA family.
- Operations & Access Working Group: The Working Group is exploring an opportunity to collaborate on trail and multi-use path wayfinding with COG partners.
- Partnership Working Group: The Working Group is on track to complete the Environmental & Health Impacts of Trails Study this fall and was recently awarded funding from the Columbus Foundation to conduct a second phase of the study that will look at economic and social equity impacts of trails. The group is also finalizing a trail funding design guide.

Sustaining Scioto Board: MORPC staff submitted a proposal to the Ohio Water Development Authority (OWDA) on July 31. If OWDA approves funding for the project, the project will create a Comprehensive Water Quality Monitoring Plan for the Upper and Middle Scioto River. The Sustaining Scioto Board will meet on August 24.

In addition, the Agriculture and Rural Communities Outreach Team was recently formed from the Sustaining Scioto Board to broaden the outreach and engagement with agricultural and rural communities within the watershed in order to share best practices and collaborate on common goals. A Chair and 10 members of the Team are confirmed, and two more Team members who are not currently on the Board will be added.

## **Energy & Air Quality**

Energy & Air Quality Working Group: The Energy and Air Quality Working Group convened on Tuesday, July 28. The Working Group discussed how to use equity as a lens for considering future projects, policies to elevate to the Sustainability Advisory Committee, and future member recruitment.

- Air Quality Sensor Subgroup: Socio-economic and health data is being compiled to perform neighborhood prioritization analysis for placement of air quality sensors.
- Solar Toolkit Subgroup: Additional resources continue to be added to the toolkit, which is available on MORPC's website.
- Local Government Energy Partnership (LGEP): Participants in the Local Government Energy Partnership were informed that per contract, the MORPC Benchmarking Program will end on December 31, 2020. Participants who are interested can continue benchmarking services with

available automated utility programs, or manually via the ENERGY STAR Portfolio Manager. The LGEP will continue into 2021 with new opportunities for members to be announced in the coming months. The next Energy Academy session on September 9 will dive into the solar toolkit as well as energy benchmarking.

### **Sustainability Advisory Committee**

- **Sustainability Advisory Committee (SAC):** The SAC met on August 19. MORPC's Senior Energy Planner presented information about SolSmart, a national designation program that recognizes local communities and regional organizations that foster the development of solar markets. The SAC voted to recommend that Commission approve MORPC's pursuit of Regional SolSmart designation. The MORPC Team also provided updates about the Summit on Sustainability and a policy report. The Regional Sustainability Agenda Subcommittee recommended lengthening the project timeline to engage in a thoughtful and inclusive process to reflect a greater focus on equity, with the goal of completion within the first six months of 2021. There were no objections.
- **Regional Sustainability Agenda (RSA) Subcommittee:** The RSA subcommittee met on August 18, where they reviewed a proposal for consultant services, which would include recommendations for increasing equity considerations, workshop facilitation, and toolkit creation. The group also reviewed a Sustainable2050 member survey, which had a good response rate with useful input on member priorities.

# Communications & Engagement

Niel Jurist, Director – [njurist@morpc.org](mailto:njurist@morpc.org)

Graphic design materials were produced for Gohio Commute's People Who Bike campaign, including logo and biking passport. Design work was also completed on the Telework Guide.

Radio ads were taken out on CD 102.5 and on all Urban One Stations for the month of August to encourage individuals and families to bike this month for the People Who Bike campaign. Additionally, digital advertisements were run on Urban One online platforms and via MORPC's platforms to reach diverse audiences.

One-page info sheets were created for each project seeking TRAC funding within the MPO area to assist in the public comment period.

## Memorandum

**TO:** Transportation Advisory Committee  
Community Advisory Committee

**FROM:** Thea Ewing, Director  
Transportation & Infrastructure Development

**DATE:** August 24, 2020

**SUBJECT:** Proposed Resolution T-11-20: “Amending the State Fiscal Year (SFY) 2021-2024 Transportation Improvement Program”

Proposed Resolution T-11-20 will add or modify twelve projects to the SFY 2021-2024 Transportation Improvement Program (TIP) with commitments totaling almost \$197 million. These changes are necessary to enable the projects to advance and to maintain fiscal constraint. In October, the Ohio Department of Transportation (ODOT) will ask the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) to amend the Statewide TIP to include these changes.

Attachment 1 to the resolution provides a description of the funding and scope of the projects, including a description of the bicycle and pedestrian components. Three projects include MORPC-attributable funding.

An explanation of the proposed changes to the TIP follows.

COTA - The following addition and modification to the TIP are being made for COTA projects:

- PID 112184 – Add \$10,000,000 of Section 5307 funds in SFY 2021 for the Fields Avenue Renovation project.
- PID 113728 - Add \$2,050,000 OTP2 award for COTA in SFY 2021

Delaware County Transit - The following addition to the TIP is being made for a Delaware County Transit project:

- PID 113728 - Add \$848,711 OTP2 award for DCTB in SFY 2021

Dublin - The following addition to the TIP is being made for a Dublin project:

- PID 111158 – Add \$250,000 ODOT Jobs and Commerce grant award in SFY 2021 for the University Boulevard project in the City of Dublin. This amendment additionally includes listing of the local funding commitment to the project.

ODOT, District 6: The following additions and modifications to the TIP are being made for ODOT projects:

- PID 77372 – Add \$370,000 in SFY 2021 for PE Environmental phase of the I-70/I-71 Innerbelt Phase 4A. This project includes MORPC funding in the construction phase, but there is no change to the MORPC funding.
- PID 88035 - Add \$500,000 in SFY 2024 for ROW Utility Reimbursement phase of the I-70/I-71 Innerbelt Phase 5.
- PID 90200 – Add \$4,200,000 in SFY 2021 for PE Detailed Design phase of the I-71 at Sunbury Parkway study.
- PID 93497 – Add \$325,000 in SFY 2021 for PE Environmental phase of the I-71 from Stringtown Road to SR-315 project.
- PID 95639 – Add \$1,500,000 in SFY 2021 for ROW phase of the Far East Freeway, Phase 1A
- PID 110587 – Add \$15,183 in SFY 2021 for PE Environmental phase of the Cleveland Avenue at Hudson Street intersection improvements project and list this project individually in the TIP.
- PID 112768 – Add \$1,000,000 in SFY 2021 for Phase 1 of the US 23 Corridor Study exploring a continuous freeway connection between Toledo and Columbus focusing on the areas between Marion and Columbus. This project includes \$250,000 of MORPC funding towards this study.

Whitehall - The following modification to the TIP is being made to a Whitehall project:

- PID 105768 – Add \$97,175 in SFY 2021 for PE Detailed Design phase of the E Broad St at S Hamilton Road intersection improvements project. This project includes MORPC funding in the construction phase, but there is no change to the MORPC funding.

- Proposed Resolution T-11-20

## **RESOLUTION T-11-20**

### **“Amending the State Fiscal Year (SFY) 2021-2024 Transportation Improvement Program”**

WHEREAS, the Transportation Policy Committee of the Mid-Ohio Regional Planning Commission (MORPC) adopted the SFY 2021-2024 Transportation Improvement Program (TIP) by Resolution T-7-20; and

WHEREAS, two project additions or modifications to the 2021-2024 TIP have been identified as needed for COTA projects as shown in Attachment 1; and

WHEREAS, one project addition to the 2021-2024 TIP has been identified as needed for Delaware County Transit projects as shown in Attachment 1; and

WHEREAS, one project addition to the 2021-2024 TIP has been identified as needed for Dublin projects as shown in Attachment 1; and

WHEREAS, seven project additions or modifications to the 2021-2024 TIP have been identified as needed for Ohio Department of Transportation (ODOT) projects as shown in Attachment 1; and

WHEREAS, one project modification to the 2021-2024 TIP has been identified as needed for Whitehall projects as shown in Attachment 1; and

WHEREAS, the projects are consistent with the transportation policies, plans, and programs, including the most recent Metropolitan Transportation Plan adopted by the Transportation Policy Committee; and

WHEREAS, the Community Advisory Committee at its meeting August 31, 2020, and the Transportation Advisory Committee at its meeting on September 2, 2020, recommended approval of this resolution to the Transportation Policy Committee; now therefore

### **BE IT RESOLVED BY THE TRANSPORTATION POLICY COMMITTEE OF THE MID-OHIO REGIONAL PLANNING COMMISSION:**

- Section 1. That the MORPC SFY 2021-2024 TIP be amended to include the project information as shown in Attachment 1.
- Section 2. That it affirms that the fiscal balance of the SFY 2021-2024 TIP is maintained.
- Section 3. That the determination of conformity between the TIP and the State Implementation Plan (SIP) is hereby reaffirmed, as the projects are exempt from conformity requirements or have been included in the most recent air quality conformity approval.
- Section 4. That it affirms that the amendment was developed in compliance with the transportation performance measures as described in Section 6 of the SFY 2021-2024 TIP as modified.

Section 5. That this resolution will be transmitted to ODOT and all sponsoring agencies in Attachment 1 for appropriate action.

Section 6. That the Transportation Policy Committee finds and determines that all formal deliberations and actions of this committee concerning and relating to the adoption of this resolution were taken in open meetings of this committee.

## Memorandum

**TO:** Mid-Ohio Regional Planning Commission  
Officers and Board Members  
Transportation Policy Committee  
Transportation Advisory Committee  
Community Advisory Committee

**FROM:** Thea J. Ewing, Director of Transportation & Infrastructure  
Development

**DATE:** August 24, 2020

**SUBJECT:** Proposed Resolution T-12-20: "**ACCEPTING THE PWP  
COMPLETION REPORT FOR STATE FISCAL YEAR 2020**"

Annually, MORPC is required to submit a report to the Ohio Department of Transportation (ODOT) describing the work completed with federal planning funds provided to continue the metropolitan transportation planning process, as defined by the FAST Act.

For State Fiscal Year (SFY) 2020, the use of these funds was outlined in the SFY 2020 Planning Work Program (PWP) adopted by Resolution T-4-19 and amended by resolution T-3-20. The PWP serves as the scope of work, the schedule, and the budget for the federally funded planning activities.

The PWP included such activities as preparing the SFY 21-24 TIP, continued delivery of projects using MORPC-attributable funds, follow up of the 2016-2040 Metropolitan Transportation Plan (MTP), completion of the 2020-2050 MTP, assistance on freeway and arterial studies, support for safety and operations and management of the transportation system, and support for transit, bike and pedestrian planning. The SFY 2020 PWP also included the continuation of ridesharing/demand reduction and air quality awareness activities, including the commuter challenge to reduce single-occupancy vehicle use and launching the mobility management program at MORPC. As part of this scope of work, MORPC also maintained the Public Involvement Plan, completed the selection process for FTA Section 5310 funding, continued the Regional Data Advisory Committee, continued outreach and developed resources related to insight2050, including the technical assistance program, continued the Rapid Speed Transportation Initiative and other projects and activities that have been presented to you over the state fiscal year.

A summary of the PWP activities is included as an attachment to the resolution. A full report is available upon request. Resolution T-12-20 approves the completion report and requires that it is forwarded to ODOT.

RESOLUTION T-12-20

**“ACCEPTING THE PWP COMPLETION REPORT FOR STATE FISCAL YEAR 2020”**

WHEREAS, it is the role of the metropolitan planning organization (MPO) to help encourage, facilitate and provide a forum for regional, cooperative transportation planning and decision-making; and

WHEREAS, the Planning Work Program (PWP) is the document that outlines the work of the MPO, the use of regional transportation planning funds and the regional planning activities that will be done each state fiscal year; and

WHEREAS, the Policy Committee adopted the SFY 2020 Planning Work Program (PWP) by Resolution T-4-19 and amended it by resolution T-3-20; and

WHEREAS, the activities described in the PWP have been completed or carried over into SFY 2021 and reported in the PWP Completion Report, a summary of which is attached; and

WHEREAS, major products of the PWP have been presented previously; and

WHEREAS, these products include the core work with the Metropolitan Transportation Plan (MTP), the Transportation Improvement Program (TIP) and the continued delivery of projects using MORPC-attributable funds, as well as the freeway and arterial studies, local traffic forecasting and continuing updates to the travel demand model, maintaining data to support modeling and planning needs, support for transit planning and ODOT planning studies, ITS, ridesharing/demand reduction, bike and pedestrian planning, safety planning and air quality awareness; and

WHEREAS, ODOT requires approval of this PWP Completion Report by the Transportation Policy Committee as the Metropolitan Planning Organization; and

WHEREAS, the Community Advisory Committee at its August 31, 2020 meeting, and the Transportation Advisory Committee at its September 2, 2020 meeting recommended approval to the Transportation Policy Committee; now therefore

**BE IT RESOLVED BY THE TRANSPORTATION POLICY COMMITTEE OF THE MID-OHIO REGIONAL PLANNING COMMISSION:**

- Section 1. That the Transportation Policy Committee approves the PWP Completion Report for SFY 2020.
- Section 2. That this resolution and the PWP Completion Report be forwarded to the Ohio Department of Transportation for appropriate action.
- Section 3. That the Transportation Policy Committee finds and determines that all formal deliberations and actions of the committee concerning and relating to the adoption of this resolution were taken in open meetings of this committee.

Attachment: Summary of Completion Report for the SFY 2020 Planning Work Program

---

## SUMMARY

# FISCAL YEAR 2020 PLANNING WORK PROGRAM-COMPLETION

---

## I. Formula Funded Planning Program Projects

**Total Budget \$2,899,762**

**Balance Remaining for SFY 2021 or later is \$1,290**

### WORK ELEMENT      REPORT SUMMARY FUNDING SUMMARY

#### 60110-1000

#### Active Transportation Planning

Budget      \$420,000

MORPC continued to assist local governments with Complete Streets projects and Complete Streets policy development and reviewed transportation projects for Complete Streets compliance. MORPC also assisted local governments with their active transportation planning and projects. Team members worked with MetroParks, Columbus, and other partners to conduct its annual trail counts as well as the bi-annual non-motorized traffic counts along selected street segments. Central Ohio Greenways (COG) Board accomplished many items set out in its 5-year strategic plan, including obtaining funding for the Trails Impact Study and commencing development of the Trails Prioritization project.. Team members also commenced the update of the Regional Active Transportation Plan.

Spent 6/30      \$415,192

#### 60120-3000

#### Management & Operations Planning

Budget      \$175,000

Meetings of the Central Ohio ITS committee were held in July, October, January and April (vital meeting due to Covid-19). Project updates were provided at each meeting. Smart Columbus project updates were also provided. MORPC continued to participate in several Columbus committees and work groups for the Smart Columbus projects as well as the US 33 Smart Mobility Corridor.

Spent 6/30      \$170,854

MORPC continued to engage in the OARC freight transportation working group over FY 2020. MORPC organized several conference calls/meetings for the OARC Freight Working Group. MORPC attended events organized by the Columbus Region Logistics Council, the Mid-Ohio Development Exchange (MODE), and other Chamber of Commerce and Columbus2020 events related to freight and logistics in Central Ohio. MORPC had started planning for the Freight Conference to be held in Columbus in summer of 2020 before being cancelled due to Covid-19.

#### 60130-1000

#### Safety Planning

Budget      \$125,000

MORPC continues to be the OARC representative on statewide and regional safety committees, such as the Transportation Records Coordination Committee, the Ohio Strategic Highway Safety Plan Steering Committee, and Safe Communities, including the Franklin County Traffic Fatality Review Board. The team was actively involved in local safety initiatives and assisted other departments and agencies with project evaluation based on crash data. Also see 66555-1000.

Spent 6/30      \$119,767

#### 60150-3000

#### Transit and Human Services Planning

Budget      \$75,000

MORPC facilitated COTA/DCT/LCT/LCATS/MORPCTransit Coordination quarterly meetings. These meetings covered communications, public information, mobility management, service and capital planning with each agency. This year MORPC added Licking County Transit Board and Licking County Area Transit Study.

Spent 6/30      \$97,873

In cooperation with COTA, DCT & LCT MORPC administered the apportionment of FFY 2020 Section 5307, 5340 and 5339 funding within the Columbus UZA Split Letter.

MORPC participated in discussions with local employers and governments that have limited access to transit. MORPC worked with COTA to implement new First/Last mile service to launch in Grove City in the summer of 2019. MORPC assisted COTA on a Mainstream on Demand pilot.

**60200-3000**

Budget \$275,000

Spent 6/30 \$280,084

**Transportation Improvement Program (TIP) and Implementation**

Five amendments to the FY 2018-2021 TIP requested by ODOT and local agencies were prepared, processed and approved. The FY-21-24 TIP was completed and adopted in May. This included first draft to ODOT in February, with final draft and public involvement in April. Due to Covid-19 public a virtual public involvement meeting was held on March 30th.

MORPC approved Policies for Managing MORPC-Attributable Funds following several meetings of the Attributable Funds Committee and a formal public comment period. MORPC solicited applications for funding in late May with a virtual workwhop held on June 3rd. Updated previous commitments are due July 10th and applications for new funding on July 17th.

Federally funded projects were coordinated with local agencies, ODOT and the Ohio Public Works Commission. ODOT District staff scheduled quarterly meetings with local sponsoring agencies, their consultants, and MORPC staff. Monthly reports on the status of the MORPC-attributable projects were provided to the TAC. MORPC, COTA, DATABus and ODOT Transit met quarterly to stay on top of transit-specific TIP issues.

For SFY 2020, approximately \$44 million of attributable funds were encumbered for use on transportation projects and programs in the region.

TRAC - MORPC successfully completed another round of the TRAC project prioritization in fall of 2019. A total of 8 applications were submitted for funding within MORPC's metropolitan transportation area. ODOT announced in May 2020 that TRAC would be taking applications for funding in 2019. The application period opened in mid June.

***^ Project continues beyond SFY 2020***

**60510-2000**  
Budget \$445,000  
Spent 6/30 \$435,615

### **Manage, Map, Collect, and Share Data**

MORPC updates base GIS files and other transportation and planning datasets from state, federal, and local sources on a quarterly, annual, or as needed basis. MORPC maintains an open data site (accessible at [www.morpc.org/data](http://www.morpc.org/data)) to make GIS and other data files available for download. To make data accessible to nontechnical audiences and those without GIS capabilities, much of MORPC's data is also available for viewing through interactive maps on the open data site.

During FY 2020, MORPC completed work on the 2020-2050 Metropolitan Transportation Plan (MTP). Within the larger planning documents is included a summary of existing and projected population, employment, and land use, and forecasts of socio-economic factors that influence commuting patterns. Also included in the MTP is an appendix that details the methodology used to produce these forecasts, much of which was newly developed for this version of the MTP.

Throughout FY2020, MORPC continued making improvements to the quality and accessibility of key datasets such as local land use data and building permits from local jurisdictions. Many new datasets were also collected or created in support of new planning work undertaken over the course of the past fiscal year. Most notably, MORPC is leading a Regional Housing Strategy (RHS), which looks comprehensively at the supply, demand, and affordability of housing in the region, as well as the proximity of affordable housing to employment and other key destinations. MORPC is creating a new online resource, which will make the data and analyses produced during the RHS readily available and usable for a range of audiences, from technical data users to policymakers to interested residents.

During the last quarter of FY2020, significant attention shifted to collecting and sharing data related to COVID-19 and the associated impacts. MORPC developed a COVID-19 resource hub with data and links specific to Central Ohio and targeted primarily toward the needs of local governments.

MORPC's Regional Data Advisory Committee (RDAC) continues to meet on a quarterly basis, and advises staff and Commission on MORPC's role as a leader in regional data efforts. In FY2020, RDAC working groups continued work on four previously prioritized efforts from the Regional Data Agenda:

1. Creation of a Regional Data Users Group - launched in fall of 2019 as the Regional Information and Data Group (RIDG)
2. Partnership with the Center for Urban and Regional Analysis at Ohio State to develop a sustainability dashboard - in beta testing and scheduled for launch in fall 2020
3. Survey and toolkit to address local government data policy needs - survey under development
4. Mapping and development of a strategy for a regional municipal fiber-optic network - ongoing coordination among participating communities

In addition to launching RIDG, MORPC continues to host two data- and mapping-focused user groups. The Central Ohio GIS User Group consists of public sector GIS officials from throughout Central Ohio, while COSMOS consists of IT directors from several Central Ohio jurisdictions.

MORPC continues to monitor and maintain the Franklin County LBRS. Road centerlines, address points, bikeways and sidewalk mapping files are structured so local communities can jointly edit a common GIS file.

MORPC's work on the 2020 Census continued through FY2020 as well. This included finalizing census tract and block group updates through the Census Participant Statistical Areas Program, and chairing the Local Government Subcommittee of the Columbus/Franklin County Complete Count Committee.

***^ Project continues beyond SFY 2020***

**60520-2000**

Budget \$400,000

Spent 6/30 \$390,550

**Data Analytics and Research for Transportation Projects and Programs**

In FY2020, MORPC completed all data analyses necessary for the 2020-2050 Metropolitan Transportation Plan (MTP). This included finalizing the new methods changes of projecting population, employment, and development for the region. Significant effort was also made to document these processes to allow for replication and refinement in the future. The methodology is outlined in the MTP, as well as in a series of data visualizations and key takeaways that are intended to help various audiences understand and interpret the data.

For the Gohio Commute program, MORPC performs cluster and hotspot analyses to identify potential mode shift opportunities for employers considering participation in the program.

As part of the Regional Housing Strategy that MORPC is leading, several new Census tract-level data analyses were developed to inform that project. A housing submarket typology analysis groups tracts across the region by similar housing characteristics, and a displacement risk analysis identifies areas of changing market conditions and demographics, which are prone to gentrification and displacement.

**60550-3000**

Budget \$270,000

Spent 6/30 \$269,991

**Transportation Systems Analysis Techniques and Applications**

The newly developed 3C regional travel demand model has been adopted and applied for various studies and planning activities. Air quality analysis was conducted for projects requesting CMAQ eligibility. Staff continued using travel time data from INRIX/NPMDRS to produce measures for various studies. The origin-destination (O-D) data available from ODOT's subscription to Streetlight Insight and produce meaningful measures for several studies. The 3C model was used to develop evaluation data for all of the candidate projects for the 2020-2050 MTP.

Staff continued working closely with the consultant, ODOT and other MPOs on the improvements of the 3C regional travel demand model. Staff continued conducting test runs of the 3C model on MORPC's server and worked diligently with the consultant to refine/improve the 3C model. Staff continued working with ODOT and the consultants to support the Marysville CAV Simulation project by running the 3C models.

Air quality conformity analysis and environmental justice analysis was completed for the FY 2020-2050 MTP and the 21-24 TIP.

**61010-3000**

Budget \$290,000

Spent 6/30 \$291,535

**Long-Range Multimodal Transportation Planning**

Identification of candidate projects for the 2020-2050 MTP concluded in summer of 2019. More than 1,000 candidate projects, collected from local plans and through public input, were evaluated for inclusion in the MTP. Additionally, strategies were drafted, projects selected, and the full plan document was developed. Approximately 60 presentations were given to local jurisdictions and community groups throughout the region. An open house was held in February. The MTP was adopted in May 2020 with approval of the conformity determination received from FHWA in June.

Staff followed and participated in various ODOT planning activities, including progress on the innerbelt projects, I-70 east freeway activities, the Union County US 33 study, the US 33 and Pickerington Road area interchange, US 33 southeast study, and Toledo to Columbus freeway study. MORPC continued discussions including regular conference calls with communities along the Columbus to Chicago passenger rail corridor in conjunction with the Rapid Speed Transportation Initiative (RSTI) work elements.

***^ Project continues beyond SFY 2020***

**61020-0400**

Budget \$119,762

Spent 6/30 \$121,201

**Transportation Public Involvement**

Nine meetings of the Community Advisory Committee (CAC) and 10 meetings of the Transportation Advisory Committee (TAC) took place. All transportation-related topics included elsewhere in the PWP report were presented. The committees reviewed and passed 15 transportation-related resolutions over the year.

Printed materials, press releases, and digital content (social media and electronic newsletters) were regularly used to solicit public participation and involvement on transportation-related activities. Topics included were: Metropolitan Transportation Plan; Transportation Improvement Program; MORPC-attributable Funding; Central Ohio Transit Authority/Delaware County Transit Updates; Air Quality; TRAC Projects and Prioritization; Gohio Commute; Mobility Innovation Tests; Commuter Challenge; 2020 PWP Completion Report; 2021 PWP; Downtown C-pass; Central Ohio Transportation Safety Plan; Population Estimates, Complete Streets; Smart Streets Policy; Section 5310 Funding; Rapid Speed Transportation Initiative (hyperloop and passenger rail); insight2050 Corridor Concepts; insight2050 Technical Assistance Program, MORPC-attributable Funding; Safety; Bike & Pedestrian Counts; and Paving the Way.

**62510-1000**

Budget \$200,000

Spent 6/30 \$200,078

**Planning Coordination and Support**

MORPC met regularly with its member communities to receive planning updates and to provide assistance and coordination for some of their projects. Four times a year, MORPC held regional collaboration meetings, and at least monthly, MORPC provided educational transportation workshops and forums.

**69710-3000**

Budget \$105,000

Spent 6/30 \$105,734

**Program Administration**

Ten meetings of the MPO transportation committees (CAC, TAC & Policy) were conducted. The 2019 PWP completion report was prepared as well as the 2021 PWP. Work continued on updating MPO member agreements.

***^ Project continues beyond SFY 2020***

## II. Special Studies

**Total Budget \$1,906,299**

**Balance Remaining for SFY 2021 or later is \$238,597**

### **WORK ELEMENT      REPORT SUMMARY** **FUNDING SUMMARY**

<b>66528-3000</b>		<b>Rapid-Speed Transportation Initiative (RSTI) – Environmental Components</b>
Budget	\$536,000	The Tier I EIS Components study was completed by the consultant, WSP, in late 2019. Public meetings were held over the months of October and November to share the preliminary findings of this study, as well as the Hyperloop Feasibility Study. The final deliverables included four documents:
Spent 6/30	\$536,000	1. Existing conditions report - which includes the analysis of several different transportation data sets to demonstrate, with metrics, how people mobilize between key communities within the Chicago-Columbus-Pittsburgh corridor. 2. Route alternatives analysis report - which includes a screening analysis of all potential rail routes across the corridor. This includes assessing data on current freight train volumes, speeds, and track conditions. The report identified the top alternatives for a future passenger rail route. 3. Draft Purpose & Need Statement for Passenger Rail - This is a document that will guide and be informed by the entire Tier I EIS approval process. 4. Draft Purpose & Need Statement for Hyperloop - Intended to assist in developing a federal environmental approval process as a regulatory framework for hyperloop is developed.
<b>66538-3000</b>		<b>Rapid-Speed Transportation Initiative (RSTI) - Feasibility</b>
Budget	\$300,000	The Chicago-Columbus-Pittsburgh "Midwest Connect" Hyperloop Feasibility Study was completed by the consultant AECOM in late 2019. The final documentation of the study is available on MORPC's RSTI website. The study found that a hyperloop route is technically feasible between the three cities at average speeds greater than 500 miles per hour. The study also estimated that direct transportation benefits (emissions savings, time savings, etc) resulting from the project would be in the vicinity of \$19 billion, with broader economic benefits estimated at \$300 billion across the entire corridor.
Spent 6/30	\$299,976	
<b>66540-0400</b>		<b>Paving The Way SFY20</b>
Budget	\$150,000	Development of the upgraded Paving the Way system was completed and the system launched publicly during FY2020. It is currently in use by communities throughout Central Ohio, which represents a significant expansion beyond the prior system.
100% STBG using toll credit		MORPC hosted several training sessions for local government staff, as well as their consultants and contractors, all of whom are now able to maintain project information directly in the system. MORPC continues to function as the site administrator and provide support for users.
Spent 6/30	\$150,000	
<b>66558-1000</b>		<b>Technical Assistance Program</b>
Budget	\$200,000	Staff initiated Technical Assistance Program projects in the cities of Columbus, Hilliard, and Westerville as well as for Franklin County and Jefferson Township. All projects are anticipated to be completed by Q12021.
Spent 6/30	\$200,000	

**^ Project continues beyond SFY 2020**

**66560-3000**

Budget \$350,000

100% MORPC STBG using toll credit

Spent 6/30 \$350,000

**Supplemental Planning SFY20**

- 1) See 60210-3000 for activities related to the TIP and project expedition.
- 2) MORPC's traffic count consultant collected counts throughout the region. These traffic counts and others collected by various entities were processed into the MORPC online database system.
- 3) As described in 60510-2000, MORPC maintains an open data portal in order to provide direct access to a wide range of datasets that MORPC creates or maintains. The data and tools provided through the site are continually updated and improved-upon.
- 4) MORPC Data & Mapping staff responded to 126 tickets submitted for data & mapping support services on behalf of members during FY2020. Additionally, MORPC staff responds to numerous ad-hoc requests and supports member governments on larger planning projects.
- 5) Traffic forecasts for improved routes between US 33 and I-70 were completed in a technical memo.
- 6) See 66538-3000
- 7) Staff continued to work with the Sustainability Advisory Committee to ensure its goals were and goal updates are incorporated in the MTP.

**67410-3000**

Budget \$108,597 ^

100% FTA 5310 Administration  
10% of Apportionment

Spent 6/30 \$0

**5310 Designated Recipient-2020**

See 67419-3000 for 5310 designated recipient activities.

**67419-3000**

Budget \$106,702

100% FTA 5310 Administration  
10% of Apportionment

Spent 6/30 \$106,702

**5310 Designated Recipient-2019**

MORPC administered contracts after execution in TrAMS with subrecipients receiving 5310 funding from past apportionments to the Columbus, Ohio UZA according to MORPC's Program Management Plan (PMP). The following FTA Grant Agreements were administered:

MORPC administered a cycle of FTA Section 5310 funding using FFY 2019 and 2020 funds.

Staff has monitored and participated in efforts to address goals and strategies of the 2018-2021 Coordinated Plan

**67420-3000**

Budget \$130,000 ^

80% FTA 5310, 20% local

Spent 6/30 \$0

**Mobility Management 2020**

This work element added was added late in the fiscal year and no money was expended during FY20.

**90103-9004**

Budget \$25,000

Funding amount is ODOT contribution only

Spent 6/30 \$25,000

**America Walks Conference**

Team Members coordinated a one day national conference that presented best practices and innovative infrastructure and policy in relation to pedestrian travel. The conference hosted approximately 50 attendees from around the State of Ohio.

**^ Project continues beyond SFY 2020**

### III. Ridesharing and Air Quality Projects

**Total Budget \$1,365,000**

#### **WORK ELEMENT      REPORT SUMMARY** **FUNDING SUMMARY**

##### **66710-3000**

Budget      \$800,000

100% MORPC CMAQ

Spent 6/30      \$800,000

##### **Transportation Services (Ridesharing) SFY20**

Gohio Commute continued to promote vanpool and carpool services in addition to other modes such as biking, walking and riding transit. The program sponsors and develops program services based on the needs of the individual commuter, employer, job-ready/training programs, colleges/universities, non-profits and communities throughout the region. MORPC is leveraging relationships with other TDM partners to encourage modal shift, generating more of a streamlined and coordinated message to reduce single-occupancy vehicle trips.

MORPC prepared the 2020-2021 Transportation Demand Management Strategic Plan and monitored initiatives in the 2018-2019 plan with an emphasis on shifting cultural SOV preferences, performance based programming, collaborative champions, and TDM policy integration.

Related to MORPC's TDM Strategic Plan, MORPC and other Ohio rideshare agencies are using an interactive ridesharing platform that can be used by each rideshare agency in the state. OARC is using RideAmigos to provide rideshare, TDM and air quality platform with consistent brand (Gohio Commute) for ridesharing across the state. Gohio Commute has been in use since May 2017.

Due to COVID-19 MORPC's Air Quality and Gohio Commute did not hold a Central Ohio Commuter Challenge campaign.

##### **66730-1000**

Budget      \$565,000

100% MORPC CMAQ

Spent 6/30      \$565,000

##### **Air Quality Awareness**

MORPC maintained its daily air quality forecasting program and coordinated digitally focused marketing to educate the public about air quality. The team continued to partner with Gohio to encourage changes in commuter behavior. MORPC engaged local mobility partners in planning for Air Quality Awareness Week through the Central Ohio Mode Shift Coalition to create marketing content celebrating the role of smart mobility choices in improving air quality. MORPC convened bi-monthly Energy and Air Quality Working Group meetings to share best practices and formed subcommittees focused on low-cost air quality monitoring strategies and the creation of the Central Ohio Solar Toolkit for Local Governments.

During the COVID-19 shut down, MORPC deployed five agile air quality monitors strategically placed within and surrounding the downtown area, and provided analysis of air quality and greenhouse gas emissions impacted by reduced traffic volumes. Staff implemented the Local Government Energy Partnership with at least 11 local governments enrolled. As of the end of 2019, 77% of buildings enrolled in the program showed an improvement in energy consumption. MORPC also participated in planning efforts to shape the future direction of the Smart Columbus program, and provided technical assistance to its members for projects around EV infrastructure and greenhouse gas emissions.

***^ Project continues beyond SFY 2020***

## IV. Projects Undertaken By Other Entities

Total Budget \$0

### WORK ELEMENT      REPORT SUMMARY FUNDING SUMMARY

#### 66505-3000

Budget \$0

No funding

Spent 6/30 \$0

#### Ongoing Local Planning

MORPC regularly monitors local planning activities. A current library of new plans is maintained on the website under the Studies and Plans section. MORPC staff regularly participates in planning efforts of local communities.

The CAP initiative is a partnership between MORPC and One Columbus, to advance strategic infrastructure projects across Central Ohio by developing a vetted list of regional infrastructure project priorities. During the past fiscal year, MORPC continued to advocate and assist in finding funding for CAP projects. A CAP Innovative Funding Strategies Development Activity was mostly completed to help advance CAP projects by developing new, innovative, and/or private funding strategies for project development.

The Franklin County Transportation Improvements District (TID), a potential tool for advancing transportation projects, continued with a few projects receiving ODOT funding as a result.

#### 67401-3000

Budget \$0

No funding

Spent 6/30 \$0

#### Ongoing COTA Activities

COTA generally makes service changes three times a year - the first Monday of every January, May and September. Public information, review and comment take place before each service change. However, beginning in March 2020, COTA made significant changes to their service in response to Covid-19 including charging no fares. COTA updated their service on a near weekly occurrence throughout the remainder of FY 20.

The 2018-2021 Transportation Improvement Program was maintained as needed, including public involvement requirements for FTA Section 5307. COTA submitted grant requests to FTA. MORPC worked with COTA to develop the 2021-2024 TIP.

MORPC, COTA, GREAT and New Albany SmartRide continue to work together to promote, track ridership and adjust routes for the first and last mile shuttle. MORPC joined COTA in conversations with employers and local governments working on Mobility Plans. COTA worked with Dublin and Share for workforce development transportation and Grove City and Westerville on an on demand microtransit first mile last mile service for connections to jobs and health care. COTA continues Mainstream on Demand Pilot to provide non-ADA trips to eligible Mainstream paratransit riders.

Continued to partner with COTA and the Capital Crossroads Special Improvement District (SID) to maintain the member management system, for the Downtown C-pass pilot.

#### 67402-3000

Budget \$0

No funding

Spent 6/30 \$0

#### Ongoing DCT Activities

DCT continues to evolve from the 2010 Columbus UZA boundary change. Topics included the FTA funding transition from rural Section 5311 to urban Section 5307, state funding changes and local match needs for capital and operating and other FTA funding sources.

The 2018-2021 Transportation Improvement Program was amended as needed, including public involvement requirements for FTA Section 5307. MORPC worked with DCT to develop the 2021-2024 TIP.

Beginning in March 2020, DCT made significant changes to their service in response to Covid-19.

**^ Project continues beyond SFY 2020**
