# What does that have to do with TAC subcommittees?

- Sometimes staff brings together a group around particular issue of topic to assist staff or fill a specific need
- The TAC bylaws identify the ability for TAC to have subcommittees for such purposes when related to transportation
- Several years ago TAC recognized the Intelligent Transportation Systems (ITS) Committee as a TAC subcommittee
- An Active Transportation Working Group formed in early 2019 to assist staff in a number of areas such as:
  - Active Transportation Plan update
  - Technical Assistance Program
  - Complete Streets Policy
  - Other active transportation related activities
- Desire to make the Active Transportation Working Group a recognized part of the MORPC transportation related committees as a subcommittee of TAC

# What are we asking of TAC today

- Any initial feedback or questions about the Active Transportation Working Group or it being a subcommittee of TAC

## Next Step

- Staff to bring a TAC resolution next month that:
  - Reaffirms ITS as a subcommittee
  - Establishes Active Transportation Working Group as a subcommittee
  - A brief one-pager of each TAC subcommittee
  - Outlines reporting procedures of subcommittees to the full TAC
