

FRANKLIN COUNTY

TRANSPORTATION IMPROVEMENT DISTRICT

ABOUT THE FCTID

Established in March 2019, the FCTID's primary function is to facilitate collaboration between local jurisdictional partners and other county, state and federal agencies to identify, develop and secure funding for transportation improvement projects that support local and regional economic development strategies in Franklin County. The FCTID actively seeks out and builds partnerships that harness private sector innovation and resources, encourages competition, and optimizes the assignment of risk. Through this approach, the FCTID brings about cost-effective and environmentally compatible solutions for project development and delivery.

Board of Trustees

Cornell Robertson, *Chair*
Franklin County Engineer

Erik Janas, *Vice-Chair*
Franklin County Board of Commissioners

Zach Woodruff, *Secretary-Treasurer*
City of Whitehall

111 Liberty Street, Suite 100
Columbus, OH 43215

January 28, 2022 at 2:30 p.m.

February 24, 2022 at 2:30 p.m.

FCTID Mailing List

If you would like to receive FCTID Board of Trustees meeting invitations, meeting materials, and newsletters, please email tgraham@morpc.org to be included on the FCTID mailing list.

PROJECT FUNDING UPDATES

The Franklin County Transportation Improvement District applied for ODOT TID Supplemental Funding in the spring of 2021 for the Rohr Road Corridor Improvements Project. This project aims to efficiently construct the necessary transportation improvements to support the rapid economic development along the corridor and the surrounding Rickenbacker Area. The FCTID was awarded \$68,000 for detailed design in SFY 2022.

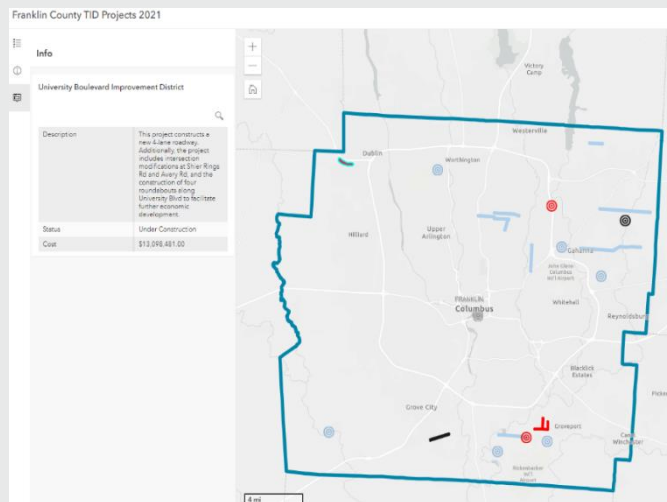

The Franklin County Engineer's Office applied for OPWC assistance for the SR 317 at Rohr Road Improvements Project in the Fall of 2021. This project will receive a grant of \$1,942,750 for construction in SFY 2023. Additionally, the FCTID has committed \$450,000 to this project.

FCTID PROGRAM OF PROJECTS WEB MAP IS AVAILABLE

Want to stay up to date on the FCTID Program of Projects? Check out the [FCTID Program of Projects web map](#).

This map includes all FCTID projects and provides information regarding the project scope, project status, and project cost.

This web map provides a dynamic platform for everyone to stay up to date on the status of FCTID projects. The map is accessible through the [FCTID webpage](#), hosted on MORPC's website.

CONSTRUCTION BEGINS ON 50 E. MOUND STREET PARKING FACILITY

In coordination with the Franklin County Board of Commissioners, the FCTID has executed contracts for the construction of a new surface parking facility at 50 E. Mound Street. Construction of this project has begun and is expected to be completed by July of 2022. This facility will support the parking needs of Franklin County's Downtown Complex. This project is expected to cost \$1,023,159.20 and will be paid for with money made available to the FCTID by the Franklin County Board of Commissioners.

The 50 E. Mound Street parking facility is the second phase of the Franklin County Parking Facilities Improvement project. Future phases will address parking and building access issues caused by construction of ODOT's I-70/I-71 Phase 4R/6R project, which is set to begin in Spring of 2022.

Please visit <https://www.morpc.org/committees/franklin-county-transportation-improvement-district> for additional information regarding the Franklin County Transportation District, including meeting materials from past board meetings and future board meeting information.
