NOTICE OF A MEETING

COMMISSION MEETING
MID-OHIO REGIONAL PLANNING COMMISSION
111 LIBERTY STREET, SUITE 100
COLUMBUS, OH 43215
SCIOTO CONFERENCE ROOM

Thursday, September 12, 2019
1:30 p.m.

AGENDA

1:30 p.m.

1. Pledge of Allegiance

2. Welcome and Introductions – Rory McGuiness (City of Columbus), MORPC Chair
   - Recognition of Guests and New Members – Eileen Leuby, MORPC Membership Coordinator

3. Executive Director’s Report – William Murdock, MORPC Executive Director

2:00 p.m.

Committees

5. Transportation Policy Committee (MPO) – Rory McGuiness (City of Columbus), MORPC Chair
   a. Call to Order – Rory McGuiness (City of Columbus), MORPC Chair
   b. Metropolitan Planning Organization Report
      - Transportation & Infrastructure Development – Thea Walsh, Director
      - Data & Mapping – Aaron Schill, Director
c. **Transportation Policy Committee Consent Agenda**

1) Approval of *[August 8, 2019 Transportation Policy Committee Meeting Minutes]*
2) **Proposed Resolution T-13-19**: “Amending the State Fiscal Year (SFY) 2018-2021 Transportation Improvement Program”
3) **Proposed Resolution T-14-19**: “Accepting the PWP Completion Report for State Fiscal Year 2019”

d. **Proposed Resolution T-15-19**: “Establishing priorities for Central Ohio candidate projects submitted in 2019 for TRAC funding” – Thea Walsh, MORPC Transportation & Infrastructure Development Director

e. **Safety Update** – Kerstin Carr, MORPC Planning & Sustainability Director

f. **Paving the Way** – Aaron Schill, MORPC Data & Mapping Director

g. **2020-2050 Metropolitan Transportation Plan Update** – Thea Walsh, MORPC Transportation & Infrastructure Development Director

- Updated Map Results & Draft Strategies

h. **Adjourn Transportation Policy Committee (MPO)** – Rory McGuiness (City of Columbus), MORPC Chair

2:30 p.m.  

6. **Sustainability Advisory Committee** – Jim Schimmer (Franklin County), Sustainability Advisory Committee Chair

7. **Regional Policy Roundtable** – Kim Maggard (City of Whitehall), Regional Policy Roundtable Chair

   a. **Legislative Update** – Steve Tugend, Kegler Hill Brown + Ritter and Joe Garrity, MORPC Director of Government Affairs

8. **Commission Consent Agenda**

   a. Approval of *[August 8, 2019 Commission Meeting Minutes]*
   b. Approval of Actions of the Transportation Policy Committee

9. **Other Business**

3:00 p.m.  

10. **Adjourn** – Rory McGuiness (City of Columbus), MORPC Chair

PLEASE NOTIFY SHARI SAUNDERS AT 614-233-4169 OR ssaunders@morpc.org IF YOU REQUIRE SPECIAL ASSISTANCE.
The next Commission Meeting is
Thursday, October 10, 2019, 1:30 p.m.
111 Liberty Street, Suite 100
Columbus, Ohio 43215

PARKING AND TRANSIT: When parking in MORPC’s parking lot, please be sure to park in a MORPC visitor space or in a space marked with a yellow “M”. Handicapped parking is available at the side of MORPC’s building. On Commission meeting days only, additional parking is available in numbered spaces toward the west end of the parking lot.

Indoor bike parking is available for MORPC guests.

MORPC is accessible by CBUS. The closest bus stop to MORPC is S. Front Street & W. Blenkner St. Buses that accommodate this stop are the Number 61 - Grove City, the Number 5 - West 5th Ave. /Refugee, and the Number 8 - Karl/S. High/Parsons.
Government Affairs
Joe Garrity, Government Affairs Director jgarrity@morpc.org

Hyperloop Statehouse Legislative Reception
On August 5th MORPC held a legislative reception for Virgin Hyperloop One (VHO) CEO Jay Walder at the Ohio Statehouse. The XP-1 hyperloop pod was on display at the Ohio Statehouse west lawn. Over 60 people including elected officials, members of the DeWine Administration, congressional staff, and other regional leaders attended the reception. MORPC assisted in a variety of other VHO tour events to ensure the 5-day visit was a success.

Mid-Ohio Finance Administration (MOFA) Meeting
On August 6th Franklin County Auditor Michael Stinziano provided an update on his first 150 days in office for attendees.

Ohio Road to Our Future Study Committee Advocacy
The final version of state transportation budget created the Ohio Road to Our Future Study Committee, which is tasked with finding innovative, long-term strategies to fund the state’s transportation system and write a report before the end of 2020. MORPC met with Representative Cross and Representative Greenspan—who both serve on the study committee—to share MORPC’s transportation funding priorities and to build a relationship with members of the committee and meet with Senator McCollery in September.

Congressman Stivers Artificial Intelligence Roundtable
On August 12th MORPC participated on Congressman Steve Stivers community discussion around the opportunities and the impacts Artificial Intelligence will have on our region and workforce.

Communications & Engagement
Niel Jurist, Director njurist@morpc.org

Diversity & Inclusion
MORPC provided training on Implicit Bias to 40 staff members on August 15.

During the August Commission meeting, the 1 MORPC 1 Voice speaker series featured Joy Bivens, Executive Director, Franklin County Jobs & Family Services, who presented information on Rise Together: A Blueprint for Reducing Poverty in Franklin County.

Team Members attended a meeting of financial institutions to discuss MORPC diversity efforts, U.S. Congresswoman Joyce Beatty’s Affordable Housing Community Conversation, and the
Columbus Women’s Commission event *The Columbus Commitment: Signature to Action Coffee & Conversation.*

Team Members hosted a booth at the Smart Columbus MBE Networking Event hosted by the City of Columbus Planroom in the Ohio Business Development Center.

**Presentations & Outreach**
Updates on Air Quality Alerts, Gohio Commute, and the 2020-2050 Metropolitan Transportation Plan (MTP) interactive map were provided to approximately 60 agencies at the Latino/Hispanic Collaborative.

**Events**
MORPC is partnering with America Walks to host the September 24 Walking Summit in Columbus at the Hilton Columbus Downtown.

MORPC will host the October 11 Summit on Sustainability at the Hilton Columbus Downtown. The theme for the Summit on Sustainability is Shaping Resilient Communities. Registration for the Summit on Sustainability is open. For more information please visit [www.morpc.org/summit](http://www.morpc.org/summit).

**Membership**
The summer intern program closed with an “Intern Celebration Luncheon”. Sixteen interns participated including two new hosts, Plain City and Jefferson Township. A meeting was held with MORPC’s HR team to review recommendations for next year’s program management.

The Rural 3 Forum was held August 13 in Mount Vernon. Fifty-nine participants came from Knox, Morrow and Licking Counties as well as community planning partner organizations. Nine board members were recognized for continuous service at the August Commission meeting. “Night at the Clippers” was held to commemorate MORPC’s 50th Anniversary.

See attachment for more MORPC Membership News

**Transportation & Infrastructure Development**
Thea Walsh - twalsh@morpc.org

**2020-2050 Metropolitan Transportation Plan (MTP)**
MORPC continued to collect candidate projects from the public via the interactive web map, email, phone calls, and mail. The candidate project collection period ended August 30, 2019. Organization and preparation of evaluation data and database began along with reviewing local financial information for use in the development of the financial forecast.

**5310 Designated Recipient**
All 5310 reimbursement contracts have been executed between MORPC and area subrecipients for purchasing transportation and other capital.

Team Members attended the Age Friendly Mobility Project Launch with Age-Friendly Columbus, Franklin County, The Ohio State University, Greater Columbus Network of Villages, and COTA. The Mobility Project includes research, transportation service, pilots, and evaluations of providing transportation to older adults and people with disabilities. MORPC has participated in planning and funding subrecipients to purchase transportation and other capital items to provide transportation.
Transit
MORPC and COTA met to coordinate MORPC’s Metropolitan Transportation Plan, MORPC’s Transportation Improvement Program, and COTA’s Short- and Long-Range Transit Plans.

MORPC attended the Union County Transportation Coalition meeting, hosted by the Union County Health Department. SHARE, a mobility company, presented on their services and the group explored transportation options for all users, specifically related to workforce access and modal options for disadvantaged populations. MORPC will be jointly presenting with Enterprise at the next meeting in September. MORPC also provided ODOT Office of Transit contacts for future meeting invitations, planning assistance and funding information.

Gohio
Team Members helped conduct a Focused Effort for the 3rd Street project. The effort began with online surveys that focused on level of comfort for the existing bike lane and the Mobility Innovation Test that was championed by COTA and the City of Columbus for two weeks in July. The process continued with two focus groups during the week of August 19. A final report is being developed to serve as a reference document for future multimodal facility and tactical urbanism planning in Central Ohio.

Rapid Speed Transportation Initiative (RSTI)
Environmental Impact Study (EIS Study): MORPC is working with the consultant on scheduling public information meetings in Lima, Marysville, Dublin and Columbus, for mid to late October.

Hyperloop Feasibility Study: MORPC is reviewing a draft of the route alternatives section, along with a draft on the regulatory framework strategy and next steps. The consultant is working with MORPC’s October RSTI public meetings, as the feasibility study will be part of the public involvement component.

Central Ohio Rural Planning Organization (CORPO)
Team Members are writing a proposal to ODOT that would request funds to conduct additional planning activities in the CORPO planning area. These activities include studying access from Knox and Morrow Counties to freeways, a rural technical assistance program and a broadband speed study.

All seven of CORPO’s rural member counties have scheduled subcommittee meetings which will incorporate ODOT’s rural consultation meeting. CORPO is currently working with ODOT on meeting materials, maps and agendas.

CORPO staff continues to participate as members of the Technical Advisory Committee for the US-33 Corridor Plan that ODOT is developing with a consultant. CORPO provided data for the study and acts as a liaison between Union County and the plan developers when needed.

Natural Resources Assistance Council (NRAC)
Application materials for the Clean Ohio Conservation Fund will be available on MORPC’s website in September. Information will be sent to communities in OPWC.

District 3 (Franklin County) is announcing the availability of $3.8 million for green space acquisition and stream corridor restoration. Preliminary screening applications are due December 13, 2019, and final applications are due March 20, 2020. Awards will be announced April 23, 2020.
INFRA
Award announcements have been issued for the FY2019 cycle; no local projects received funding. Within MORPC’s MPO territory, ODOT submitted an application for Phase 4 of the Columbus Crossroads/Innerbelt project and the Village of Sunbury submitted an application for the I-71 and US 36/SR 37/Sunbury Parkway interchange. Within the Central Ohio Rural Planning Organization (CORPO) territory, CORPO and the Village of West Jefferson submitted an application for the I-70 and SR 29 interchange in Madison County.

ODOT, the City of Columbus, and MORPC held a debrief with the U.S. DOT and learned that the Columbus Crossroads application fared well in the technical review but was ultimately not funded due to strong demand. These partners will be meeting to discuss next steps. Another INFRA cycle is expected to open this winter.

Competitive Advantage Projects (CAP)
In order to advance identified CAP priorities, plans are being finalized for an Innovative Funding Strategies Development Activity to be completed this calendar year. After a competitive selection process, MORPC has selected Ice Miller to lead the activity and partner with sponsors to development funding strategies. A particular focus will be directed at new, innovative, and/or private funding solutions, including revenue generation potential.

Data & Mapping
Aaron Schill, Director – aschill@morpc.org

Regional Data Advisory Committee (RDAC)
During the month of August, all four new RDAC working groups met and were asked to define a scope of work, meeting schedule, and timeframe for the project on which they are working.

Smart Region Task Force
MORPC presented an overview of the Smart Region Task Force and the Smart Streets Policy at the DriveOhio Alliance meeting.

The Smart Region Task Force will meet September 13 to discuss the status of the remaining two deliverables, the Smart Region Playbook and the Smart Region Resource Guide. The Task Force will also hear a presentation from MurphyEpson on Ohio Framework for CV/AV Infrastructure.

Data and Mapping Outreach and Collaboration
MORPC continues to serve numerous roles on the Columbus/Franklin County Complete Count Committee. The Local Government Subcommittee of the Complete Count Committee gave an overview of the Complete Count Committee goals and resources, members discussed outreach methods to educate the public about the Census and strategies to help local officials share consistent Census messages. The goal of the Subcommittee is to devise a list of helpful resources to create a single set of talking points or FAQs.

MORPC joined the Ohio Census Advocacy Coalition (OCAC). The OCAC is a nonpartisan network of statewide nonprofit organizations, advocacy organizations, and trusted faith, business, education, and community leaders working to prepare for and conduct outreach to encourage full participation in the 2020 Census, with a focus on historically undercounted or “hard-to-count” populations. MORPC serves on the SmartColumbus Operating System Charter Team, developing a sustainability plan for the operating system following completion of the Smart Columbus grants.
Following the kickoff of the Regional Housing Strategy in early August, the Data & Mapping Team has taken a lead role in refining the project research questions, performing a landscape scan of existing plans and studies, and beginning data collection.

**Planning & Sustainability**
Kerstin Carr, Director - kcarr@morpc.org

**Active Transportation Planning**
Fall 2019 Volunteer Bicyclist and Pedestrian Counts are scheduled for Wednesday, September 11 from 7-9 a.m. and 11 a.m.-1 p.m. Locations and information about how to sign up for those counts has been shared with the Active Transportation Working Group and others to get volunteers.

**insight2050**
The Corridor Concepts communications committee met this month to provide input on a final draft of outreach and presentation materials. Their feedback will be incorporated into a final product to be distributed to MORPC members and project partners.

The registration window for the Fall 2019 academy opened August 26. Applications will be accepted through September 23 and the first class is Friday, September 27. Registration for the academy includes the October 11 Summit on Sustainability. This semester will again be held in partnership with The Ohio State University Knowlton School Alumni Society and classes will focus on housing. To register, please visit getinsight2050.org.

The Technical Assistance Program (TAP) application is now open for eligible MORPC members to apply. Team Members have finished in-person marketing efforts at external events and MORPC committee meetings; these efforts included a webinar to share information about the pre-determined project types, anticipated services and deliverables, and the application process. An evaluation committee comprised of representatives from COTA, ODOT, ODOT 5, ODOT 6, OSU, and ODH will assist with proposal review once the application window closes in late September.

**Transportation Safety**
Team members attended the 3rd quarter meeting of the Ohio Strategic Highway Safety Plan steering committee at ODOT. There have been 634 fatalities on Ohio roadways as of August 13. The state is observing trends in drivers’ licensure. The biggest change: older adults 65+ are holding onto their license longer. This is in line with demographic trends, as the statewide population of older adults is on the rise. The rates of young people obtaining their licenses are declining.

**Regional Housing Strategy**
The Regional Housing Strategy (RHS) kicked off with meetings of the funders and advisory board on August 8. Participants were introduced to the project scope and timeline as well as the consultant team. Workshop activities provided input to guide the direction of the study regarding data/information, perspectives to consider throughout the project, and potential end-users of the information.

**Greenways & Water Resources Program**
Team Members submitted the draft plan for Region 2, comprised of Madison and Pickaway Counties, to Ohio EPA in early August. Regions 3 and 4, comprising Fairfield, Licking, and Franklin Counties, will be completed by the end of September.
Congratulations to Franklin County, which became the latest Sustainable2050 member to certify its Tier Status. The County, inclusive of the Board of Commissioners, Engineer’s Office, and Soil & Water Conservation District, earned the Platinum designation.

Energy & Air Quality
On August 21, the U.S. Environmental Protection Agency (EPA) and Ohio EPA announced that the Columbus area is the first non-attainment area in the nation to meet the most recent federal air quality standard for ozone. Recent air monitoring data show the Columbus area now meets the National Ambient Air Quality Standard (NAAQS) for ground-level ozone in addition to all other federal air quality standards set to protect public health. This announcement is a testament to all the great work accomplished over the years by MORPC and our regional partners to improve air quality.

MORPC Team Members implemented a new email system using MailChimp for Air Quality Alerts (AQA) that makes the sign-up process more convenient. There are currently 468 confirmed signups for Air Quality Alerts for 2019, passing the 2018 total of 464. Team Members worked with Franklin County Emergency Management to develop a partnership to issue Air Quality Alerts through Franklin County’s Everbridge system to increase the reach of AQA’s.

MORPC is asking the Energy & Air Quality (E&AQ) Working Group members to provide input on concepts for ad-hoc subcommittees to achieve the goals of the 2019 E&AQ Working Group action plan. Subcommittees will be finalized in September and implemented in 2020.

A total of 19 communities are enrolled or have an interest in the Benchmarking Program (32% of allowed participants). Madison Township is the newest member. Coordination with AEP Ohio and Columbia Gas of Ohio’s Benchmarking programs continues in an effort to increase the impact of all programs. Team Members proposed a new efficiency program for Columbia Gas of Ohio that would link local government leaders with efficiency opportunities in their communities.

Team Members are working with Smart Columbus to coordinate activities of their Acceleration Program with LGEP. MORPC developed a Clean Energy Acceleration Program, which provides a framework approach to achieve 100% renewable electricity by 2025 and 40% energy reductions by 2050. Through this approach we can better align our existing programs and services for local governments and increase the overall impact of the programs.

MORPC is preparing a new scope of work for HNTB to update greenhouse gas data for Smart Columbus and develop the City of Columbus Greenhouse Gas Inventory to support the City’s obligation through the Global Covenant of Mayors.

Sustainability Advisory Committee (SAC)
The SAC will meet September 18 and will include updates on the Summit on Sustainability, Sustainable2050, and relevant policy items.

The Sustainability Dashboard Working Group is a joint effort between the SAC and RDAC. The meeting was important for level setting, and included background information on the Regional Sustainability Agenda, the 2018 report card, and the direction we are moving in with the development of a dynamically-fed online dashboard. MORPC is seeking input on the use cases and the objectives that are more difficult to measure. The group was sent a survey to provide input on how they envision using this tool and how they would like to prioritize use cases.
Emerging Leaders Program
MORPC’s Emerging Leaders Program wrapped up its core curriculum for the year. Ten of the agency’s leaders volunteered to participate in the program and are now working on an action learning project related to diversity & inclusion efforts focusing on youth engagement.

Space Planning Update
M+A Architects are working on the space update program, creative brief, and initial drawings for the MORPC space update. MORPC Team Members were surveyed to provide input for the architects.

MORPC Annual Salary & Fringe Benefit Survey
The Human Resources Team is wrapping up the annual salary survey and will release it in early September. Thanks to the 30 MORPC members that participated.

Human Resources
The Human Resources Team is finalizing the new annual evaluation process to be used this autumn for annual performance evaluations.

MORPC will now utilize the Franklin County mailroom for all outgoing postage needs. By ending the lease with Pitney Bowes this change will save MORPC several thousand dollars per year.

Information Technology Updates
The Information Technology Services Team completed the following projects and tasks:
  • Moved the back-up server to a new data center on August 8.
  • As part of the cyber security training program, ITS began testing users by sending phish test emails monthly. A report is assessed for further actions after each test.
  • Completed the new laptop deployment for 2019. All PC/laptops in MORPC are now four years or younger and 72% are laptops.
  • ITS is working with contractor Arbela to program the new Microsoft CRM. Plans are to conduct a user acceptance test the week of September 2 and go-live sometime in September.

Personnel Updates
The following new Team Members recently started at MORPC:
  • Operation’s Human Resources Officer, contracted through Franklin County, Caitlin Graessle began July 16
  • Planning & Sustainability’s Active Transportation and Safety Intern Andrew Love began August 19
  • Data & Mapping Associate GIS Specialist Jared Schnekel began August 26

MORPC is currently interviewing or in the process of extending offers of employment for the following positions:
  • Data & Mapping Senior GIS Specialist
  • Transportation & Infrastructure Development Intern

MORPC is currently recruiting for two (2) open positions:
• Data Analyst
• Residential Technician

The requirements for the posted positions are available for review on the website at http://www.morpc.org/careers/.

RFP/RFQ Postings
The following RFP’s/RFQ’s were posted:

• RFQ for HVAC Contractor for Residential Energy Program
• RFQ for Insulation Contractor for Residential Energy Program

The full RFP/RFQs are available at http://www.morpc.org/rfps-rfqs/

Attachment

News Releases and Social Media
The following press releases were distributed to the media:

• The City of Bellefontaine joins the Mid-Ohio Regional Planning Commission
• Fairfield County joins the Mid-Ohio Regional Planning Commission
• MORPC Elevates Local Government Membership Services with Promotion of Eileen Leuby
• COTA Projects Amend MORPC 2018-2021 Transportation Improvement Program
• Mid-Ohio Regional Planning Commission, Franklin County, City of Columbus and surrounding communities to kick-off Regional Housing Study
• Franklin County TID Receives $200,000 Grant from ODOT
• Cancellation of August meeting of the Board of Trustees of the Franklin County Transportation Improvement District, Franklin County, Ohio
• Groundbreaking Hyperloop POD hits the Road Across America
• CEO of Virgin Hyperloop One makes Columbus First Stop on its National Roadshow
• Hyperloop XP-1 Pod to Make a Stop at The Ohio Statehouse
• Hyperloop Vehicle on tour to Central Ohio Communities - Stop scheduled in Marysville
• Hyperloop Pod Comes to Lima
• MORPC Recognizes Franklin County’s Efforts on Sustainability
• 2020-2050 MTP Facebook posts and articles in eSource

MORPC in the News
MORPC was mentioned in the news approximately 179 times. Of those mentions, Virgin Hyperloop One National Roadshow generated 25 percent of the mentions in the media which generated a reach of over 4.9 million. The Regional Housing Strategy was also mentioned which generated a reach of over 868,000. Other notable mentions were the C-pass transit program and the U.S. EPA announcing the Columbus region the first non-attainment area in the nation to meet air quality standards.
Memorandum

TO: Mid-Ohio Regional Planning Commission Executive Committee Officers and Board Members

FROM: Kerstin Carr, Director Planning & Sustainability

DATE: September 6, 2019

SUBJECT: Proposed Resolution 15-19: “Recognizing September 2019 as Safe Driving Awareness Month”

This memo supports the resolution for MORPC to recognize September 2019 as Safe Driving Awareness Month. Safety is among the top priorities of MORPC as evident through the work of its Safety Program and the most recent development of the Central Ohio Roadway Safety Plan. MORPC’s roadway safety plans, programs, and initiatives are an important part of these efforts.

As embodied in the Metropolitan Transportation Plan, Regional Sustainability Agenda, and Regional Complete Streets Policy, MORPC maintains goals to reduce the number of fatalities and serious injuries through innovative design and infrastructure. While Central Ohio is seeing some reduction in serious injuries, it is seeing an overall increase in crashes and fatalities.

As a result, MORPC has been encouraging member governments to raise roadway safety awareness. This effort includes the publication of the annual State of Safety report and regional high crash locations list as well as partnering with the Ohio Department of Transportation and local jurisdictions to implement Regional Safety Audits, Systemic Safety Initiatives, and Safety Awareness Campaigns.

MORPC is committed to support state and local government efforts in raising public awareness about the importance of safe driving.

Attachment: Resolution 15-19
“Recognizing September 2019 as Safe Driving Awareness Month”

WHEREAS, Central Ohio experiences on average 39,358 crashes per year, resulting in an average of 14,387 injuries and 106 fatalities per year; and

WHEREAS, research shows that crashes are often preventable through safer driving behavior and improved roadway design; and

WHEREAS, the Mid-Ohio Regional Planning Commission (MORPC) recognizes the need for safer streets, increased safety education, and stronger legislation to protect all roadway users, including pedestrians and cyclists; and

WHEREAS, MORPC is consistently working on initiatives to increase roadway safety; and

WHEREAS, MORPC is committed to be an active partner with local/state agencies and stakeholders to help implement the Central Ohio Transportation Safety Plan; and

WHEREAS, September was designated as Safe Driving Awareness Month in 2014 by Senate Bill 294 to honor Maria Tiberi and other victims of motor vehicle crashes; now therefore

BE IT RESOLVED BY THE MID-OHIO REGIONAL PLANNING COMMISSION:

Section 1. That the Commission recognizes September 2019 as Safe Driving Awareness Month and urges all residents to follow the rules of the road while driving.

Section 2. That the executive director is authorized to take such other action and execute and deliver such other documents as, acting with the advice of legal counsel, he shall deem necessary and appropriate to carry out the intent of this resolution.

Section 3. That this Commission finds and determines that all formal deliberations and actions of this Commission concerning and relating to the adoption of this resolution were taken in open meetings of this Commission.

Rory McGuiness, Chair
MID-OHIO REGIONAL PLANNING COMMISSION

Effective date: September 12, 2019
Submitted by: Kerstin Carr, Director, Planning & Sustainability
Prepared by: Kerstin Carr, Director, Planning & Sustainability

Meeting Called to Order
Chair Rory McGuiness called the Transportation Policy Committee Meeting to order at 2:49 p.m.

Metropolitan Planning Organization Report
- Transportation & Infrastructure Development – Nick Gill, MORPC Transportation & Infrastructure Development Assistant Director
  Nick Gill reported there was a lot of hyperloop activity in Central Ohio over the last week. Central Ohio did not receive any INFRA grants. COTA, in partnership with the City of New Albany, received an FTA grant for electric buses.

  The Franklin County Transportation Improvement District received a $200,000 grant for Alum Creek and Moore Road from ODOT.

  Eight TRAC projects were submitted for our region. Statewide 27 projects were submitted. The Public Comment period ends tomorrow. Project prioritization will be presented next month.

Transportation Policy Committee Consent Agenda
Catherine Girves made a motion to approve the Transportation Policy Committee Consent Agenda, second by Bonnie Michael; motion passed.

Chair McGuiness announced the Paving the Way presentation originally scheduled for this meeting was moved to the September meeting.

2020-2050 Metropolitan Transportation Plan (MTP) Update – Nick Gill, MORPC Transportation & Infrastructure Assistant Director

- 2020-2050 MTP Candidate Projects
  Nick Gill presented the Candidate Project Collection Webmap. The interactive webmap has received 246 comments and 112 project suggestions to date. The webmap is open through August 30. Next steps include developing strategies, creating a draft list of strategies and projects, presenting the draft MTP to community groups, and adopting the MTP in May 2020. MORPC Transportation Planning Manager Maria Schaper is the MORPC Team Lead for the project.

- 2016-2040 MTP Report Card
  Nick Gill presented the 2019 MTP Report Card. The report card for the 2016-2040 MTP measures how we are doing with 29 performance measures and includes statistics on project implementation. This is the third report card for this plan. Copies of the 2019 Report Card were available.

The Transportation Policy Committee Meeting adjourned at 2:59 p.m.

Erik J. Janas, Secretary
Mid-Ohio Regional Planning Commission
Memorandum

TO: Transportation Policy Committee

FROM: Nick Gill, Assistant Director
Transportation Infrastructure and Development

DATE: September 6, 2019

Proposed Resolution T-13-19 will add or modify seven projects on the SFY 2018-2021 Transportation Improvement Program (TIP) with commitments totaling over $80 million. These changes are necessary to enable these projects to advance and to maintain fiscal constraint. In October, the Ohio Department of Transportation (ODOT) will ask the Federal Highway Administration (FHWA) and the FTA to amend the Statewide TIP to include these changes.

Attachment 1 to the resolution provides a description of the funding and scope of each project, including a description of the bicycle and pedestrian components. Attachment 2 maps those projects with a physical location. Three of the projects have commitments of MORPC-attributable funds.

An explanation of the proposed changes to the TIP follows.

**COTA** has requested the following changes to the TIP:
- Addition of the 2020 electric bus purchase with funds from the Low or No Emission Vehicle Program (PID 109533).
- Addition of $10 million of 5307 funds and reduction of just under $9.5 million of local transit funds, for the rehabilitation of the Fields Avenue facility (PID 95037).
- Reduction of just under $2 million of 5307 funds for the 2020 CNG bus purchase (PID 99508).

The City of Delaware has requested the addition of the ROW phase of the “Point” project at US-36 and SR-37 from west of Foley Street and east of East Street to SR-521 (PID 103626).

As specified in T-9-19, which modified MORPC-attributable funding commitments, $7 million of MORPC STBG funding is being removed from Dublin’s Tuttle Crossing Boulevard from Wilcox Road to Avery Road (PID 99815), removing the project from the TIP.

**ODOT District 5** requested the addition of preliminary engineering for an interchange in the vicinity of Pickerington Road on US-33 (PID 77555).
ODOT District 6 requested the addition of the ROW phase for the I-70/I-71 Innerbelt, Phase 4B project (PID 96053).

RESOLUTION T-13-19

“Amending the State Fiscal Year (SFY) 2018-2021 Transportation Improvement Program”

WHEREAS, the Transportation Policy Committee of the Mid-Ohio Regional Planning Commission (MORPC) adopted the SFY 2018-2021 Transportation Improvement Program (TIP) by Resolution T-5-17; and

WHEREAS, the Central Ohio Transit Authority (COTA) has requested the modification of two projects and the addition of one project to the 2018-2021 TIP as shown in Attachment 1; and

WHEREAS, the City of Delaware has requested the modification of one project on the 2018-2021 TIP as shown in Attachment 1; and

WHEREAS, T-9-19 removed MORPC STBG funding from Dublin’s Tuttle Crossing Boulevard project (PID 99815), it will be removed from the 2018-2021 TIP; and

WHEREAS, the Ohio Department of Transportation (ODOT) has requested the modification of one project on the 2018-2021 TIP as shown in Attachment 1; and

WHEREAS, the projects are consistent with the transportation policies, plans, and programs, including the most recent Metropolitan Transportation Plan adopted by the Transportation Policy Committee; and

WHEREAS, the Community Advisory Committee and the Transportation Advisory Committee at their meetings on September 4, 2019 recommended approval of this resolution to the Transportation Policy Committee; now therefore

BE IT RESOLVED BY THE TRANSPORTATION POLICY COMMITTEE OF THE MID-OHIO REGIONAL PLANNING COMMISSION:

Section 1. That the MORPC SFY 2018-2021 TIP be amended to include the project information as shown in Attachment 1, including the removal MORPC STBG funding from PID 99815.

Section 2. That it affirms that the fiscal balance of the SFY 2018-2021 TIP is maintained.

Section 3. That the determination of conformity between the TIP and the State Implementation Plan (SIP) is hereby reaffirmed, as the projects are exempt from conformity requirements or have been included in the most recent air quality conformity approval.

Section 4. That it affirms that the amendment was developed in compliance with the transportation performance measures as described in Section 6 of the SFY 2018-2021 TIP as modified.

Section 5. That this resolution will be transmitted to ODOT and all sponsoring agencies in Attachment 1 for appropriate action.
Section 6. That the Transportation Policy Committee finds and determines that all formal deliberations and actions of this committee concerning and relating to the adoption of this resolution were taken in open meetings of this committee.

Rory McGuinness, Chair
MID-OHIO REGIONAL PLANNING COMMISSION

Memorandum

TO: Mid-Ohio Regional Planning Commission
   Officers and Board Members
   Transportation Policy Committee
   Transportation Advisory Committee
   Community Advisory Committee

FROM: Thea J. Walsh, Director of Transportation Systems & Funding

DATE: September 6, 2019

SUBJECT: Proposed Resolution T-14-19: "ACCEPTING THE PWP COMPLETION REPORT FOR STATE FISCAL YEAR 2019"

Annually, MORPC is required to submit a report to the Ohio Department of Transportation (ODOT) describing the work completed with federal planning funds provided to continue the metropolitan transportation planning process, as defined by the FAST Act.

For State Fiscal Year (SFY) 2019, the use of these funds was outlined in the SFY 2019 Planning Work Program (PWP) adopted by Resolution T-7-18 and amended by resolutions T-16-18 and T-1-19. The PWP serves as the scope of work, the schedule, and the budget for the federally funded planning activities.

The PWP included such activities as maintaining the TIP, continued delivery of projects using MORPC-attributable funds, follow up of the 2016-2040 Metropolitan Transportation Plan (MTP), continued development of the 2020-2050 MTP, assistance on freeway and arterial studies, support for safety and operations and management of the transportation system, and support for transit, bike and pedestrian planning. The SFY 2019 PWP also included the continuation of ridesharing/demand reduction and air quality awareness activities, including the commuter challenge to reduce single-occupancy vehicle use. As part of this scope of work, MORPC also maintained the Public Involvement Plan, completed the selection process for FTA Section 5310 funding, continued the Regional Data Advisory Committee, continued outreach and developed resources related to insight2050, including completing the insight2050 Corridor Concepts study, continued the Rapid Speed Transportation Initiative and other projects and activities that have been presented to you over the state fiscal year.

A summary of the PWP activities is included as an attachment to the resolution. A full report is available upon request. Resolution T-14-19 approves the completion report and requires that it is forwarded to ODOT.

Attachment: Resolution T-14-19
RESOLUTION T-14-19

“ACCEPTING THE PWP COMPLETION REPORT FOR STATE FISCAL YEAR 2019”

WHEREAS, it is the role of the metropolitan planning organization (MPO) to help encourage, facilitate and provide a forum for regional, cooperative transportation planning and decision-making; and

WHEREAS, the Planning Work Program (PWP) is the document that outlines the work of the MPO, the use of regional transportation planning funds and the regional planning activities that will be done each state fiscal year; and

WHEREAS, the Policy Committee adopted the SFY 2019 Planning Work Program (PWP) by Resolution T-7-18 and amended it by resolutions T-16-18 and T-1-19; and

WHEREAS, the activities described in the PWP have been completed or carried over into SFY 2020 and reported in the PWP Completion Report, a summary of which is attached; and

WHEREAS, major products of the PWP have been presented previously; and

WHEREAS, these products include the core work with the Metropolitan Transportation Plan (MTP), the Transportation Improvement Program (TIP) and the continued delivery of projects using MORPC-attributable funds, as well as the freeway and arterial studies, local traffic forecasting and continuing updates to the travel demand model, maintaining data to support modeling and planning needs, support for transit planning and ODOT planning studies, ITS, ridesharing/demand reduction, bike and pedestrian planning, safety planning and air quality awareness; and

WHEREAS, ODOT requires approval of this PWP Completion Report by the Transportation Policy Committee as the Metropolitan Planning Organization; and

WHEREAS, the Community Advisory Committee at its September 4, 2019 meeting, and the Transportation Advisory Committee at its September 4, 2019 meeting recommended approval to the Transportation Policy Committee; now therefore

BE IT RESOLVED BY THE TRANSPORTATION POLICY COMMITTEE OF THE MID-OHIO REGIONAL PLANNING COMMISSION:

Section 1. That the Transportation Policy Committee approves the PWP Completion Report for SFY 2019.

Section 2. That this resolution and the PWP Completion Report be forwarded to the Ohio Department of Transportation for appropriate action.

Section 3. That the Transportation Policy Committee finds and determines that all formal deliberations and actions of the committee concerning and relating to the adoption of this resolution were taken in open meetings of this committee.

Rory McGuiness, Chair
MID-OHIO REGIONAL PLANNING COMMISSION

MORPC continued to assist local governments with Complete Streets projects and Complete Streets policy development and reviewed transportation projects for Complete Streets compliance. MORPC also assisted local governments with their active transportation planning and projects. Team members worked with MetroParks, Columbus, and other partners to conduct its annual trail counts as well as the bi-annual non-motorized traffic counts along selected street segments. Central Ohio Greenways (COG) Board accomplished many items set out in its 5-year strategic plan, including obtaining funding for the Trails Impact Study and commencing development of the Trails Prioritization project.

Meetings of the Central Ohio ITS committee were held in July, October, January and April. Project updates were provided at each meeting. Smart Columbus project updates were also provided. MORPC continued to participate in several Columbus committees and work groups for the Smart Columbus projects as well as the US 33 Smart Mobility Corridor. Working with FHWA an ITS workshop was held in conjunction with the January ITS committee meeting. The workshop was primarily to introduce the new RAD-IT platform for the ITS architecture.

MORPC continued to engage in the OARC freight transportation working group over FY 2019. MORPC organized several conference calls/meetings for the OARC Freight Working Group. MORPC attended events organized by the Columbus Region Logistics Council, the Mid-Ohio Development Exchange (MODE), and other Chamber of Commerce and Columbus2020 events related to freight and logistics in Central Ohio.

MORPC continues to be the OARC representative on statewide and regional safety committees, such as the Transportation Records Coordination Committee, the Ohio Strategic Highway Safety Plan Steering Committee, and Safe Communities, including the Franklin County Traffic Fatality Review Board. The team was actively involved in local safety initiatives and assisted other departments and agencies with project evaluation based on crash data. During September Safety Month, MORPC released several regional crash data analysis products, including the Top 100 High Crash Intersections list, the Top 5 High Crash Intersections by Jurisdictions list, and the Top Pedestrian and Bicycle High Crash Clusters lists. Also see 66555-1000.
Transit and Human Services Planning

MORPC facilitated COTA/DATABus/MORPC Coordination quarterly meetings. These meetings covered communications, public information, mobility management, service and capital planning with each agency. MORPC updated the Delaware and Franklin counties’ coordinated plans to be combining them into one MPO coordinated plan.

In cooperation with COTA and DATABus worked on the apportionment of FFY 2019 Section 5307, 5340 and 5339 funding within the Columbus UZA including participation by the Licking County Transit Board for the upcoming FFY 2019 apportionment Split Letter.

MORPC participated in discussions with local employers and governments that have limited access to transit. MORPC worked with COTA to implement new First/Last mile service to launch in Grove City in the summer of 2019. MORPC assisted COTA on a Mainstream on Demand pilot.

The Transit Asset Management Plan (TAMP) was completed and incorporated into the TIP. MORPC is working with COTA and Delaware County Transit on their safety management plan and incorporating them into the MPO planning processes.

Transportation Improvement Program (TIP) and Implementation

Three amendments to the FY 2018-2021 TIP requested by ODOT and local agencies were prepared, processed and approved. Federally funded projects were coordinated with local agencies, ODOT and the Ohio Public Works Commission. ODOT District staff scheduled quarterly meetings with local sponsoring agencies, their consultants, and MORPC staff. Monthly reports on the status of the MORPC-attributable projects were provided to the TAC. MORPC, COTA, DATABus and ODOT Transit met quarterly to stay on top of transit-specific TIP issues.

The process to solicit and select projects to use MORPC-attributable federal funding was completed. MORPC received 35 final applications for new funding commitments that totaling over $200 million. MORPC staff and the Attributable Funds Committee (AFC) completed a review and evaluation of the projects from August through November 2018. The AFC approved a draft of funding recommendations for attributable funds available for SFYs 2020-2025. The draft recommendations were available for public review and comment from December 18, 2018, until January 18, 2019. MORPC reaffirmed and updated previous commitments of over $168 million and made $22 million in new commitments. It did not fulfill requests for another $180 million.

In June MORPC approved and “out of cycle” request and committed to $10 million to a project while removed a $7 million commitment to another project and modifying the timing of the funding for two other projects.

For SFY 2019, approximately $50 million of attributable funds were encumbered for use on transportation projects and programs in the region.

ODOT announced in May 2019 that TRAC would be taking applications for funding in 2019. Eight projects were submitted in the MORPC area. Project fact sheets were prepared and a public comment period begin to solicit comments on the MPO prioritization of the projects. Assistance was provided to ODOT and local agencies in preparing and follow up on applications for INFRA and BUILD. MORPC helped form the Franklin County Transportation Improvements District.

^ Project continues beyond SFY 2019
Manage, Map, Collect, and Share Data

MORPC updates base GIS files and other transportation and planning datasets from state, federal, and local sources on a quarterly, annual, or as needed basis. MORPC maintains an open data site (accessible at www.morpc.org/data) to make GIS and other data files available for download. To make data accessible to nontechnical audiences and those without GIS capabilities, much of MORPC's data is also available for viewing through interactive maps on the open data site.

In FY2019, MORPC continued making improvements to the quality and accessibility of key datasets such as local land use data and building permits from local jurisdictions. This included developing a comprehensive inventory of datasets and sources that are gathered, used, and maintained throughout the agency.

Of primary emphasis in FY2019 was the creation and updating of datasets necessary for the 2020-2050 Metropolitan Transportation Plan (MTP). Building on work in FY2018 to update existing and future land use data, MORPC developed inputs for the regional land use allocation and regional travel demand models. These datasets included existing and projected population and employment forecasts (validated through local jurisdiction review), development attraction/deterrent factors, and forecasts of socio-economic factors that influence commuting patterns.

MORPC’s Regional Data Advisory Committee (RDAC) continues to meet on a quarterly basis, and advises staff and Commission on MORPC’s role as a leader in regional data efforts. In FY2019, the RDAC developed MORPC’s first ever Regional Data Agenda, which was subsequently adopted by Commission. The agenda outlines 5 goals, 21 objectives, and 61 action items for MORPC to work on in order to address the regional and local government data needs that exist in Central Ohio. The RDAC also prioritized four projects that will significantly advance one or more aspects of the agenda. These include:
1. Creation of a Regional Data Users Group
2. Partnership with the Center for Urban and Regional Analysis at Ohio State to develop a sustainability dashboard
3. Survey and toolkit to address local government data policy needs
4. Mapping and development of a strategy for a regional municipal fiber-optic network

MORPC also continues to provide support and guidance to Smart Columbus related to the creation of the Smart Columbus Operating System, and continues to host two data- and mapping-focused user groups. The Central Ohio GIS User Group consists of public sector GIS officials from throughout Central Ohio, while COSMOS consists of IT directors from several Central Ohio jurisdictions.

MORPC continues to monitor and maintain the Franklin County LBRS. Road centerlines, address points, bikeways and sidewalk mapping files are structured so local communities can jointly edit a common GIS file.

In preparation for the 2020 Census, MORPC completed updates to tract and block group boundaries for 10 Central Ohio counties through the 2020 Census Participant Statistical Areas Program (PSAP). MORPC is also chairing the Local Government Subcommittee of the Columbus/Franklin County Complete Count Committee, is a member of the Ohio Census Advocacy Coalition, and is functioning as a conduit for Census outreach and engagement with entities throughout Central Ohio by disseminating information, strategies, and materials.

Data Analytics and Research for Transportation Projects and Programs - FY18

See 60529-2000

\^ Project continues beyond SFY 2019
Data Analytics and Research for Transportation Projects and Programs

Of primary emphasis in FY2019 was the creation and updating of datasets necessary for the 2020-2050 Metropolitan Transportation Plan (MTP). Building on work in FY2018 to update existing and future land use data, MORPC developed inputs for the regional land use allocation and regional travel demand models. These datasets included existing and projected population and employment forecasts (validated through local jurisdiction review), development attraction/deterrent factors, and forecasts of socio-economic factors that influence commuting patterns.

MORPC made significant changes to the processes used to project population, employment, and development for the Metropolitan Transportation Plan. New methods to establish county control total projections were adopted in FY2018. This year, MORPC focused on methods to distribute the control totals to small areas, decompose population and employment forecasts into sub-groups, and more systematically model development potential throughout the region.

For the GOHio Commute program, MORPC performs cluster and hotspot analyses to identify potential mode shift opportunities for employers considering participation in the program.

In addition to preparing data for the 2020-2050 MTP, MORPC also updated analyses for the 2016-2040 MTP report card performance measures.

Transportation Systems Analysis Techniques and Applications

The current regional travel demand model was maintained and applied for various studies. Air quality analysis was conducted for projects requesting CMAQ eligibility. Staff continued using travel time data from INRIX/NPMRDS to produce measures for various studies. The origin-destination (O-D) data available from ODOT’s subscription to Streetlight Insight and produce meaningful measures for several studies. Significant improvements were made to the land use model processes and revised the model scripts to introduce randomness in the outcomes. The new model was used to develop the 2050 household and employment forecast for the 2020-2050 MTP under development.

Staff continued working closely with the consultant, ODOT and other MPOs on the development of the 3C regional travel demand model. Staff had conducted numerous test runs of the 3C model on MORPC’s server and worked diligently with the consultant to refine/improve the 3C model. Staff had worked with ODOT and the consultants to support the Marysville CAV Simulation project by running the 3C models.

Long-Range Multimodal Transportation Planning

Work began on the third report card for the 2016-2040 MTP. It will be released in the summer of 2019.

Many activities were completed toward the 2020-2050 Columbus Area Metropolitan Transportation Plan (MTP). These included updating the regional goals, objectives, measures and targets and project evaluation criteria. Also there has been extensive review and coordination with local stakeholders to update existing and forecasted land use assumptions. All of the above activities included MORPC committee presentations, public involvement periods and MORPC resolutions adopting the various items. MORPC also initiated the MTP candidate project indentification by combing through local, regional and state documents for projects and creating an interactive web map to solicit project suggestions and comments. Four MTP newsletters have been published.

Staff followed and participated in various ODOT planning activities, including progress on the innerbelt projects, I-71 south and I-70 east freeway activities, the I-670 Smart Lane project, and the Union County US 33 study. MORPC continued discussions including regular conference calls with communities along the Columbus to Chicago passenger rail corridor in conjunction with the Rapid Speed Transportation Initiative (RSTI) work elements.

Ten meetings of the Community Advisory Committee (CAC) and Transportation Advisory Committee (TAC) took place. All transportation-related topics included elsewhere in the PWP report were presented. The committees reviewed and passed 17 transportation-related resolutions over the year, which included the approval of revised Title VI and Limited English Proficiency plans.

Printed materials, press releases, and digital content (social media and electronic newsletters) were regularly used to solicit public participation and involvement on transportation-related activities. Topics included were: the development of 2020-2050 Metropolitan Transportation Plan; appendices to the 2018-2021 Transportation Improvement Program; active transportation; safety; sustainable transportation; air quality; the Rickenbacker Area Study, the insight2050 Regional Corridor Analysis (Corridor Concepts); the Competitive Advantage Program (priority projects); and the Rapid Speed Transportation Initiative (hyperloop and passenger rail).

### Regional Transportation Safety Planning (TSP) Process Development Pilot

**MORPC** completed the Central Ohio Safety Plan and Action Plan as well as the Central Ohio Priority Safety Locations List and a high injury network for the region. Both the Central Ohio Safety Plan and the Action Plan were developed by a process which included convening a project steering committee, best practices research, and existing conditions analysis. The Central Ohio Safety Plan and Action Plan were presented to MORPC’s committees in June.

### 5310 Designated Recipient-2018

MORPC administered contracts after execution in TrAMS with subrecipients receiving 5310 funding from FFYs 16, 17 and 18 apportionments to the Columbus, Ohio UZA according to MORPC’s Program Management Plan (PMP). The following FTA Grant Agreements were administered:

- OH-2016-015 (FFYs 2014 and 2015, ODOT PID 100015)
- OH-2017-024-00 (FY 2016, ODOT PID 100016)
- OH-2018-14-00 (FY 2016 & 2017 ODOT PID 100016)

MORPC administered a cycle of FTA Section 5310 funding using FFY 2018 funds. Grant OH-1310-2019-1 (PID 109918) was submitted and executed in TrAMS.

Staff has monitored and participated in efforts to address goals and strategies of the 2018-2021 Coordinated Plan.

| 100% MORPC CMAQ | $780,000 | $780,000 

Gohio Commute continued to promote vanpool and carpool services in addition to other modes such as biking, walking and riding transit. The program sponsors and develops program services based on the needs of the individual commuter, employer, job-ready/training programs, colleges/universities, non-profits and communities throughout the region. MORPC is leveraging relationships with other TDM partners to encourage modal shift, generating more of a streamlined and coordinated message to reduce single-occupancy vehicle trips.

MORPC monitored initiatives in the 2018-2019 Transportation Demand Management Strategic Plan for 2018-2019 with an emphasis on shifting cultural SOV preferences, performance based programing, collaborative champions, and TDM policy integration.

Related to MORPC’s TDM Strategic Plan, MORPC and other Ohio rideshare agencies are using an interactive ridesharing platform that can be used by each rideshare agency in the state. OARC is using RideAmigos to provide rideshare, TDM and air quality platform with consistent brand (Gohio Commute) for ridesharing across the state. Gohio Commute has been in use since May 2017.

MORPC's Air Quality and Gohio Commute prepared for and held two Central Ohio Commuter Challenge campaigns in October of 2018 and June of 2019 in partnership with a newly created Mobility Communication Campaign committee with various public, private and local interests promoting non SOV transportation.

MORPC maintained its daily air quality forecasting program and coordinated digitally focused marketing and public outreach campaigns to educate the public about air quality. The team continued to partner with Gohio on messaging and encouraging residents to change their behaviors through the annual Commuter Challenge and other efforts. MORPC convened bi-monthly Energy and Air Quality Working Group meetings to share best practices and to help organize a workshop for the 2018 MORPC Summit on Sustainability. Staff implemented the Local Government Energy Partnership and with at least 10 local governments enrolled. MORPC also provided technical assistance to its members for projects around EV infrastructure and Green House Gas emissions.

MORPC regularly monitors local planning activities. A current library of new plans is maintained on the website under the Studies and Plans section. MORPC staff regularly participates in planning efforts of local communities.

The CAP initiative is a partnership between MORPC and Columbus 2020, soon to be known as One Columbus, to advance strategic infrastructure projects across Central Ohio by developing a vetted list of regional infrastructure project priorities. During the past fiscal year, MORPC completed the second round of the CAP process, working with 10 counties to identify the top infrastructure priorities of each county. Project profiles were created to summarize the 43 projects, which were mapped and shared with the public and legislative members. A RFP process began for the CAP Innovative Funding Strategies Development Activity. This activity is meant to help advance CAP projects by developing new, innovative, and/or private funding strategies for project development. The activity will be implemented in FY2020.

The Franklin County Transportation Improvements District (TID), a potential tool for advancing transportation projects, was launched.

COTA makes service changes three times a year - the first Monday of every January, May and September. Public information, review and comment take place before each service change.

The 2018-2021 Transportation Improvement Program was maintained as needed, including public involvement requirements for FTA Section 5307. COTA submitted grant requests to FTA.

MORPC, COTA, GREAT and New Albany SmartRide continue to work together to promote, track ridership and adjust routes for the first and last mile shuttle. MORPC joined COTA in conversations with employers and local governments working on Mobility Plans. COTA worked with Dublin and Share for workforce development transportation and Grove City on an on demand microtransit first mile last mile service pilot for connections to jobs and health care. COTA launched a Mainstream on Demand Pilot to provide non-ADA trips to eligible Mainstream paratransit riders.

Continued to partner with COTA and the Capital Crossroads Special Improvement District (SID) to maintain the member management system, for the Downtown C-pass pilot.

COTA worked with MORPC to develop their Transit Asset Management Plan.

DATABus continues to evolve from the 2010 Columbus UZA boundary change. Topics included the FTA funding transition from rural Section 5311 to urban Section 5307, state funding changes and local match needs for capital and operating and other FTA funding sources.

The 2018-2021 Transportation Improvement Program was amended as needed, including public involvement requirements for FTA Section 5307.

DATABus, working closely with ODOT Office of Transit and COTA, completed an MOU with MORPC, COTA, DATABus and ODOT concerning performance based planning data collection and analysis, target setting, and reporting for the TAM Plan.

Memorandum

TO: Mid-Ohio Regional Planning Commission
Officers and Board Members
Transportation Policy Committee
Transportation Advisory Committee
Community Advisory Committee

FROM: Thea Walsh, AICP
Transportation Systems and Funding

DATE: September 6, 2019

SUBJECT: Resolution T-15-19: “Establishing Priorities for Central Ohio Candidate Projects Submitted in 2019 for TRAC Funding”

As reported to you previously, eight projects were submitted to the Transportation Review Advisory Council (TRAC) for the 2019 funding cycle. TRAC is responsible for committing development and construction funding toward projects that meet the criteria of the Major New Capacity Program (generally projects that cost over $12 million, and increase roadway capacity and/or reduce congestion). Information sheets (attached) were prepared and posted to our website over the summer with details on the projects.

One of the applications, the I-71/Big Walnut Road new interchange, is requesting only that this project continue to be recognized as a TRAC project on Tier II and does not request any funds at this time. Because no funds are being requested, the I-71/Big Walnut Road interchange application was excluded from the project prioritization, with the understanding that MORPC supports this project continuing the study and project development activities currently underway. The other seven applications are outlined later in the document.

Resolution T-15-19 establishes MORPC’s priorities for the 2019 TRAC requests. MORPC accepted comments on the projects from the public, and staff completed an evaluation of the projects. This memo provides a summary of how the projects were evaluated and concludes with a recommendation on project prioritization. The priorities will be presented to TRAC at their September 11 public hearing, and upon adoption of Resolution T-15-19, submitted in writing by September 16.
Project Evaluation Summary

MORPC staff evaluated the seven TRAC projects requesting funding based on the 2020-2050 Metropolitan Transportation Plan (MTP) goals and objectives. Key elements of the MTP evaluation criteria were used for the evaluation.

For the projects being ranked, the analysis results by goal are:

**Adopted Goal: Position Central Ohio to attract and retain economic opportunity to prosper as a region and compete globally.** The criteria for this goal focused on congestion relief and the total number of jobs as well as non-retail jobs within one mile of the facility both today and projected in 2050. The Far East Freeway projects topped this goal due to congestion relief and jobs in the project area. The I-71/Stringtown Road project followed with high jobs in the area, then came the Union County 33/SR 161/Post Road interchange with high future jobs. Then were the Delaware Point and US 33 at Pickerington/Allen projects with congestion relief but few jobs in the vicinity.

**Adopted Goal: Protect natural resources and mitigate infrastructure vulnerabilities to maintain a healthy ecosystem and community.** The criteria for this goal considered reductions in emissions (VOC and NOx). While all projects showed a relatively negligible difference in emissions reduction, the Far East Freeway projects scored slightly better than the other six projects.

**Adopted Goal: Reduce per capita energy consumption and promote alternative fuel resources to increase affordability and resilience of regional energy supplies.** The criteria for this goal considered reduction in regional vehicle-miles traveled. The Far East Freeway projects ranked highest under this goal followed by the Union County US 33/SR 161/Post Road interchange and the Delaware Point projects. The other three then came in with similar results below the US 33/SR 161/Post Road and Delaware Point projects.

**Adopted Goal: Increase regional collaboration and employ innovative transportation solutions to maximize the return on public expenditures.** The criteria for this goal included the number of communities being served by the project, consideration for collaboration with regard to the funding the project and whether any phase of the project was already constructed or under construction. The Union County US 33/SR 161/Post Road interchange performed slightly better than the rest because of the number of jurisdictions served and the variety of funding sources involved; the project also has the highest amount of new development within one mile of the projects. The others were all very close as each had advantages in some criteria areas, but none had advantages in all areas.

**Adopted Goal: Use public investments to benefit the health, safety, and welfare of people.** The criteria for this goal considered the safety/crash ranking analysis, pavement and bridge condition, and Environmental Justice (EJ) populations served. The Far East Freeway projects rose above the others because they were at, or near the top, in all of the considerations. The I-270/US 23 interchange was next primarily due to the highest EJ population served, followed closely by the I-71/Stringtown Road project, US 33 at Pickerington/Allen, and the Delaware Point.
Adopted Goal: Create sustainable neighborhoods to improve residents' quality of life. The criteria for this goal considered which projects serve users going to or coming from higher density areas and multimodal elements of the project, such as facilities for transit, bicyclists and pedestrians. The Far East Freeway projects were tops in this goal. Next were Union County US 33/SR 161/Post Road, US 33 at Pickerington/Allen, and I-270/US 23 interchange.

Comments Received from the Public

On July 11, MORPC issued a press release requesting comments from the public on this year’s TRAC applications. Comments were due by August 9. The table below summarizes the number of comments received.

<table>
<thead>
<tr>
<th>Application</th>
<th>In Support</th>
<th>Opposed</th>
<th>Total Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>Delaware Point (US-36/SR-37 Split)</td>
<td>4</td>
<td>0</td>
<td>4</td>
</tr>
<tr>
<td>Far East Freeway Phase 1, 2 &amp; 3 (two applications)</td>
<td>16</td>
<td>0</td>
<td>16</td>
</tr>
<tr>
<td>South Outerbelt US-23/I-270 Interchange</td>
<td>0</td>
<td>1</td>
<td>1</td>
</tr>
<tr>
<td>South Outerbelt I-71/Stringtown</td>
<td>1</td>
<td>0</td>
<td>1</td>
</tr>
<tr>
<td>Fairfield Co US-33/Pickerington Rd</td>
<td>3</td>
<td>0</td>
<td>3</td>
</tr>
<tr>
<td>Union Co US-33/SR-161/Post Rd</td>

<td>0</td>
</tr>
<tr>
<td>I-71/Big Walnut Interchange</td>
<td>27</td>
<td>68</td>
<td>95</td>
</tr>
</tbody>
</table>

It is important to note that although it is not part of the prioritization process, the I-71/Big Walnut Road interchange application generated a significant amount of comments from the public. The majority of the comments were in opposition to the interchange, and sited concerns with air, noise, and light pollution as well as proximity of the proposed interchange to existing residential neighborhoods and schools.

MORPC Staff Ranking Recommendation

Based on the goal-by-goal evaluation summarized above, the public comments and the phase for which money is being requested, MORPC staff recommends the following priority ranking for the seven TRAC applications requesting funding:

1. Far East Freeway Phases 1, 2 & 3
2. Union County US-33/SR-161/Post Road interchange
3. The Delaware Point
4. US-33/Pickerington Road
5. I-71/Stringtown Road
6. US-23/I-270 Interchange
Note that although Far East Freeway Phase 1 and Far East Freeway Phases 2 & 3 were submitted as two separate applications, the prioritization shows them together as the top priority. We believe funding to begin construction on improvements in this area is critically needed, but would defer to ODOT District 6 on the appropriate phasing to begin implementation should there not be funding allocated to build all of phases 1, 2 & 3.

Resolution T-15-19 recommends these rankings.

TW:NG:DL:MCR

Attachment: Resolution T-15-19
RESOLUTION T-15-19

“ESTABLISHING PRIORITIES FOR CENTRAL OHIO CANDIDATE PROJECTS SUBMITTED IN 2019 FOR TRAC FUNDING”

WHEREAS, the Transportation Policy Committee of the Mid-Ohio Regional Planning Commission (MORPC) is designated as the metropolitan planning organization (MPO) for the Columbus metropolitan area; and

WHEREAS, the Transportation Review Advisory Council (TRAC) selects major new projects to receive funding from the Ohio Department of Transportation’s (ODOT’s) major new capacity program; and

WHEREAS, the TRAC has requested that each MPO submit its priorities for projects in that MPO’s planning area; and

WHEREAS, seven projects requesting funding and one project requesting continued TRAC recognition had been submitted to MORPC for acknowledgement prior to their submittal to the TRAC (see Attachment A); and

WHEREAS, MORPC members and the public were asked to submit comments on the projects; and

WHEREAS, staff provided the Community Advisory, Transportation Advisory and Transportation Policy committees information regarding the applications, including public comments received for staff recommendation; and

WHEREAS, the Community Advisory Committee (CAC) at its meeting on September 4, 2019 and the Transportation Advisory Committee (TAC) at its meeting on September 4, 2019 each created and forwarded a ranked list to advise the Transportation Policy Committee; now therefore

BE IT RESOLVED BY THE TRANSPORTATION POLICY COMMITTEE OF THE MID-OHIO REGIONAL PLANNING COMMISSION:

Section 1. That the attached listing of projects (Attachment A) be established as the order of priorities for the candidate projects submitted to TRAC from the MORPC transportation planning area for major new capacity program funding.

Section 2. That the TRAC is strongly discouraged from funding lower priority projects on this list at the expense of higher priority projects.

Section 3. That it directs MORPC staff to forward these priorities to the TRAC and to present the priorities to the TRAC.
Section 4. That the Transportation Policy Committee finds and determines that all formal deliberations and actions of this committee concerning and relating to the adoption of this resolution were taken in open meetings of this committee.

Rory McGuiness, Chair

MID-OHIO REGIONAL PLANNING COMMISSION

BIG WALNUT INTERCHANGE

SUBMITTED BY: Delaware County Engineer’s Office

ODOT PROJECT ID: 79608

MORPC METROPOLITAN TRANSPORTATION PLAN PROJECT? Yes

COMPETITIVE ADVANTAGE PROJECT? Yes

TOTAL PROJECT COST: $73.7 million

2019 TRAC REQUEST: No funding request

TRAC STATUS REQUEST: Tier II - Development

PROJECT OVERVIEW
The Big Walnut Interchange project will construct a new I-71 interchange at Big Walnut Road near Alum Creek State Park. The new interchange would provide a third access point to I-71 for Delaware County residents and businesses, and is anticipated to be numbered as Exit 124. The project includes road improvements in an approximate half-mile vicinity. Plans also incorporate bike and pedestrian infrastructure, as well as a potential park and ride facility.

TRAC REQUEST
The Delaware County Engineer’s Office is only requesting Tier II status, and it does not include a request for TRAC at this time. The project funding plan currently anticipates more than 50 percent of funding would come from non-TRAC sources.

NOTE: As the project is not seeking funding at this time, MORPC will not evaluate the project as part of the prioritization of the applications within MORPC’s Metropolitan Planning Organization planning area.

PROJECT SCHEDULE
Planning Studies: Sept. 2019 (in progress)

Preliminary Engineering: Sept. 2019 (in progress)

Environmental Approvals: Aug. 2021 (in progress)

Interchange Studies: July 2020 (not started)

Detailed Design: Feb. 2022 (not started)

Right-of-way Acquisition: May 2023 (not started)

Utility Relocation: May 2024 (not started)

Construction: 2024
FAR EAST FREEWAY: PHASE 1

SUBMITTED BY: ODOT District 6

ODOT PROJECT ID: 95639

MORPC METROPOLITAN TRANSPORTATION PLAN PROJECT? Yes

COMPETITIVE ADVANTAGE PROJECT? No

TOTAL PROJECT COST: $136.7 million

2019 TRAC REQUEST: $1.5 million - Right-of-way $73.1 million - Construction

TRAC STATUS REQUEST: Tier I - Construction

PROJECT OVERVIEW

This first phase of the Far East Freeway project will address congestion and safety in the I-70 corridor at the east I-270 outerbelt. The project will replace the southbound I-270 to eastbound I-70 loop ramp with a flyover ramp and construct auxiliary lanes along eastbound I-70 between I-270 and Brice Road. The scope of work is based on the recommendations from the Far East Freeway Study. Funding is also being requested in a separate application for phases 2 and 3, which address the Brice Road interchange.

TRAC REQUEST

ODOT District 6 is requesting $1.5 million for right-of-way acquisition and $73.1 million in construction funding from ODOT’s Transportation Review Advisory Council (TRAC) funding program. These funds are requested for state fiscal year 2020 and 2022, respectively. This project previously received $7.5 million in TRAC funding for preliminary engineering and design development.

Utility Relocation: May 2020 (not started)

Construction: 2022
2019 APPLICATION
TRANSPORTATION REVIEW
ADVISORY COUNCIL (TRAC)

PROJECT OVERVIEW
The second and third phase of the Far East Freeway project will address safety and congestion issues in the I-70 corridor at the Brice Road interchange area. Phase 2 reconfigures the north half of the Brice Road interchange and construction of westbound ramps to the I-270 interchange. Phase 2 also includes replacement of the Brice Road bridge. Phase 3 constructs the south half of the Brice Road interchange. The scope of work is based on the recommendations from the Far East Freeway Study. Funding is also being requested in a separate application for Phase 1, which address the I-270 interchange.

TRAC REQUEST
ODOT District 6 is requesting $1 million for right-of-way acquisition and $53.6 million in construction funding from ODOT’s TRAC. These funds are requested for state fiscal year 2022 and 2024, respectively. This project previously received $7 million in TRAC funding for preliminary engineering and design development.

2019 TRAC REQUEST:
$9.25 million - Construction

TRAC STATUS REQUEST:
Tier I - Development

PROJECT OVERVIEW
The US 33/SR 161 and Post Road Interchange project upgrades the existing rural interchange into an urban interchange to improve safety, reduce congestion, and accommodate growth in the area. The proposed changes to the interchange will include two new loop ramps that will eliminate the existing left-turn conflicts to enter the US 33 ramps. The intersections with both the east and west ramp terminals will be controlled via multi-lane roundabouts that will ensure viable traffic operations well into the future.

TRAC REQUEST
Union County is requesting $9.25 million in construction funding from ODOT’s Transportation Review Advisory Council (TRAC) funding program. These funds are requested for state fiscal year 2022. This project previously received $7 million in TRAC funding.

2019 TRAC REQUEST:
$8 million - Construction

TRAC STATUS REQUEST:
Tier I - Construction

PROJECT OVERVIEW
The Delaware Point project will increase capacity by widening US 36/SR 37 from one to two lanes in each direction. The project includes replacing the Norfolk Southern railroad bridge over US 36/SR 37, and it alleviates one of the Delaware County’s most congested bottlenecks. The project also includes construction of additional turn lanes at the US 36 and SR 37 intersection and the US 36/SR 37 and at the intersection of US 36/SR 37, as well as the intersection of US 36/SR 37 and SR 521.

TRAC REQUEST
The City of Delaware is requesting $8 million in construction funding from ODOT’s Transportation Review Advisory Council (TRAC) funding program. These funds are requested for state fiscal year 2022. This project previously received $1.5 million in TRAC funding for right-of-way acquisition.

COMPETITIVE ADVANTAGE PROJECT?
Yes

TOTAL PROJECT COST:
$58 million

2019 TRAC REQUEST:
$10 million - Right-of-way

TRAC STATUS REQUEST:
Tier II - Development

PROJECT OVERVIEW
This project will remove the existing intersections along US 33 from Pickerington Road to Allen Road. These intersections will be replaced with an interchange facility to be located between the Hill-Diley Road and Winchester Road (Carroll) interchanges. Removing the traffic signal at Pickerington Road—the last signal between I-270 and the Lancaster bypass—supports the long-term goal to convert US 33 to a freeway facility between Columbus and Lancaster.

TRAC REQUEST
ODOT District 5 is requesting $10 million in right-of-way funding from ODOT’s TRAC. These funds are requested for state fiscal year 2023. This project has not previously received TRAC funding.

$10 million - Construction

TRAC STATUS REQUEST:
Tier I - Construction

PROJECT OVERVIEW
This project is a component of a multi-phase improvement to increase capacity, reduce congestion, and improve safety on I-71 in the vicinity of the south outerbelt of Columbus. The project adds a northbound express lane between the I-71/Stringtown Road and I-270/I-71 interchanges. The project consists of resurfacing and full-depth widening of I-71 northbound in order to extend the express lane and remove the northbound weave between the two interchanges. The scope of work is based on the recommendations from the South Outerbelt Study. Other projects from the study have previously been funded by TRAC.

TRAC REQUEST
ODOT District 6 is requesting $10 million in construction funding from ODOT’s TRAC. These funds are requested for state fiscal year 2021. This project has not previously received TRAC funding.

PROJECT OVERVIEW
This project will improve the safety, capacity, and operation of the I-270 and US 23 interchange by removing two cloverleaf ramps, constructing two new signalized ramps, rehabilitating two bridge structures, and resurfacing portions of I-270 and US 23. The scope of work is based on the recommendations from the South Outerbelt Study. Other projects from the study have previously been funded by TRAC.

TRAC REQUEST
ODOT District 6 is requesting $13 million in construction funding from ODOT’s TRAC. These funds are requested for state fiscal year 2021. This project previously received $3.9 million in TRAC funding for preliminary engineering, design development, and right-of-way acquisition.

Meeting Called to Order – Rory McGuiness (City of Columbus), MORPC Chair
Chair Rory McGuiness called the Commission meeting to order at 1:32 p.m. followed by the pledge of allegiance.

A moment of silence was observed in honor of John Eisel, Violet Township Director of Operations and MORPC Commission Member.

Chair McGuiness announced that today’s cupcakes are in celebration of MORPC’s 50th Anniversary and were provided by Sweet T’s Desserts & Catering.

Eileen Leuby welcomed new Commission member Ben Stahler, representing the City of Bellfontaine; and soon to be Commission members Rick Szabrak and Loudan Klein representing Fairfield County joining MORPC effective January 1, 2020. Ms. Leuby introduced guests: Albert Iosue, City of Hilliard; Curtiss Dickess, Summer Intern; Jim Shawn, Ohio Attorney General’s Office; Bart Logan and Courtnee Carrigan from Franklin County Jobs & Family Services; Mike Hochran, Franklin County Board of Commissioners; Kirstin Hilsch, FSWCD; and Mealnie Farkas, candidate for Liberty Township Trustee.

One MORPC One Voice: RiseTogether – A Blueprint for Reducing Poverty in Franklin County – Joy Bivens, Franklin County Director of Job and Family Services
Joy Bivens presented Rise Together: A Blueprint for Reducing Poverty in Franklin County. Columbus is the fastest growing city in the Midwest and is expected to add one million people in 20 years. The blueprint process is about addressing poverty in our community and ensuring that all residents have equal access to high-paying jobs, good schools, quality healthcare, affordable housing, and transportation options. The task force engaged in 200 conversations with people in poverty in the county. Racism is recognized as an underlying condition of poverty. In addition to the plan’s goals and action steps, Franklin County has committed to leadership in remedying racial inequity.

The blueprint has 13 goals and 120 action steps. An innovation center will house and coordinate the work. The center is to bring together partners, develop metrics/universal dashboard, share best practices, coordinate partner activities, incubate and test big ideas, etc. Activities for the next 12-18 months include appointing a leadership council and hiring dedicated staff. The council and staff will be temporarily housed at Columbus Partnership/Columbus 2020.

The plan is not going to eradicate poverty overnight, but it is a start to working collectively together. The Blueprint is available at www.franklincountyohio.gov/information/employment.

Executive Director’s Report – William Murdock, MORPC Executive Director
William Murdock introduced a video celebrating MORPC’s 50th Anniversary. Certificates of Appreciation were to presented to the following for their service to MORPC over the years:

- Tom Homan – 20 years
- Ike Stage – 20 years
- Bonnie Michael – 24 years
- Laura Koprowski – 20+ years
- Nancy White – 25 years
- Cornell Robertson – 27 years
- Bill Habig – 50 years
Mr. Murdock congratulated Erik Janas on successfully delivering the first pitch at the MORPC Night at the Clippers game on August 7.

The One Region One MORPC Speaker Series highlights diverse things happening in the region. MORPC’s internal leadership academy group is looking at diverse issues with young people and minority business enterprises. MORPC Team Members participated in implicit bias training.

The Rickenbacker Area Study was featured at the July 10 Columbus Metropolitan Club (CMC) Forum. Video of the forum is available.

The Corridor Concepts Study was rolled out earlier this summer. There is now an effort to try to get organized in moving forward with COTA and the private sector.

MORPC was able to execute a lease amendment to include the lower space in the building. We are moving quickly to fix the space into meeting space and renovating our current office space. The lease was amended to coincide with the current space lease time frame. While there is a slight increase in costs the first few years, it ultimately is less expensive later.

Mr. Murdock shared that Kerstin Carr graduated from Leadership Columbus and Aaron Schill is accepted into the next Leadership Columbus class.

Twenty-nine communities participated in this year’s Salary Survey which will be available soon. The survey allows you to see what your peers are paying their employees and what kind of benefits they offer. Mr. Murdock expressed his appreciation for those communities that participated.

The Ohio Conference of Community Development presented MORPC’s Residential Services with the 2019 Community Development Partner of the Year Award.

Last week MORPC officially announced the twelve communities supporting the Regional Housing Strategy. The committee work started this morning with over 100 people serving on the steering or advisory committees. The effort is regional, ambitious, quick and focused on market solutions. Recommendations are expected by the end of the first quarter.

September is Transportation Safety Month. After the robust discussion at the June Commission meeting on transportation safety, we will present more on the Safety Plan then. We are looking at certain trends, goals, different things our communities are doing, or even perhaps rally around particular actions as a region.

The insight2050 Academy Series resumes this Fall and kicks-off September 27. The Academy is for practitioners, planning commission members, or anyone interested in development and growth. The Fall academy is focused on housing.

Jay Walder, CEO of Virgin Hyperloop One (VHO) was in Columbus a few days this week. Mr. Walder participated in a community round table, met with the ODOT director, business leaders and government officials. He brought a test vehicle to COSI, the Statehouse lawn, and took it on a whistle stop tour through Dublin and Marysville. VHO is looking for areas in the country where they can engage more with employing people in research and development. Virgin Hyperloop One was featured at the August 7 CMC Forum.
Quarterly Membership Update – Eileen Leuby, MORPC Membership Coordinator
Eileen Leuby gave the Membership Services Quarterly Report highlighting:
  • Recap of member events
  • Upcoming events
  • Member visits

Proposed Resolution 12-19: “Accepting the City of Bellefontaine as a member of the Mid-Ohio Regional Planning Commission (MORPC)” – William Murdock, MORPC Executive Director
Greg Lestini made a motion to approve Resolution 12-19, second by Tom Kneeland; motion passed.

Proposed Resolution 13-19: “Accepting Fairfield County as a member of the Mid-Ohio Regional Planning Commission (MORPC)” – William Murdock, MORPC Executive Director
This resolution is effective January 1, 2020.

Roby Schottke made a motion to approve Resolution 13-19, second by Bonnie Michael; motion passed.

Proposed Resolution 14-19: “MORPC Sustainable2050 Commitment” – Kerstin Carr, MORPC Planning & Sustainability Director
This resolution commits MORPC to go through the Sustainable2050 certification process.

Pamela Hykes O’Grady made a motion to approve Resolution 14-19, second by David Scheffler; motion passed.

Committees

Central Ohio Rural Planning Organization – Jeff Harris (Knox County), Central Ohio Rural Planning Organization (CORPO) Vice Chair
CORPO is the surrounding “C” of rural counties around MORPC’s MPO area. The second quarterly newsletter is on the CORPO website. MORPC Team Members provided additional data on projects in CORPO’s Transportation Plan, as requested by ODOT. The data and metrics may assist ODOT in their funding and selection process. CORPO subcommittee meetings in August and September will also serve as rural coordination meetings. CORPO is participating on a Route 33 Advisory Committee with ODOT focusing on US33 from Post Road to central Logan County.

Regional Data Advisory Committee – Tom Kneeland (City of Gahanna), Regional Data Advisory Committee Chair
Aaron Schill reported the Census Big Count Committees are getting under way. The census website has a map with complete count information. MORPC is heading the local government subcommittee and wants as many as possible local governments represented. Let Mr. Schill know if your community is not represented. The citizenship question is officially not on the census form next year. The local government subcommittee is putting together resources for local governments to share with people. The census is hiring a lot in Central Ohio. See the census website for job postings.
Tom Kneeland gave the Regional Data Advisory Committee (RDAC) Update. RDAC has created four subcommittees since June 19:

- Regional Data Users Group
- CURA Sustainability Dashboard in collaboration with the Sustainability Advisory Committee
- Local Government Data Policy Needs Survey and Toolkit
- Regional Municipal Fiber Strategy Group (COSMOS is also working on this)

Initial working group meetings are underway. RDAC is finalizing membership; they need more municipal partners.

**Regional Policy Roundtable** – Ben Collins (Plain Township), Regional Policy Roundtable Vice Chair

Ben Collins presented the Regional Policy Roundtable Update. The Regional Policy Roundtable met last week. Grove City Councilman Rory Schottke was appointed to the Roundtable. A special meeting will be held on HB 163 (Municipal Water/Sewer practices). The Roundtable will not take a stance on the bill but will take the opportunity to provide information to members on the economic development impact of the bill so they can make individual decisions. The next Roundtable meeting is October 29.

- **Legislative Update** – Joe Garrity, MORPC Government Affairs Director and Steve Tugend, Kegler Brown Hill + Ritter
  
  Steve Tugend and Joe Garrity gave the legislative update highlighting the following:
  
  - HB 166 – State Operating Budget (a fact sheet on MORPC’s Advocacy was provided)
  - USDOT and Hyperloop Advocacy
  - HB 6 – Energy Subsidy
  - Federal Advocacy for the Columbus Crossroads Project
  - Transportation Reauthorization Bill
  - Local governments will receive disbursements from the gas tax implemented July 1 between September 15 and October 15.

  See the August 2019 Monthly Legislative Update for other legislative news.

**Sustainability Advisory Committee** – Jim Schimmer (Franklin County), Sustainability Advisory Committee Chair

Jim Schimmer presented the Sustainability Advisory Committee Report. Mr. Schimmer announced the recent appointment of two new members to the Sustainability Advisory Committee (SAC): Mayor Ben Kessler with the City of Bexley and Ronn Stewart with Pizzuti Companies.

MORPC’s Regional Data Advisory Committee and Sustainability Advisory Committee are working in partnership with the OSU Center for Urban and Regional Analysis (CURA) to develop a dynamically-fed dashboard, customized to represent the goals of the Regional Sustainability Agenda.

MORPC and the Central Ohio Greenways (COG) Board have been awarded grant funding from The Columbus Foundation to conduct an Impact of Trails study. The study will estimate the impacts of the proposed 730-mile trail system on health, the economy, social equity, and the environment. It will also help the COG Board strengthen support for the regional trail vision and
focus priorities in areas that have the most impact. MORPC recently submitted a grant application for the other half of the study. The RFP process for this study is expected to begin in the next few months.

Jim Schimmer and Kerstin Carr recognized Franklin County for being certified as Platinum for Sustainable2050. Tier Status is determined by a combination of completing three mandatory activities, completion of one or more eligible activities, and carrying out the eligible activities across one or more categories.

**Transportation Policy Committee – Rory McGuiness (City of Columbus), MORPC Chair**
Chair McGuiness called the Transportation Policy Committee Session to order at 2:49 p.m. The session adjourned at 2:59 p.m. Separate minutes are attached.

**Commission Consent Agenda**
Bill LaFayette made a motion to approve the Commission Consent Agenda, second by David Scheffler; motion passed.

The meeting adjourned at 3:00 p.m.
