DATA DAY THEME: CENSUS DATA

The Regional Data Advisory Committee (RDAC), as part of the 2021-2022 Regional Data Agenda, is organizing a "Data Day" for the Central Ohio region to support and provide opportunities for building data capacity and education. Data Day is intended to bring the data creators and end users of the Central Ohio data community together to share their experiences, innovative uses of tools and analyses, and creative projects that are moving Central Ohio forward. By coming together and collaborating, these kinds of opportunities will build upon the existing data communities' foundations to increase the region's human and technological capabilities. The inaugural event will be held at the Mid-Ohio Regional Planning Commission (MORPC) on September 15th from 9:00 AM to 4:00 PM.
