SCOPE OF WORK OUTLINE

Central Ohio Greenways Vision Refinement

Background: The Central Ohio Greenways (COG) Vision establishes a vision for the future network of regionally significant trail facilities in Central Ohio. Many of the proposed facilities were originally identified along river corridors or constrained roadways but may be more feasible along different routes.

Description: This activity will allow a community to review the COG Vision in detail within their jurisdiction to refine the proposed trail facilities and develop a strategy for prioritizing and implementing those proposed facilities. Completion of this activity should lead to a feasibility study or application for funding to design and/or implement the identified facilities.

Anticipated Services:

- a. Review existing plans and projects
 - i. Local agency will compile all local plans and proposed projects
 - ii. MORPC will review plans, proposed projects, and COG Vision to establish working base map for refinement
- a. Data development and analysis
 - i. MORPC staff will conduct data analysis as necessary to identify potential routes
- b. Lead up to two (2) workshops for staff, stakeholders, or public
 - iii. Local agency will identify priority groups to meet with and coordinate invitations
 - iv. MORPC staff will lead workshops to review existing plans, identify alternatives, and develop strategies for implementation
- c. Finalize potential route options and implementation strategies
 - v. MORPC staff will conduct any final data analysis, as necessary
 - vi. MORPC staff will consolidate input from all parties into summary of potential COG routes and related recommendations

Anticipated Deliverables:

- a. Technical documentation including:
 - i. Potential routes and any relevant opportunities/constraints
 - ii. Recommended network connections and access points
- b. Strategy document identifying next steps and implementation
