Questions and Answers

Updated November 8, 2022

Question 1

Since the scope of work does not include signage design, are you expecting a general design for how the strategy would be implemented on the Ohio to Erie Trail?

Answer:

An entirely new signage design is not expected; however, we encourage the detailed example/case study as requested in Part 2 of the scope to include recommendations for how existing signage may be modified along the Ohio to Erie Trail to implement the recommended wayfinding strategy.

Question 2

What is the length of the Ohio to Erie trail where the data will be collected, and the strategy applied?

Answer:

The Ohio to Erie Trail within Madison, Franklin, Delaware, and Knox Counties is approximately 100 miles. Smaller locally known trails follow the same route as the Ohio to Erie Trail. You may recognize parts of the trail by the names Alum Creek Trail, Heart of Ohio Trail, Camp Chase Trail, and others.
