Washington, D.C. 20590

Re: Support for the Williams Road Multimodal Corridor Planning RAISE Application

Dear Secretary Buttigieg:

On behalf of Columbus City Council, I am writing this letter to express our strong support and to reinforce the regional commitment for the joint City of Columbus, Franklin County, and Mid-Ohio Regional Planning Commission (MORPC) RAISE planning grant application for the Williams Road Multimodal Corridor Planning project. This project is requesting a RAISE planning grant to develop a consistent corridor concept plan for the entire 6.5 mile Williams Road corridor, from the road's western terminus at the new Great Southern Metro Park, to its eastern terminus at State Route 317 (Hamilton Road). This project was designated a Project of Merit during the FY 2022 RAISE Round.

The City of Columbus is committed to advancing transportation options for all residents. Williams Road is an important east-west roadway and is identified on the Central Ohio Greenway's Trail Vision Plan as a future corridor for a significant bikeway and pedestrian connection on Columbus' south side. This project will help advance Columbus' strategic mobility goals and connect the City.

This project will also greatly benefit the economic assets on the south side, including Rickenbacker Airport and Global Logistics Park and Foreign Trade Zone 138. MORPC identified the need for improving the Williams Road corridor as part of its 2018 Rickenbacker Area Study, due to the projected population and employment growth along the corridor. The current roadway is heavily travelled by residents and freight, yet it is only two lanes and lacks any bicycle or pedestrian facilities. This has contributed to multiple traffic fatalities and serious injuries. Significant improvements are required to ensure the roadway can safely support the corridor's projected growth.

However, the large scale of the corridor and its significant multi-jurisdictional, multi-use, and multi-modal improvements are far too difficult for any single, local jurisdiction to implement on its own. The project area involves the coordination of three cities (Columbus, Obetz, and Groveport), two townships (Hamilton and Madison), Franklin County, the Columbus and Franklin County

Metro Parks, and numerous stakeholders. The corridor serves a wide variety of land uses, including regional parkland, residential, commercial, logistics, and two rail yards (CSX and Norfolk Southern). The corridor's two at-grade crossings and one separated crossing have a significant impact on traffic moving through the corridor. There are utility challenges, the majority of the corridor lacks bicycle and pedestrian facilities, and the existing roadway and intersections are inadequate to safely support the variety of users who currently use the corridor (personal and commercial vehicles) or want to use the corridor (bicyclists and pedestrians). Addressing these challenges will significantly improve freight and transportation opportunities along a corridor that includes opportunity zones, areas of persistent poverty, and historically disadvantaged census tracts.

In light of these challenges, a RAISE planning grant is necessary to help create a unified concept for this very complicated corridor that is in such great need of safety, mobility, congestion, and capacity improvements. The project's potential impact was recognized during the FY 2022 RAISE Round, when the U.S. Department of Transportation recognized it as a Project of Merit. This project would substantially advance the social, environmental, and economic objectives laid out by Columbus City Council. We respectfully request that you consider the challenges of the corridor, the need to create more transportation opportunities within it, and the potential this project has to positively impact our community in a transformative way. We urge your renewed consideration of the application.

Sincerely,

Shannon G. Hardin
