Re: Support for the Williams Road Multimodal Corridor Planning RAISE Application

Dear Secretary Buttigieg:

On behalf of the City of Groveport, Ohio, I am writing this letter to express our strong support and to reinforce the regional commitment for the joint City of Columbus, Franklin County, and Mid-Ohio Regional Planning Commission (MORPC) RAISE planning grant application for the Williams Road Multimodal Corridor Planning project. This project is requesting a RAISE planning grant to develop a consistent corridor concept plan for the entire 6.5 mile Williams Road corridor, from the road's western terminus at the new Great Southern Metro Park, to its eastern terminus at State Route 317 (Hamilton Road). This project was designated a Project of Merit during the FY 2022 RAISE Round.

The City of Groveport is a major distribution hub in central Ohio. The City has experienced tremendous economic growth over the last twenty-five years due to our dedication to continuously promote the City as a world-class place in which to do business with appealing assets, incentives and amenities. The population of Groveport is 6,069 residents. However, with our warehouse and distribution, the daily commuter population increases by over 100%, putting a strain on our local roadways.

Williams Road is an important east-west roadway and is identified on the Central Ohio Greenway's Trail Vision Plan as a future corridor for a significant bikeway and pedestrian connection on Columbus' south side. It also supports projected household and employment growth within the larger south side region and Rickenbacker Airport and Global Logistics Park, including Foreign Trade Zone 138. MORPC identified the need for improving the Williams Road corridor as part of its 2018 Rickenbacker Area Study, due to the projected population and employment growth along the corridor. The current roadway is heavily travelled by residents and freight, yet it is only two lanes and lacks any bicycle or pedestrian facilities. This has contributed to multiple traffic fatalities and serious injuries. Significant improvements are required to ensure the roadway can safely support the corridor's projected growth.

However, the large scale of the corridor and its required significant multi-jurisdictional, multi-use, and multi-modal improvements are far too difficult for any single, local jurisdiction to implement on its own. The project area involves the coordination of three cities (Columbus, Obetz, and Groveport), two townships (Hamilton and Madison), Franklin County, the Columbus and Franklin County Metro Parks, and numerous stakeholders. The corridor serves a wide variety of land uses, including regional parkland, residential, commercial, logistics, and two rail yards (CSX and Norfolk Southern). The corridor's two at-grade crossings and one separated crossing have a significant impact on traffic moving through the corridor. There are utility challenges, the majority of the corridor lacks bicycle and pedestrian facilities, and the existing roadway and intersections are inadequate to safely support the variety of users who currently use the corridor (personal and commercial vehicles) or want to use the corridor (bicyclists and pedestrians). Addressing these challenges will significantly improve freight and transportation opportunities along a corridor that includes opportunity zones, areas of persistent poverty, and historically disadvantaged census tracts.

A RAISE planning grant is necessary to help create a unified concept for this very complicated corridor that is in such great need of safety, mobility, congestion, and capacity improvements. The project's potential impact was recognized during the FY 2022 RAISE Round, when the U.S. Department of Transportation recognized it as a Project of Merit. We respectfully request that you consider the challenges of the corridor, the need to create more transportation opportunities within it, and the potential this project has to positively impact our community. We urge your renewed consideration of the application.

Sincerely,

Benjamin J. King
City Administrator
City of Groveport
