

# I-70 TO US 33 CONNECTOR

PROJECT  
PROFILE

MEMBERS OF  
CONGRESS  
HOUSE

The I-70 to US 33 Connector project will construct a parkway between Interstate 70 and US 33 to the east of the City of Pickerington. Once completed, the roadway will have two lanes in each direction. This will mitigate commercial industry traffic on I-270 while creating development opportunities in Violet, Greenfield, and Liberty Townships.

## FAIRFIELD COUNTY

### Lead Agency:

Fairfield County Engineer's Office

### Partner Agencies:

Violet Township (Fairfield Co.), Etna Township (Licking Co.), Fairfield County TID, Ohio Department of Transportation, Mid-Ohio Regional Planning Commission

### Estimated Cost:

\$240 million

### Jobs Supported:

Potential development of office, warehouse, and logistics employment centers

### Program Pillar:

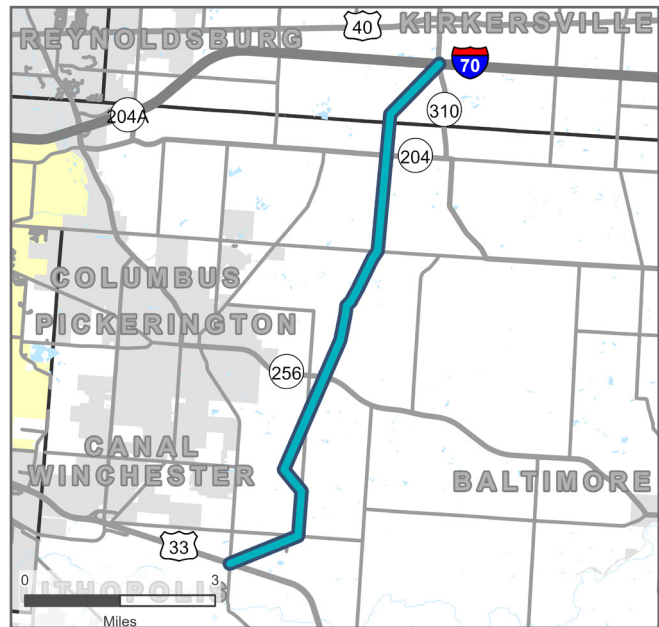

Infrastructure Planning and Implementation

### Project Contact:

Mitch Noland, Deputy Engineer, Fairfield County  
mitch.noland@fairfieldcountyohio.gov

## Project Benefits:

- Prepares for the increased commercial industry traffic presented from the new Intel facility in Licking County.
- Maintains competitive infrastructure by relieving traffic congestion through central Pickerington and on the US33 and I-270 corridors.
- Adds value to the transportation system by linking national and statewide highway corridors as identified by Access Ohio 2045.
- Facilitates economic growth, particularly by providing improved access for industries and warehouses in the Pickerington and Fairfield County area.
- Aligns with the MORPC Metropolitan Transportation Plan (MTP).

### Project Location

Proposed connector between I-70 and US 33
