

MOBILITY EXCHANGE

Innovation in Motion. Safety in Focus.

June 17, 2026 | OSU Vitria on the Square | 9:00 AM - 4:00 PM

Central Ohio is on the move, and the Mobility Exchange is where its future takes shape. As one of the fastest growing regions in the Midwest, Central Ohio is experiencing unprecedented investment, innovation, and opportunity. But with that growth comes a critical challenge: how do we build a transportation system that keeps pace while ensuring it is safe, accessible, and equitable for everyone?

The Mobility Exchange brings together the power of two cornerstone conversations – mobility innovation and transportation safety – into one dynamic, can't-miss event.

Each year, more than 200 lives are lost and over 1,200 people suffer injuries on our region's roadways. At the same time, transformative investments in technology, infrastructure, and advanced manufacturing are reshaping how people and goods move throughout Central Ohio. The stakes have never been higher or the opportunity greater to guide our transportation system forward with these important topics at the forefront.

The Mobility Exchange convenes the region's top leaders, visionaries, and changemakers from public officials and industry innovators to planners, public health experts, and community advocates to tackle our toughest transportation challenges head-on.

Explore the sponsorship opportunities to find the perfect fit for your organization. Secure your sponsorship today!
