SR 315 AT LANE AVENUE

PROJECT OVERVIEW

This project supports economic development in and around the Ohio State Innovation District to addresses mobility, system linkage, and access issues created by SR 315's initial construction and area growth. Significant work is expected on SR 315's Lane Avenue interchange and Lane Avenue itself, as well as the associated bridges, signals, intersections, interchanges, and ramps. The PE phase will identify alternatives for an improved interchange configuration and conclude with a preferred configuration that best serves regional jobs growth.

2026 TRAC REQUEST

City of Columbus is requesting to remain in Tier II status and $4.1 million for Detailed Design in state fiscal year 2029.

PROJECT DETAILS

Project Name: FRA SR 315 at Lane Ave

Common Name: SR 315 at Lane Avenue

Sponsor: City of Columbus

ODOT Project ID: 117947

MORPC MTP Project: Yes

Competitive Advantage Project: Yes

Total Project Cost: $113.9 million

Current TRAC Status: Tier II - Development

Requested TRAC Status: Tier II - Development

PROJECT LOCATION

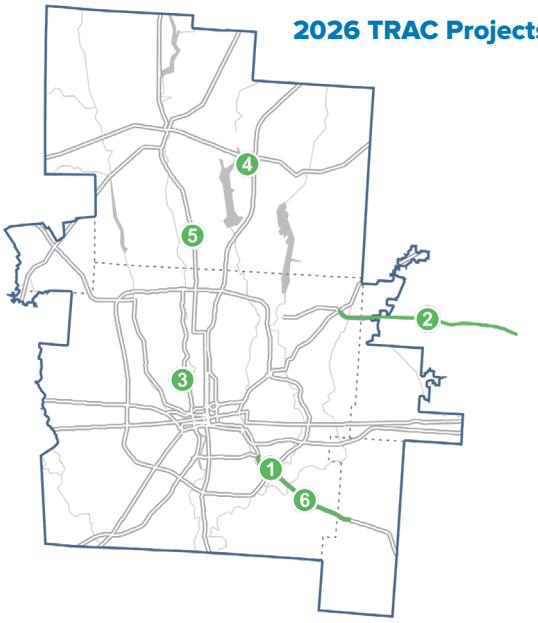

County: Franklin

ODOT District: District 6

Jurisdictions: Columbus, Clinton Township

Routes: SR 315, Lane Avenue, Kenny Road

Map Label: 3
